MAINTENANCE

Proper care will extend the life and appearance of your mopio Aaron Futon Sofa Bed.

Cleaning Instructions

- For general cleaning, wipe the faux leather upholstery with a damp cloth.

- Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the material.
- Regularly vacuum around and under the futon to prevent dust and debris accumulation. The 7.9" height clearance allows for easy cleaning access underneath.

General Care

- Avoid direct sunlight exposure for prolonged periods to prevent fading.
- Keep sharp objects away from the upholstery to prevent punctures or tears.
- Periodically check and tighten all assembly hardware to ensure stability.

TROUBLESHOOTING

This section addresses common concerns you might encounter with your futon.

Common Issues and Solutions

- **Issue: Futon feels too firm.**
Solution: The futon is designed with a firm foam seat for durability and support. Over time, the cushions may soften slightly with use. For additional comfort, consider adding a mattress topper or extra padding when using it as a bed.
- **Issue: Difficulty adjusting the backrest.**
Solution: Ensure you push the backrest fully forward until it clicks before attempting to recline it to a lower position. If one side is stuck, try adjusting the other side first, then return to the problematic side.
- **Issue: Unstable or wobbly futon.**
Solution: Check all leg attachments and assembly hardware. Tighten any loose screws or bolts. Ensure the futon is placed on a flat, even surface.
- **Issue: Visible black fabric on the back of the futon.**
Information: The back of the futon is finished with black fabric. If you plan to place the futon away from a wall, this finish will be visible. Consider positioning the futon against a wall or using decorative elements to conceal the back if desired.
