Quechua NH100

Quechua NH Arpenaz 100 10L Daypack User Manual

Model: NH100

INTRODUCTION

This manual provides essential information for the proper use, adjustment, and care of your Quechua NH Arpenaz 100 10L Daypack. Please read these instructions carefully to ensure optimal performance and longevity of your product.

Figure 1: Front view of the Quechua NH Arpenaz 100 10L Daypack. This image shows the compact design and main zippered compartment.

SETUP AND ADJUSTMENT

Proper adjustment of your backpack is crucial for comfort and weight distribution, especially during extended use.

1. **Loosen All Straps:** Before putting on the backpack, fully loosen all adjustable straps, including shoulder straps and any load adjuster straps.
2. **Put on the Backpack:** Place the backpack on your back, ensuring the shoulder straps are comfortably positioned over your shoulders.
3. **Tighten Shoulder Straps:** Pull the ends of the shoulder straps downwards to tighten them until the backpack feels secure and close to your back. The weight should be distributed evenly.
4. **Adjust Load Adjuster Straps (if present):** If your backpack has load adjuster straps (small straps connecting the top of the shoulder straps to the top of the backpack), tighten them slightly to pull the top of the backpack closer to your body. This helps stabilize the load.

LOADING YOUR BACKPACK

Efficient packing helps maintain balance and comfort while carrying your daypack.

- **Heavy Items at the Bottom:** Place heavier items towards the bottom and center of the main compartment, close to your back. This helps maintain a lower center of gravity.
- **Pack Around Heavy Items:** Arrange softer items, such as clothing, around the heavier items to prevent them from shifting and to fill empty spaces.
- **Accessible Essentials:** Keep frequently needed items, like a waterproof jacket, snacks, or a map, in easily accessible areas or outer pockets.
- **Small Items in Pockets:** Utilize the smaller pockets for small essentials such as sun cream, keys, or a phone.

CARE AND MAINTENANCE

To ensure the longevity and performance of your Quechua NH Arpenaz 100 Daypack, follow these care guidelines:

- **Cleaning:** For light cleaning, wipe the backpack with a damp cloth and mild soap. Do not machine wash, tumble dry, iron, or dry clean, as this can damage the fabric and coatings.
- **Drying:** Allow the backpack to air dry completely in a well-ventilated area, away from direct sunlight or heat sources. Ensure it is fully dry before storing to prevent mildew.
- **Storage:** Store the backpack in a cool, dry place when not in use. Avoid compressing it excessively for long periods.
- **Zippers:** Keep zippers clean and free of debris. If they become stiff, a small amount of zipper lubricant can be applied.

TROUBLESHOOTING

Here are some common issues and their potential solutions:

- **Discomfort during wear:**
 - Ensure all straps are properly adjusted according to the "Setup and Adjustment" section.
 - Check the weight distribution of your packed items. Heavy items should be closer to your back and lower in the pack.
- **Zippers sticking:**
 - Clean any dirt or debris from the zipper teeth.
 - Apply a small amount of zipper lubricant or a graphite pencil to the teeth.
- **Fabric appears dirty:**

- Refer to the "Care and Maintenance" section for cleaning instructions.

PRODUCT SPECIFICATIONS

Quechua NH Arpenaz 100 10L Daypack

Feature	Detail
Model Number	NH100
Capacity	10 Liters
Dimensions (H x W x D)	15.4 x 8.3 x 4.7 inches (39 x 21 x 12 cm)
