# Vente-unique TYRAL Hydromassage Shower Cabin Instruction Manual

## 1. INTRODUCTION

---

Thank you for choosing the Vente-unique TYRAL Hydromassage Shower Cabin. This manual provides essential information for the safe installation, operation, and maintenance of your new shower cabin. Please read these instructions carefully before assembly and use, and retain them for future reference.

## 2. SAFETY INFORMATION

---

- Ensure all connections are watertight to prevent leaks and water damage.
- Installation should be performed by individuals with appropriate technical knowledge, following local plumbing and electrical codes.
- Do not use abrasive cleaners or harsh chemicals on glass or acrylic surfaces, as this may cause damage.
- Verify that the floor can support the weight of the shower cabin when filled with water and a user.
- Keep children supervised when near the shower cabin.

## 3. PACKAGE CONTENTS

---

Before beginning assembly, ensure all components are present and undamaged. The package includes:

- TYRAL Hydromassage Shower Cabin structure (tempered glass panels, metal frame, acrylic ABS base)
- Tropical rain showerhead
- Multi-function hand shower with hose
- Single-lever mixer tap
- 6 hydromassage jet zones (each with 3 micro-jets)
- Glass shelf
- Door handles
- Drain assembly
- Connection hoses

- Mounting hardware (screws, knobs, etc.)

## 4. SETUP AND INSTALLATION

---

Assembly of the Vente-unique TYRAL Hydromassage Shower Cabin is required. The design allows for reversible installation to suit your bathroom layout.

### 4.1 Site Preparation

- Ensure the installation area has a level floor and adequate water supply and drainage connections.
- Confirm sufficient space for the shower cabin (90 cm length x 70 cm width x 212 cm height).

### 4.2 Assembly Steps (General Guidelines)

1. **Base Installation:** Position the acrylic ABS base on the prepared, level surface. Connect the drain assembly to your bathroom's drainage system.
2. **Frame Assembly:** Assemble the metal frame components according to the detailed diagrams provided in the separate assembly guide.
3. **Panel Installation:** Carefully install the 5mm thick tempered glass back panels and fixed side panels into the frame.
4. **Door Installation:** Mount the 5mm thick tempered glass sliding doors. Ensure they slide smoothly and seal properly when closed. Attach the door handles.
5. **Plumbing Connections:** Connect the water supply lines to the single-lever mixer tap. Install the tropical rain showerhead, multi-function hand shower, and hydromassage jets. Ensure all connections are tightened and sealed to prevent leaks.
6. **Final Checks:** Before first use, run water through all functions to check for leaks and proper operation of all components.

Figure 2: Ergonomic chrome handles for the sliding shower doors.

## 5. OPERATING INSTRUCTIONS

---

The TYRAL Hydromassage Shower Cabin offers multiple functions for a customized showering experience.

### 5.1 Water Control

- The single-lever mixer tap controls water flow and temperature. Move the lever left or right to adjust temperature, and up or down to adjust flow.
- The tap typically has 3 settings to direct water to the desired outlet: tropical rain shower, hand shower, or hydromassage jets.

### 5.2 Shower Functions

- **Tropical Rain Shower:** Select this setting on the mixer tap for a wide, gentle overhead spray.
- **Multi-function Hand Shower:** Select this setting to use the flexible hand shower. Adjust the spray pattern by rotating the showerhead face.
- **Hydromassage Jets:** Select this setting to activate the 6 hydromassage jet zones, each featuring 3

micro-jets for a targeted massage.

## 6. MAINTENANCE

---

Regular cleaning and maintenance will ensure the longevity and optimal performance of your shower cabin.

- **Daily Cleaning:** After each use, rinse the interior surfaces with clean water to remove soap residue. Use a soft cloth or squeegee to wipe down glass panels to prevent water spots.
- **Weekly Cleaning:** Clean all surfaces (glass, acrylic, chrome) with a mild, non-abrasive bathroom cleaner. Avoid cleaners containing ammonia, bleach, or abrasive particles, as these can damage finishes.
- **Jet and Showerhead Maintenance:** Periodically check the hydromassage jets and showerheads for mineral buildup. Clean any clogged nozzles using a soft brush or by soaking in a descaling solution if necessary.
- **Drain Cleaning:** Regularly remove and clean the drain trap to prevent blockages.

Figure 7: The internal glass shelf, suitable for storing shower essentials. Clean regularly to prevent soap scum buildup.

## 7. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your shower cabin.

Problem	Possible Cause	Solution
Water leaks from connections	Loose fittings or damaged seals.	Tighten all connections. Check and replace any worn or damaged O-rings or seals.
Low water pressure	Clogged showerhead/jets or low household water pressure.	Clean showerhead and jet nozzles. Check household water supply.
Doors do not slide smoothly	Dirt in tracks or misaligned rollers.	Clean door tracks thoroughly. Adjust or replace rollers if necessary.
Drainage is slow	Clogged drain.	Remove and clean the drain trap. Use a drain cleaner suitable for plumbing.

## 8. SPECIFICATIONS

---

Feature	Detail
Model	TYRAL
Brand	Vente-unique
Dimensions (L x W x H)	90 cm x 70 cm x 212 cm
Product Weight	106 kg
Color	Transparent, White
Material	Tempered Glass, Acrylic ABS
Glass Thickness	5 mm
Hydromassage Jets	6 zones, each with 3 micro-jets
Showerheads	Tropical rain shower, Multi-function hand shower
