### 4. SETUP (ASSEMBLY INSTRUCTIONS)

Assembly of the AUTLAN wardrobe requires careful attention to detail. Please follow the step-by-step instructions and diagrams provided in the separate assembly guide included with your product. Ensure you have sufficient space and the necessary tools before starting.

1. **Prepare the Area:** Clear a spacious area on a soft, clean surface (e.g., a rug or blanket) to prevent scratching the furniture parts.
2. **Identify Parts:** Unpack all components and hardware. Refer to the parts list in your assembly guide to identify each piece.
3. **Follow Steps Sequentially:** Adhere strictly to the numbered steps in the assembly guide. Do not skip steps.
4. **Secure Connections:** Ensure all screws, dowels, and fasteners are securely tightened, but do not overtighten.
5. **Install Anti-Tip Hardware:** Once assembled, securely attach the wardrobe to the wall using the provided anti-tip kit. This is a critical safety step.

## 5. OPERATING (USAGE)

The AUTLAN wardrobe is designed for efficient storage of clothing and personal items.

- **Sliding Doors:** The two sliding doors operate smoothly on their tracks. To open or close, gently push or pull the door handle. Avoid forcing the doors.
- **Mirrors:** The integrated mirrors provide a full-length reflection. Keep them clean for optimal use.
- **Storage Sections:** The wardrobe features multiple shelves (8 lingères) for folded items and two hanging rails (2 penderies) for garments that require hanging. Distribute weight evenly across shelves and hanging rails, not exceeding 10 kg per shelf or rail.

## 6. MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your AUTLAN wardrobe.

- **Cleaning Surfaces:** Wipe the melamine surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, which can damage the finish.
- **Mirror Cleaning:** Use a standard glass cleaner and a lint-free cloth for the mirrors. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into edges.
- **Sliding Mechanism:** Periodically check the sliding door tracks for dust or debris. Clean with a soft brush or vacuum cleaner to ensure smooth operation. Do not lubricate the tracks unless specifically instructed by the manufacturer.
- **Hardware Check:** Every few months, check all screws and fasteners to ensure they remain tight. Re-tighten if necessary.
- **Avoid Excessive Moisture:** Do not expose the wardrobe to excessive moisture or direct sunlight, as this can cause warping or discoloration.

## 7. TROUBLESHOOTING

---

If you encounter any issues with your wardrobe, refer to the following common solutions:

- **Wobbly Wardrobe:** Ensure the wardrobe is placed on a level surface. Check all assembly screws and tighten them if loose. Verify that the back panel is correctly installed and secured.
- **Sliding Doors Not Moving Smoothly:** Inspect the tracks for any obstructions (dust, debris, small objects). Clean the tracks thoroughly. Check if the doors are properly aligned on their rollers.
- **Doors Not Closing Completely:** This could be due to an uneven floor or an obstruction in the track. Check the levelness of the wardrobe and clear the tracks.
- **Damaged Parts:** If any part is damaged during assembly or use, do not attempt to repair it if it compromises the structural integrity. Contact Vente-unique customer support for replacement parts.
