## 2. PACKAGE CONTENTS

Please verify that all items are present in your package:

- 1 x G-Lab Kult Helium Wireless Gaming Mouse

- 1 x USB Wireless Receiver (Nano Receiver)
- 1 x USB Charging Cable
- 1 x User Manual (this document)

### 3. PRODUCT OVERVIEW

Familiarize yourself with the components of your G-Lab Kult Helium Wireless Gaming Mouse.

Image 3.1: Ergonomic design features of the mouse.

1. **Left Click Button**
2. **Right Click Button**
3. **Scroll Wheel** (with RGB lighting)
4. **DPI Adjustment Button** (located below the scroll wheel)
5. **Forward Button** (side button)
6. **Backward Button** (side button)

7. **Power Switch** (located on the underside of the mouse)
8. **USB Charging Port** (front of the mouse)
9. **USB Wireless Receiver Storage Slot** (underside of the mouse)

## 4. SETUP INSTRUCTIONS

---

### 4.1. Charging the Mouse

Before initial use, it is recommended to fully charge the mouse. Connect the provided USB charging cable to the mouse's charging port and to a USB power source (e.g., computer USB port, USB wall adapter). The mouse will fully charge in approximately 4 hours.

### 4.2. Connecting the Wireless Receiver

1. Locate the USB wireless receiver, usually stored in a compartment on the underside of the mouse.
2. Insert the USB wireless receiver into an available USB port on your computer or console.
3. Turn on the mouse using the power switch located on its underside.
4. The mouse should automatically connect to your device. No additional drivers are typically required for basic functionality.

# RÉACTIVITÉ MAXIMALE

### 4.3. Compatibility

The G-Lab Kult Helium Wireless Gaming Mouse is compatible with:

- PC (Windows)
- Mac
- PlayStation 4 (PS4)
- PlayStation 5 (PS5)
- Xbox One
- Xbox Series X/S

*Note: For console use, ensure the game supports mouse input.*

# COMPATIBILITÉ

## PC/CONSOLES

## 5. OPERATING INSTRUCTIONS

### 5.1. DPI Adjustment

The mouse features an adjustable DPI (Dots Per Inch) setting, allowing you to change cursor sensitivity. Press the DPI adjustment button (located below the scroll wheel) to cycle through the available DPI levels. The DPI button will flash briefly to indicate a change in setting.

- Available DPI settings: 800 / 1600 / 2400 / 3200 / 6400 DPI.

### 5.2. RGB Backlighting

The mouse features dynamic RGB backlighting with 7 different colors and a 'breathing' effect that cycles through them. The lighting is automatically active when the mouse is powered on. There is no dedicated button to change RGB modes; the mouse cycles through colors automatically.

## 5.3. Battery Life Management

The Kult Helium Wireless mouse offers extended battery life:

- Up to 15 hours of use with RGB lighting enabled.
- Up to 100 hours of use with RGB lighting disabled (by turning off the mouse or if it enters sleep mode).

To conserve battery, turn off the mouse using the power switch when not in use for extended periods.

Image 5.1: Battery life information.

## 6. MAINTENANCE

### 6.1. Cleaning

To maintain optimal performance and appearance:

- Use a soft, dry cloth to wipe the surface of the mouse.

- For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid harsh chemicals.
- Do not allow liquids to enter the mouse's internal components.
- Clean the optical sensor on the underside periodically with a cotton swab to ensure accurate tracking.

## 6.2. Battery Care

To prolong the life of the integrated lithium-ion battery:

- Avoid fully discharging the battery frequently.
- Store the mouse in a cool, dry place when not in use for extended periods.
- Do not expose the mouse to extreme temperatures.

## 7. TROUBLESHOOTING

If you encounter issues with your G-Lab Kult Helium Wireless Gaming Mouse, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Mouse not responding	Low battery; Receiver not connected; Mouse not powered on; Interference.	Charge the mouse; Ensure receiver is firmly plugged in; Turn on the mouse; Try a different USB port; Move closer to the receiver.
Cursor erratic or jumpy	Dirty optical sensor; Unsuitable surface; Low battery.	Clean the optical sensor; Use a mouse pad or a smooth, non-reflective surface; Charge the mouse.
RGB lighting not working	Mouse is off; Battery is critically low.	Ensure mouse is powered on; Charge the mouse.
DPI not changing	DPI button malfunction.	Ensure you are pressing the correct button; If issue persists, contact support.
