Coolife YD000088

Coolife Suitcase Set Instruction Manual

Brand: Coolife
Model: YD000088

1. Introduction and Overview

Thank you for choosing the Coolife Suitcase Set. This manual provides essential information for the proper setup, operation, and maintenance of your new luggage. Designed for durability and ease of travel, our suitcase sets offer versatile options to suit various travel needs.

The Coolife Suitcase Set is available in multiple configurations, including 5-piece and 3-piece options, each crafted with high-quality materials and thoughtful features to ensure a smooth and secure travel experience.

2. Product Components

Your Coolife Suitcase Set may include the following components, depending on the purchased configuration:

- **Five-piece set:** Includes a 20-inch luggage, a 24-inch luggage, a 28-inch luggage, a weekender travel bag, and a toiletry bag.
- **Three-piece set (Option A):** Includes a 20-inch luggage, a travel duffel bag, and a toiletry bag.
- **Three-piece set (Option B):** Includes a 20-inch luggage, a backpack, and a toiletry bag.

Image: Detailed size reference chart outlining the exterior measurements, weight, capacity, and recommended travel days for the 20-inch, 24-inch, and 28-inch suitcases, as well as the duffel bag and toiletry bag.

3. Setup and First Use

Setting the TSA-Approved Lock

Your Coolife suitcase is equipped with a mounted TSA-approved combination lock for enhanced security. The default combination is 0-0-0.

1. Set the dials to the default combination (0-0-0).
2. Locate the reset button (usually a small, recessed button on the side of the lock). Use a pen or a pointed object to press and hold this button.
3. While holding the reset button, set your desired 3-digit combination by turning the dials.
4. Release the reset button. Your new combination is now set.
5. To lock, align your chosen combination and insert the zipper pullers into the lock slots. Scramble the numbers to secure.
6. To unlock, dial your set combination and press the release button (usually a larger button or lever next to the

dials).

Retractable Handle

The luggage features a retractable handle for easy maneuverability. Press the button on the handle to extend or retract it to your desired height. Ensure it clicks securely into place when extended or fully retracted.

4. Operating Instructions

Effortless Mobility with Spinner Wheels

Each suitcase is equipped with four multi-directional spinner wheels, allowing for smooth 360-degree rotation and effortless gliding through airports and various terrains. These wheels are designed for stability and ease of movement, reducing strain on your arm and shoulder.

Image: A detailed shot of a suitcase wheel, emphasizing its ability to rotate 360 degrees for smooth movement.

Interior Organization

The fully-lined interior of each suitcase includes a zippered divider and organization pockets to keep your belongings secure and neatly arranged. Use the adjustable buckle straps to compress and hold your clothes in place, preventing shifting during transit.

Duffel Bag and Toiletry Bag Features

The duffel bag and backpack (if included in your set) are made of mild water-resistant polyester fabric. Both are designed with a back sleeve, allowing them to be conveniently attached to the retractable handle of your suitcase for easy transport. The backpack also features multiple functional pockets for various travel needs.

Image: A collage highlighting key features: a comfortable handle, the textured ABS material of the suitcase, the expandable bottom of the duffel bag, and the trolley sleeve designed to slide over a luggage handle.

5. Maintenance

Cleaning the Hardside Shell (ABS)

- Wipe the exterior with a soft cloth dampened with mild soap and water.
- Avoid abrasive cleaners or solvents, as they may damage the surface.
- For stubborn marks, a magic eraser can be used gently.

Cleaning Fabric Bags (Polyester)

- Spot clean with a damp cloth and mild detergent.
- Allow to air dry completely before storage. Do not machine wash.

Wheels and Zippers

- Regularly check wheels for debris and clean as needed.

- Lubricate zippers periodically with a silicone-based spray to ensure smooth operation.

6. Troubleshooting

Stuck Wheels

- Check for hair, lint, or other debris wrapped around the wheel axles. Carefully remove any obstructions.
- Ensure wheels are not bent or damaged.

Jammed Zippers

- If the zipper is stuck, try gently wiggling the puller back and forth.
- Apply a small amount of lubricant (like graphite from a pencil or zipper lubricant) to the teeth.

TSA Lock Issues

- If you forget your combination, unfortunately, there is no master key or universal reset. You may need to try common combinations or contact a locksmith.
- Ensure the dials are perfectly aligned with the indicator line when entering the combination.

If issues persist or you encounter problems not listed here, please refer to the Warranty & Support section for assistance.

7. Specifications

Attribute	Value
Product Dimensions	15.75 x 7.87 x 21.65 inches
Item Weight	25 pounds
Department	Unisex Adult
ASIN	B0BMTPCSX1
Country of Origin	China
Item Model Number	YD000088
Capacity	93 Liters
