Hot Wheels HKX48

Hot Wheels City Ultimate Garage Instruction Manual

Model: HKX48

INTRODUCTION

This manual provides essential information for the setup, operation, and maintenance of your Hot Wheels City Ultimate Garage Track Set. Please read thoroughly before assembly and play to ensure a safe and enjoyable experience.

SAFETY INFORMATION

WARNING: Not for children under 3 years. Small parts may present a choking hazard.

Adult assembly is required. Ensure all parts are securely connected before play. Supervise children during play to prevent misuse or injury.

WHAT'S IN THE BOX

- 1 Hot Wheels City Ultimate Garage playset
- 2 1:64 Scale Hot Wheels vehicles

SETUP AND ASSEMBLY

The Hot Wheels City Ultimate Garage is designed for straightforward assembly. Follow the included visual instructions carefully to connect all track pieces and structural components. Most connections are snap-fit, ensuring a secure and stable playset.

Begin by assembling the base and vertical support structures. Then, attach the four levels of track, ensuring each connection point is firm. Finally, secure the dragon figure and the car-launching elevator mechanism. While some stickers may be pre-applied, any additional stickers should be placed according to the visual guide for optimal appearance.

OPERATING INSTRUCTIONS

The Hot Wheels City Ultimate Garage offers multiple play zones across its four levels, designed for dynamic racing, stunting, and imaginative storytelling.

1. Parking and Storage

The garage features over 50 parking spots for convenient storage of your 1:64 scale Hot Wheels vehicles. Utilize the vertical parking bays along the main tower to keep your collection organized and ready for action.

2. Ground Level Features

The first floor includes interactive track-play details such as moveable hoses, a car wash with a foam roller, and diverters. These elements allow for creative play scenarios and can connect to other Hot Wheels City sets (sold separately) to expand your track system.

3. Kid-Powered Elevator and Side-by-Side Racing

Use the two-car elevator to transport vehicles to higher levels. Once at the desired level, cars can be launched

directly from the elevator into a side-by-side race. Ensure the elevator is aligned with the correct track level before launching.

KID-POWERED ELEVATOR!

Figure 2: Operating the kid-powered elevator.

4. Loop Stunt Action

On the third level, cars can be launched into an exciting side-by-side loop stunt. Adjust the track diverters to change the cars' final destinations after completing the loop, adding variety to the play.

Figure 3: Launching vehicles through the loop.

5. Defeating the Car-Eating Dragon

A car-hungry dragon is positioned on the fourth level. Kids can launch their Hot Wheels vehicles to defeat the dragon. If successful, the dragon will plummet to the bottom of the garage. If unsuccessful, the cars may be 'eaten' and released from the dragon's belly.

MAINTENANCE

To ensure the longevity of your Hot Wheels City Ultimate Garage, keep it clean by wiping with a damp cloth. Avoid using harsh chemicals. Regularly check all connections to ensure they remain secure. Store the playset in a dry, cool place away from direct sunlight to prevent material degradation.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Cars not launching effectively.	Improper alignment of the elevator/launcher or insufficient force.	Ensure the elevator is perfectly aligned with the track. Apply firm and consistent force when launching.
Track pieces disconnect during play.	Loose connections or excessive force during play.	Press all track connections firmly until they click into place. Avoid lifting the playset by individual track sections.
Dragon does not fall when hit.	Car did not hit the activation point or insufficient speed.	Ensure cars are launched with enough speed to hit the dragon's belly activation point.

SPECIFICATIONS

Feature	Detail
Product Dimensions	13.39 x 26.77 x 41.34 inches
Item Weight	7.1 ounces
Model Number	HKX48
Manufacturer Recommended Age	4 years and up
Manufacturer	Mattel
Storage Capacity	50+ vehicles
Levels	4

WARRANTY AND SUPPORT

For warranty information or product support, please refer to the contact details provided on the product packaging or visit the official Mattel website. Keep your purchase receipt as proof of purchase.
