2. SAFETY INFORMATION

To reduce the risk of electric shock, injury, or damage to the appliance, always follow these basic safety precautions:

- Always unplug the trimmer before cleaning or charging.
- Keep the trimmer away from water when charging.
- Do not ingest or inhale small parts.
- Keep out of reach of children. Always supervise children when using the trimmer.
- Dispose of the trimmer and its components responsibly according to local regulations.
- Do not use the appliance if it is damaged or not functioning properly.
- Use only the provided USB cable for charging.

3. PRODUCT COMPONENTS AND FUNCTIONS

The PRITECH grooming kit offers a variety of interchangeable heads to cater to different grooming needs:

- **Full-size Trimmer:** Ideal for general hair cutting and beard trimming.
- **Precision Trimmer:** For detailed styling, sharp lines, and intricate designs.
- **Design Trimmer:** Specialized for creating patterns and precise edges.
- **Nose/Ear Trimmer:** Safely removes unwanted nose and ear hair.
- **Foil Shaver:** Provides a close, smooth shave for facial hair.
- **Body Hair Trimmer:** Designed for efficient and comfortable body hair grooming.

Product Overview Video:

Your browser does not support the video tag.

Video 1: This official product video demonstrates the various functions and attachments of the PRITECH 6-in-1 Grooming Kit, including head attachment, charging, and general usage scenarios.

4. GETTING STARTED

Charging the Trimmer:

Before first use, fully charge the trimmer. Connect the USB charging cable to the charging port on the trimmer and plug the other end into a compatible USB power source (e.g., computer, wall adapter). The LED display will show the battery percentage, indicating the charging progress. A full charge takes approximately 3 hours and provides up to 120 minutes of shaving time.

EASY TO CHANGE PERFECT MATCH

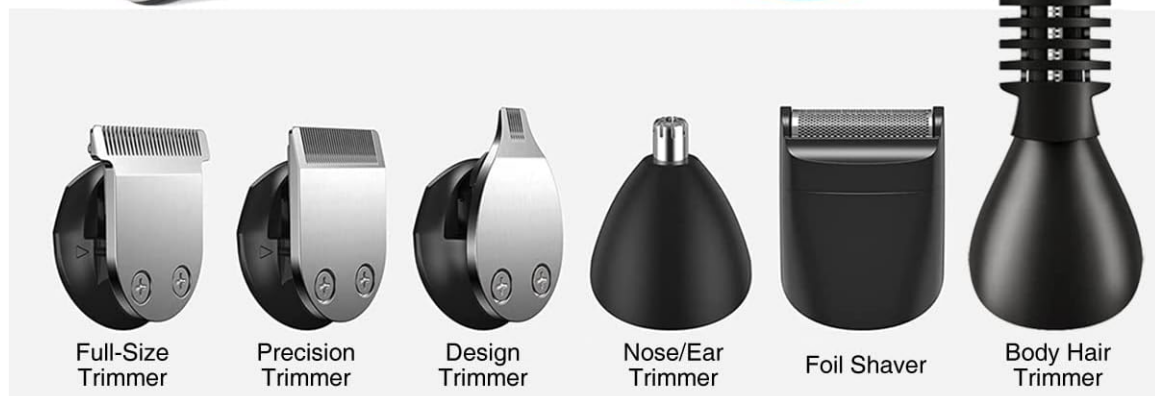

Figure 4: The LED display shows battery level, and the USB port allows for convenient charging.

Attaching and Detaching Heads:

To attach a trimmer head, align the head with the main unit and gently push until it clicks into place. To detach, firmly pull the head away from the main unit. Ensure the trimmer is turned off before changing heads.

Figure 5: Heads are designed for easy attachment and detachment.

5. OPERATING INSTRUCTIONS

The PRITECH grooming kit can be used for both wet and dry trimming. Its 100% waterproof design allows for use with shaving foam or even in the shower.

General Usage:

1. Select the desired trimmer head and attach it securely to the main unit.
2. For hair trimming, attach the appropriate guide comb (3mm, 6mm, 9mm, or 12mm) to the full-size trimmer head. For precision trimming, use the 1-3mm guide comb with the precision trimmer head.
3. Press the power button to turn on the trimmer.
4. Gently move the trimmer against the direction of hair growth for optimal results.
5. After use, turn off the trimmer and clean it as described in the Maintenance section.

Figure 6: The trimmer is suitable for various grooming tasks, including beard, face, and body hair.

6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will prolong the life of your PRITECH grooming kit and ensure consistent performance.

Cleaning the Trimmer:

The trimmer is 100% waterproof, allowing for easy cleaning under running water. Detachable blades facilitate thorough cleaning.

1. Turn off the trimmer and detach the head.
2. Rinse the trimmer head and blades under running water to remove hair clippings and debris.
3. Use the included cleaning brush to remove any stubborn hair particles.
4. Allow all parts to air dry completely before reattaching or storing.

Oiling the Blades:

For optimal performance and longevity, apply a small drop of the included lubricating oil to the blades after every few uses, especially after wet cleaning. Turn on the trimmer for a few seconds to distribute

the oil evenly.

7. TROUBLESHOOTING

If you encounter any issues with your PRITECH grooming kit, please refer to the following common troubleshooting tips:

- **Trimmer not turning on:** Ensure the battery is sufficiently charged. Check the LED display for the battery percentage. If low, charge the device for at least 3 hours.
- **Reduced performance or pulling hair:** The blades may be dull or clogged with hair. Clean the blades thoroughly and apply lubricating oil. If performance does not improve, consider replacing the blade head.
- **Unusual noise or vibration:** Ensure the trimmer head is securely attached. Clean the internal mechanism for any debris that might be causing obstruction.
- **Charging issues:** Verify that the USB cable is properly connected to both the trimmer and the power source. Try a different USB port or adapter.

If the problem persists after attempting these solutions, please contact customer support for further assistance.

8. SPECIFICATIONS

Feature	Specification
Model Number	PR-2819B
Power Source	USB Rechargeable
Battery Type	Lithium-Ion
Charging Time	Approx. 180 minutes (3 hours)
Runtime	Approx. 120 minutes
Waterproof Rating	100% Waterproof (Whole Body Washable)
Blade Material	Stainless Steel / Titanium (as per product description)
