## MAINTENANCE

---

### Care and Maintenance

- **Cleaning:** Wipe the lights with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Battery Care:** To prolong battery life, avoid fully discharging the lights frequently. Recharge them regularly, even if not in use for extended periods.
- **Storage:** Store the lights in a cool, dry place when not in use.
- **Avoid Overheating:** Ensure proper ventilation during operation. Do not block the ventilation holes.

## TROUBLESHOOTING

---

### Common Issues and Solutions

Problem	Possible Cause	Solution
Light does not turn on	Battery is dead; Power switch is off	Charge the battery; Ensure power switch is ON
Remote control not working	Remote battery is dead; Obstruction between remote and light; Remote not pointed correctly	Replace remote battery; Ensure clear line of sight; Point remote directly at the light's sensor
Lights not responding to DMX	Incorrect DMX address; Loose DMX cable connection; Incorrect DMX mode selected	Verify DMX address setting; Check DMX cable connections; Ensure DMX mode is active on the light
Short battery life	Battery not fully charged; Old battery; High brightness settings	Ensure full charge cycle; Battery may need replacement over time; Reduce brightness for longer runtime
