Interphone SMQUIKLOXARMORPRO

Interphone Quiklox SMQUIKLOXARMORPRO Universal Waterproof Hardcase User Manual

1. PRODUCT OVERVIEW

The Interphone Quiklox SMQUIKLOXARMORPRO is a universal waterproof hardcase designed to securely hold your mobile phone on motorcycles, bikes, and cars. This product offers a compact and rigid solution, providing total protection for your smartphone's screen and corners against rain, bumps, and drops. It features a design with raised edges for enhanced security and includes an anti-slip strap. Constructed from durable TPU, it is highly resistant and safe for both motorcycling and everyday use.

Image 1: The Interphone Quiklox Universal Waterproof Hardcase, designed for secure mobile phone mounting. The Quiklox system is modular, allowing you to choose the appropriate bracket for your specific vehicle. This manual will guide you through the installation and operation of this versatile system.

Image 2: The Quiklox system is compatible with motorbikes, scooters, cars, and bicycles.

2. COMPONENTS OF THE QUIKLOX SYSTEM

The Quiklox system consists of several key components that work together to provide a secure mounting solution for your smartphone.

Image 3: An exploded view detailing the modular components of the Quiklox system, including the smartphone case, mounting bracket, and optional anti-vibration module.

2.1. Case Options

- **Dedicated Cases:** Available for specific smartphone models (e.g., Apple, Samsung).
- **Multi-Compatible Cases:** Universal open or waterproof cases designed to fit a range of smartphone sizes.

2.2. Mount Options

- **Handlebar Mount:** For attachment to motorcycle or bicycle handlebars.
- **Barclamp Mount:** For attachment to the riser of a motorbike.
- **Rearview Mirror Bracket:** For attachment to rearview mirrors.
- **Adhesive Pad:** For direct attachment to a smartphone case, if a dedicated Quiklox case is not used.

3. INSTALLATION INSTRUCTIONS

3.1. Installing the Mount on the Handlebar

Follow these steps to install the Quiklox mount on your motorcycle or bicycle handlebar:

1. Position the Quiklox mount on the handlebar in the desired location.
2. Tighten the screw until the support is securely fixed.
3. With the supplied Allen key, loosen the nut on the mount.
4. Rotate the hook to adjust the angle as needed.
5. Fix it again with the Allen key to secure the hook's position.

Image 4: A detailed view of the handlebar mount component of the Quiklox system.

3.2. Installing the Mount on the Brake Mount

To install the Quiklox mount on your vehicle's brake mount, follow these instructions:

1. Remove the original screw on the riser.
2. Position the support with the screw provided.
3. Loosen the central screw to adjust the mount's position.
4. Adjust the position of the mount to your preference.
5. Tighten the central screw to lock the mount in place.

4. OPERATING INSTRUCTIONS

4.1. Attaching Your Smartphone to the Quiklox Mount

The Quiklox system is designed for quick and secure attachment of your smartphone. If a dedicated Quiklox cover is not available for your smartphone, you can use the adhesive pad provided.

1. If using the adhesive pad, clean the back of your smartphone case thoroughly.
2. Attach the Quiklox adhesive pad firmly to the center of your smartphone case.
3. Align your smartphone (with the Quiklox case or adhesive pad) with the mounting point on the installed bracket.
4. Push the smartphone onto the mount.
5. Turn the smartphone 45 degrees until it clicks securely into place.

Image 6: This diagram illustrates the simple three-step process for securely attaching your smartphone to the Quiklox mounting system.

4.2. Removing Your Smartphone from the Quiklox Mount

To remove your smartphone, simply reverse the attachment process:

1. Rotate the smartphone 45 degrees in the opposite direction until it unlocks.
2. Gently pull the smartphone away from the mount.

Your browser does not support the video tag.

Image 8: A smartphone mounted directly onto a motorcycle handlebar using the Quiklox system.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Interphone Quiklox Universal Waterproof Hardcase and mounting system, regular maintenance is recommended:

- **Cleaning:** Wipe the hardcase and mount with a damp cloth to remove dust and dirt. Avoid abrasive cleaners or solvents that could damage the materials.
- **Inspection:** Periodically check all screws and fasteners on the mount to ensure they are tight and secure. Over time, vibrations can cause screws to loosen.
- **Waterproof Seal:** For waterproof cases, inspect the seals and closures regularly for any signs of wear or damage. Ensure they are free from debris before closing to maintain water resistance.
- **Storage:** When not in use, store the hardcase and mount in a clean, dry place away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

If you encounter any issues with your Interphone Quiklox Universal Waterproof Hardcase, consider the following common troubleshooting tips:

- **Phone not securing properly:** Ensure the Quiklox case or adhesive pad is correctly aligned with the mount and rotated 45 degrees until a click is heard. Check for any obstructions on the mount or case.
- **Mount feels loose:** Re-tighten all screws on the mounting bracket using the appropriate Allen key. Ensure the mount is firmly attached to the handlebar or brake mount.
- **Touchscreen unresponsiveness (waterproof case):** Ensure the phone is correctly positioned within the waterproof case and that the screen protector is smooth and free of air bubbles. Some screen protectors or phone models may have reduced touch sensitivity when used with a waterproof case.
- **Water ingress (waterproof case):** Immediately remove the phone from the case. Inspect the case for any cracks, tears in the seals, or improper closure. Ensure all latches are fully engaged.

If these steps do not resolve the issue, please contact Interphone customer support for further assistance.

7. SPECIFICATIONS

Brand	Interphone
-------	------------

Model Name	CellularLine S.p.A.
Model Number	SMQUIKLOXARMORPRO
Color	WATERPROOF HARDCASE
Compatible Devices	Compatible with Quiklox Cases
Compatible Phone Models	Up to 6.5 inches
Mounting Type	Motorcycles
Additional Features	Adjustable, Modular, Motorcycle or bicycle use, Rotatable, Swivel
