BLUEAIR BLU-110175

BLUEAIR Blue Pure 211i Max Air Purifier User Manual

Model: BLU-110175

Brand: BLUEAIR

INTRODUCTION

The BLUEAIR Blue Pure 211i Max Air Purifier is designed to provide superior air quality in large rooms. Utilizing HEPASilent™ dual filtration technology, it efficiently removes airborne particles, allergens, and odors, contributing to a healthier indoor environment. This manual provides essential information for the setup, operation, and maintenance of your air purifier.

WHAT'S IN THE BOX

Your BLUEAIR Blue Pure 211i Max Air Purifier package includes the following components:

- Air purifier unit
- Pre-installed filter
- Washable fabric pre-filter

SETUP

1. **Unpack the Unit:** Carefully remove the air purifier and all packaging materials from the box.
2. **Place the Unit:** Position the air purifier on a flat, stable surface in your desired room. Ensure there is adequate space around the unit for optimal airflow. The 360-degree air intake allows for flexible placement without compromising performance.
3. **Plug In:** Connect the power cord to a standard electrical outlet (110-120V for North America use).
4. **Initial Power On:** The unit is ready for use once plugged in. You can control it using the intuitive LED display on the top panel or via the Blueair app.

Quickly cleans in **minutes**

Perfect for **extra-large spaces** like **living rooms & kitchens**

635 ft² in 12.5 minutes

1,524 ft² in 30 minutes

Image: The air purifier positioned in a kitchen, demonstrating its compact dimensions (14.4"D x 14.4"W x 22.7"H) and suitability for large spaces.

OPERATING THE AIR PURIFIER

The Blue Pure 211i Max offers multiple operating modes and smart features for customized air purification.

Control Panel

The top panel features an intuitive LED display and two-button design for easy control of fan speed, night mode, auto mode, brightness, and child lock.

Easy-to-use interface

Control **4 fan speeds**, select **auto or night mode**, see **real-time** indoor air pollution levels (PM 1, PM 2.5, PM 10), enable **child lock** and control **brightness**

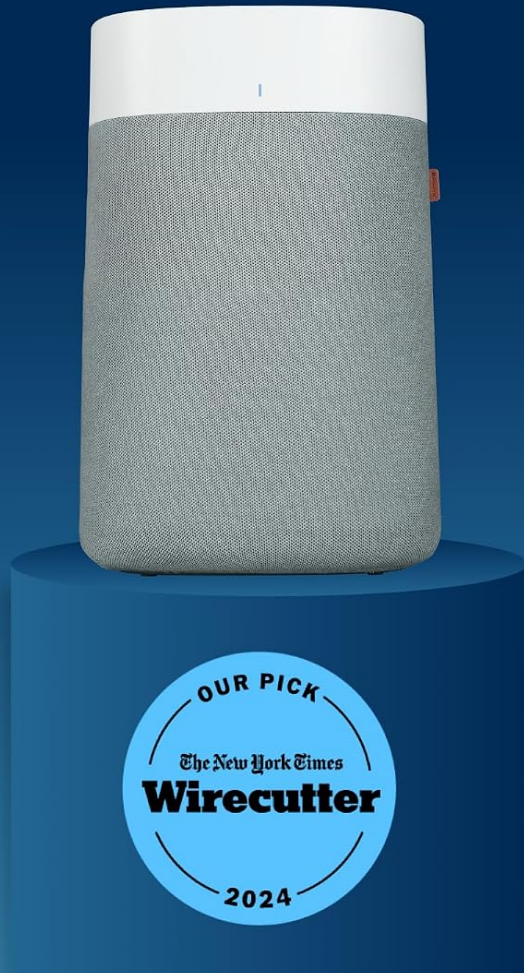

Image: Close-up of the air purifier's top control panel, highlighting the simple interface for adjusting settings.

Fan Speeds and Modes

- **Fan Speeds (1-4):** Adjust the fan speed to your preference. Higher speeds provide faster air cleaning.
- **Night Mode:** For quiet operation during sleep, select night mode. The unit operates at its lowest noise level (23dB).
- **Auto Mode:** The advanced pollution sensor (PM1, PM2.5, PM10) detects real-time indoor air quality and automatically adjusts the fan speed to maintain optimal air purity.

Faster, Quieter, Smarter

Up to **83%¹** faster cleaning with up to **50%²** less noise

HEPASILENT™ DUAL FILTRATION TECHNOLOGY

Delivering more clean air faster³ and with less noise⁴ than HEPA filtration alone

WHISPER QUIET

Our quietest⁴ air purifiers even on the highest fan speed

SIMPLY SMART

App control, simple two button control, quick air quality readings and voice assistant

¹ Comparing pollen CADR on high fan speed (Blue Pure 411a Max & 411i Max vs. Blue 411 Auto), other units may vary. Based on AHAM maximum allowable certified rating which may vary from the AHAM seal claimed value.

² Noise refers to the dBA difference in acoustic power.

³ Comparing CADR performance of Blueair models with mechanical and electrostatic filtration vs same models with only H13 HEPA mechanical filtration.

⁴ When similar CADR was measured, Blueair models with mechanical and electrostatic filtration achieved less noise with less energy than same models with only H13 HEPA mechanical filtration.

Image: An illustration detailing the core benefits: faster cleaning with HEPASilent™ technology, whisper-quiet operation (23-53dB), and smart app control.

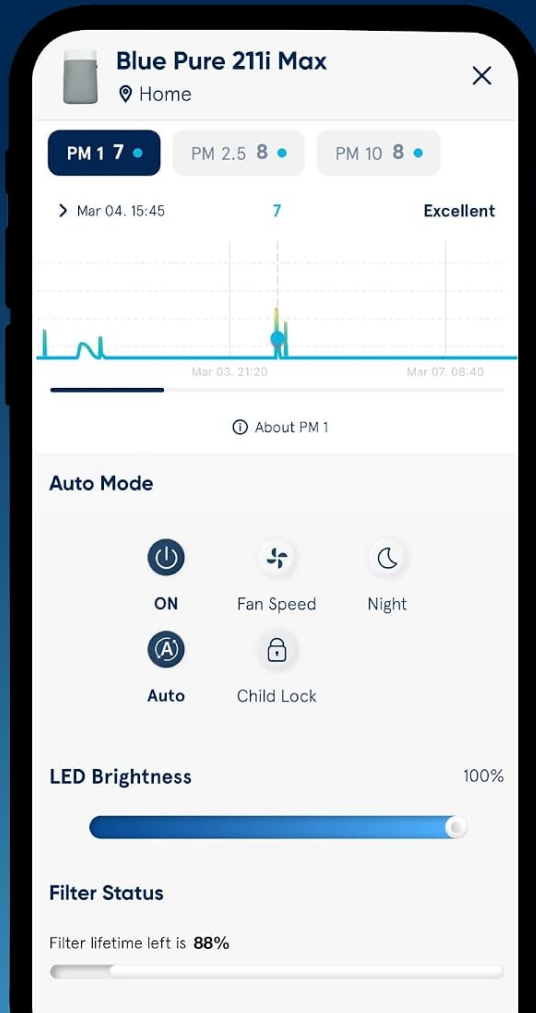

Smart Features (Blueair App)

Connect your air purifier to the Blueair app for enhanced control and monitoring:

- **Scheduling:** Set custom schedules for operation.
- **Air Quality Monitoring:** View real-time indoor air quality readings and historical data.
- **Clean Air ETA:** Get an estimated time for your air to reach excellent quality.
- **Welcome Home Geofencing:** The unit can automatically adjust its operation based on your proximity to home.
- **RealTrack Filter Tracking:** Accurately tracks filter usage and notifies you when replacement is needed (within 6-9 months).
- **Alexa Voice Control:** Control your air purifier hands-free using Alexa.

Simply smart

Exclusive customizable **features** via the **Blueair app**

WELCOME HOME FEATURE

Your air purifier will go on standby when you leave the home and turn back on when you are getting close.

ACCURATE FILTER TRACKING

Easily view the most accurate filter usage and reorder before it expires.

VOICE CONTROL ASSISTANCE

Control your air purifier hands free and enjoy even more convenience.

CLEAN AIR ETA

Counts down how quickly your air will return to an excellent AQI.

Image: The Blueair app interface, demonstrating its smart features for convenient control and monitoring of air quality.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your air purifier.

Filter Replacement

The main filter should be replaced approximately every 6-9 months, depending on usage and air quality. The RealTrack feature in the Blueair app will provide accurate tracking and notification for replacement.

For optimal performance, use genuine Blueair Blue Pure F2MAX replacement filters (ASIN: B08KPHRLXR).

Max filtration **minimum** noise

HEPASilent™ Dual Filtration Technology

1 FABRIC PRE-FILTER

The first layer of protection, catches larger particles from the air

2 MAIN FILTER

Removes airborne allergens, like pollen, dust mite matter allergen, pet dander, germs, mold, bacteria & viruses

3 ACTIVATED CARBON LAYER

Traps light household odors from pets, cooking and smoking

Image: An exploded view illustrating the multi-stage filtration system, including the washable fabric pre-filter, main filter, and activated carbon layer.

Washable Fabric Pre-filter

The customizable fabric pre-filter is the first layer of protection, capturing larger particles like dust, lint, pollen, and pet hair. It can be easily removed and hand-washed as needed.

Image: A close-up of the washable fabric pre-filter being placed into a washing machine for cleaning.

Customizable design

Washable pre-filters designed to catch **large airborne particles** such as **dust, lint, pollen,** and **pet hair**

Image: A display of various colored fabric pre-filters, demonstrating the customizable design options for the air purifier.

TROUBLESHOOTING

If you encounter issues with your air purifier, refer to the following common troubleshooting steps:

- **Unit Not Turning On:** Ensure the power cord is securely plugged into a working electrical outlet. Check if the outlet has power.
- **Reduced Airflow/Effectiveness:** The pre-filter or main filter may be clogged. Clean the fabric pre-filter or replace the main filter as indicated by the app or after 6-9 months of use.
- **Unusual Noise:** Check for any obstructions in the air intake or outlet. Ensure the unit is placed on a stable, level surface.
- **App Connectivity Issues:** Ensure your Wi-Fi network is active and the air purifier is within range. Restart the unit and try reconnecting via the Blueair app.

SPECIFICATIONS

Feature	Detail
Brand	BLUEAIR
Model Number	BLU-110175
Color	Grey and White
Product Dimensions	14.4"D x 14.4"W x 22.7"H
Item Weight	22.7 pounds
Floor Area Coverage	3048 Square Feet (in 60 min)
Noise Level	23-53 dB
Particle Retention Size	0.1 Micron
Controller Type	Amazon Alexa, Button Control, iOS, Android
Wattage	46 watts
Certifications	AHAM Verifide, Quiet Mark Certified, CARB, Energy Star Most Efficient 2023

SAFETY INFORMATION

- **Zero Ozone Verified:** This product is certified to produce less than 5 ppb of ozone.
- **Voltage:** This product is made for NORTH AMERICA USE ONLY and should only be used with input voltages between 110-120V.
- **Placement:** Do not block air intake or outlet. Keep away from water and heat sources.
- **Cleaning:** Always unplug the unit before cleaning. Do not use liquid cleaners directly on the unit.

WARRANTY AND SUPPORT

For detailed warranty information and customer support, please refer to the official Blueair website or the User Manual (PDF) provided with your product. A digital version of the User Manual can often be found on the product's Amazon page under the 'Product guides and documents' section.

For additional assistance, you may contact Blueair customer service directly.

Protection Plans: Optional protection plans are available for purchase to extend coverage beyond the manufacturer's warranty. These typically include 3-Year and 4-Year options.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
