2. COMPATIBILITY

The CA-SDL23CD 2023 map update SDHC memory card is compatible with the following Panasonic Strada navigation system models:

- F1D
- F1XD
- F1SD
- F1XVD
- F1DVD
- F1X10BD
- F1X10D

- F1D9D
- F1X10BLD
- F1X10LD
- F1D9VD

Ensure your navigation system model is listed above before attempting to use this SDHC card. Using an incompatible card may result in errors or data corruption.

3. SETUP

Follow these steps to install the map update SDHC memory card into your Panasonic Strada navigation system:

1. **Power Off:** Turn off your Panasonic Strada navigation system completely. Refer to your navigation system's manual for specific power-off procedures.
2. **Locate SD Card Slot:** Identify the SD card slot on your navigation system. This is typically located on the front panel, side, or behind a removable cover.
3. **Remove Existing Card (if applicable):** If an older map SDHC card is present, gently press it to eject and remove it. Store the old card safely.
4. **Insert New Card:** Insert the CA-SDL23CD SDHC memory card into the designated slot. Ensure the card is oriented correctly and push it gently until it clicks into place. Do not force the card.
5. **Power On:** Turn on your Panasonic Strada navigation system. The system should automatically detect the new map data.
6. **Confirmation:** Follow any on-screen prompts to confirm the map update. The system may display a message indicating the new map version.

4. OPERATING

After successful installation, your Panasonic Strada navigation system will utilize the updated map data from the CA-SDL23CD SDHC card. Here are general operating guidelines:

- **Verify Map Version:** Access the system information or map settings menu on your navigation system to confirm that the 2023 edition map data is active.
- **Navigation Functions:** All navigation functions, such as destination search, route calculation, and map display, will now use the updated road network and points of interest.
- **Detailed Operation:** For detailed instructions on using specific navigation features, refer to the comprehensive user manual provided with your Panasonic Strada navigation system. This SDHC card primarily provides updated map data, not changes to the system's operational interface.

5. MAINTENANCE

Proper care of your CA-SDL23CD SDHC memory card ensures its longevity and reliable performance:

- **Handling:** Always handle the SDHC card by its edges. Avoid touching the metal contacts to prevent damage or data corruption.
- **Storage:** When not in use, store the SDHC card in its protective case in a cool, dry place away from direct sunlight, extreme temperatures, and magnetic fields.
- **Cleaning:** If necessary, gently wipe the metal contacts with a clean, dry, lint-free cloth. Do not use liquids or abrasive materials.
- **Future Updates:** Map data is periodically updated. Information regarding future map updates will be available from Panasonic.

6. TROUBLESHOOTING

If you encounter issues after installing the CA-SDL23CD SDHC memory card, consider the following:

Issue: Map data not updated or card not recognized.

- **Check Compatibility:** Verify that your navigation system model is listed in the compatibility section (Section 2).
- **Re-insert Card:** Power off the navigation system, remove the SDHC card, and re-insert it firmly until it clicks. Ensure correct orientation.
- **System Restart:** Perform a full restart of your navigation system after re-inserting the card.
- **Inspect Card:** Check the SDHC card for any visible physical damage.
- **Consult Navigation System Manual:** Refer to your Panasonic Strada navigation system's manual for specific instructions on SD card handling and map data recognition.

Issue: Navigation system displays an error message.

- Note the exact error message. This information will be helpful if you need to contact support.
- Refer to your navigation system's manual for error code explanations.

If problems persist, contact Panasonic customer support for assistance.
