## 2. SAFETY INSTRUCTIONS

To reduce the risk of electric shock, fire, or injury, always follow these basic safety precautions:

- Ensure the power supply is disconnected before installation or maintenance.
- Installation should be performed by a qualified electrician if hardwiring is chosen.
- Do not operate the mirror if the glass is cracked or damaged.
- This mirror is designed for indoor use in damp locations (e.g., bathrooms) but should not be submerged in water.
- Keep children away from the installation area.

## **Other Mirror**

Ordinary glass mirror,  
fragile, easily got broken and  
splashing around when broken

### **3. PRODUCT FEATURES**

Your TheiaMo LED mirror is equipped with several advanced features for convenience and functionality:

- **Dimmable LED Lighting:** Adjust light intensity and color temperature (3000K-6000K) to suit your preference.
- **Anti-Fog Function:** Integrated defogger ensures a clear reflection even in steamy environments.
- **Memory Function:** The mirror remembers your last light and defogger settings.
- **High-Definition Imaging:** Made with HD environmental-friendly copper-free silver glass.
- **Shatter-Proof Design:** Features a bursting diaphragm to prevent splashing debris if broken.
- **Waterproof Rating:** IP66 rated for safe use in wet bathroom environments.

#### 4. INSTALLATION GUIDE

Follow these steps for safe and secure installation of your mirror. Ensure you have the necessary tools before starting.

## 4.1 Mounting the Mirror

1. **Marking:** Mark the desired location on the wall where holes need to be drilled for mounting.
2. **Drilling:** Drill holes at the marked spots and insert the provided hardware (e.g., anchors).
3. **Screwing:** Screw the mounting hardware into the installed anchors, ensuring they are secure.
4. **Hanging:** Carefully hang the mirror onto the secured hardware on the wall.

Image 4.1: Step-by-step guide for mounting the mirror.

## 4.2 Electrical Connection

The mirror supports two connection methods:

- **Option 1: Connect to an Outlet (Plug-in):** Simply plug the mirror's power cord into a standard electrical outlet.
- **Option 2: Connect to Hardwire (Wall Switch):** For a seamless look, the mirror can be hardwired to a wall switch. This installation should be performed by a qualified electrician.

**Important Note:** If hardwiring, turning on the wall switch will energize the mirror, but the mirror light and anti-fog functions are still controlled by the touch buttons on the mirror itself. To maintain the memory function, do not turn off the wall switch (or unplug the mirror if using the plug-in option).

## Power by plug in or hardwired

Image 4.2: Electrical connection options: plug-in or hardwire.

Image 4.3: Visual representation of plug-in and hardwire installation methods.

## 5. OPERATION INSTRUCTIONS

The mirror features intuitive touch controls for its functions.

## 5.1 Dimmable LED Light Control

- **Turn On/Off:** Lightly touch the power switch button once to turn the mirror light on or off.
- **Adjust Brightness:** When the light is on, press and hold the power switch button for 3 seconds to adjust the light intensity from normal to brightest. Release when desired brightness is reached.
- **Change Color Temperature:** The mirror cycles through 3 color temperatures (3000K Warm White, 4500K Natural White, 6000K Cold White). Short press the power button to cycle through these options.

Image 5.1: Adjusting color temperature and brightness.

## 5.2 Anti-Fog Function

- **Activate/Deactivate:** Lightly touch the anti-fog switch button once to turn the defogger on or off.

  
**Fast Defogging**  
No need to wipe the mirror  
in the shower

Image 5.2: The fast defogging function in action.

Image 5.3: One touch for defogging ensures a clear reflection.

### 5.3 Memory Function

Both the light and anti-fog buttons have a memory function. The mirror will retain the last settings used when it is turned off and then back on, provided the main power supply (wall switch or plug) is not interrupted.

## 6. CARE AND MAINTENANCE

To keep your mirror in optimal condition:

- Clean the mirror surface with a soft, damp cloth and a mild glass cleaner.
- Avoid abrasive cleaners or harsh chemicals that could damage the mirror's finish or electronic components.
- Regularly check electrical connections for any signs of wear or damage.

## 7. TROUBLESHOOTING

If you encounter any issues with your mirror, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Mirror light does not turn on.	No power supply; loose connection; faulty switch.	Check if the mirror is plugged in or hardwired correctly. Ensure the wall switch (if applicable) is on. Contact customer support if the issue persists.
Anti-fog function not working.	Anti-fog function not activated; power issue.	Ensure the anti-fog touch button is pressed. Verify the mirror has power.
Light brightness or color temperature cannot be adjusted.	Incorrect operation.	For brightness, press and hold the power button. For color temperature, short press the power button.
Memory function not working.	Main power supply was cut off.	The memory function resets if the main power (wall switch or plug) is turned off. Keep the main power on to retain settings.

## 8. SPECIFICATIONS

Feature	Detail
Model	B0BN2WJMBF
Shape	Round
Product Dimensions	24"L x 24"W
Frame Material	Glass
Mounting Type	Wall Mount
Special Features	Dimmable LED, Anti-fog, Smart Memory, Long LED Lifetime
Color Temperature	3000K-6000K (Stepless Dimmable)
LED Lifetime	50,000 hours
Waterproof Rating	IP66
Glass Type	HD environmental friendly copper-free silver glass with Bursting Diaphragm

Feature	Detail
Power Options	Plug-in or Hardwired
Item Weight	16.57 pounds
