FEZIBO L Shaped Standing Desk

Instruction Manual

1. Product Overview

The FEZIBO L Shaped Standing Desk is an advanced ergonomic workstation designed for comfort and productivity. It features a robust triple-motor lifting system, integrated power solutions, and customizable LED lighting. This manual provides comprehensive instructions for assembly, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your desk.

2. Setup and Assembly

Please read all instructions carefully before beginning assembly. It is recommended that two people assemble this desk due to its weight and size.

2.1 Unpacking

Your FEZIBO L Shaped Standing Desk will arrive in two separate packages, which may be delivered on different days. Ensure both boxes are received before starting assembly.

Figure 2.1: Product packaging indicating delivery in two boxes.

2.2 Assembly Steps

1. Unpack all components and verify against the parts list provided in the included assembly guide.
2. Assemble the desk frame according to the detailed instructions in the separate assembly manual. Pay close attention to the orientation of the L-shaped sections.
3. Attach the desktop sections to the assembled frame. Note that some pre-drilled holes for the keypad or frame may require minor adjustments or additional drilling if they do not align perfectly.
4. Install the integrated power strip, ensuring all cables are securely connected and routed.
5. Attach the monitor stand, desk hooks, and optional lockable casters as desired. The casters allow for flexible movement and protect your floor.

2.3 Initial Power-Up and Calibration

After assembly, connect the desk to a power source. It is crucial to perform the initial calibration as per the separate assembly guide. Failure to calibrate may result in the desk not raising or lowering correctly, or displaying error messages. This process typically involves holding down specific buttons until the desk reaches its lowest point and then slightly rises, resetting its height limits.

3. Operation

3.1 Height Adjustment

The desk features a multi-function intelligent keypad for height control. Use the up and down arrows for momentary adjustments. The desk can be adjusted from 27.56 inches to 47.24 inches.

Figure 3.1: Multi-Function Intelligent Keypad.

3.2 Memory Presets

The keypad includes three preset buttons (1, 2, 3) to store your preferred sitting and standing heights. To save a height, adjust the desk to the desired position, then press and hold the 'S' button followed by the desired preset number (1, 2, or 3) until the display confirms the setting. To recall a saved height, simply press the corresponding preset button.

3.3 LED Lighting Control

The desk is equipped with 92-inch long LED strips offering 358 pre-setting modes. Control the lighting using the included wireless remote. You can select your favorite color, adjust brightness, and change modes to create your desired ambiance.

3.4 Integrated Power Outlets

A built-in power strip provides convenient access to power with 2 standard outlets, 1 USB port, and 1 Type-C port. Use these for charging devices and powering accessories directly from your desk.

4. Maintenance

4.1 Cleaning

To clean the desk surface, use a soft, damp cloth with a mild, non-abrasive cleaner. Avoid harsh chemicals or abrasive materials that could damage the laminated finish. For the metal frame, a dry or slightly damp cloth is sufficient.

4.2 General Care

- Regularly check all screws and connections to ensure they remain tight.
- Avoid placing excessively heavy items on the desk, though it supports up to 330 lbs.
- Keep liquids away from electronic components and power outlets.

- Ensure proper cable management to prevent snagging or damage during height adjustments.

5. Troubleshooting

5.1 Height Adjustment Issues

- **Desk not moving or displaying error code:** This often indicates a need for recalibration. Refer to the initial power-up and calibration steps in Section 2.3. Ensure all cables are securely connected to the control box and motors.
- **Desk stops unexpectedly:** The desk features an automatic anti-collision technology. If the desk encounters an obstruction during movement, it will stop and reverse slightly. Remove any obstructions and try again.

5.2 LED Light Malfunctions

- **LEDs not lighting up:** Check the power connection to the LED strips. Ensure the remote control has working batteries and is pointed towards the receiver.
- **Inconsistent lighting:** Verify that the LED strips are fully and correctly plugged in.

5.3 Power Outlet Issues

- **Outlets not providing power:** Ensure the main power cable to the desk is securely plugged into a functional wall outlet. Check if the desk's power strip has a reset button or fuse that needs attention.

6. Specifications

Feature	Detail
Brand	FEZIBO
Model	B0BN357W44
Product Dimensions (D x W x H)	48"D x 63"W x 27"H
Color	Black Walnut
Motor Type	Triple Motor
Maximum Load Capacity	330 Pounds
Height Adjustment Range	27.56" to 47.24" (approx. 70cm to 120cm)
