

## FEZIBO Triple Motor L-Shaped Standing Desk

# FEZIBO 63" Triple Motor L-Shaped Standing Desk Instruction Manual

Model: Triple Motor L-Shaped Standing Desk | Brand: FEZIBO

## 1. SAFETY INFORMATION

Please read all safety instructions carefully before assembly and operation. Retain this manual for future reference.

- Do not touch moving parts while the desk is in motion.
- Follow assembly instructions carefully to ensure stability and safety.
- Ensure all screws and connections are securely tightened before use.
- Keep children and pets away from the desk during operation.
- Do not overload the desk. Refer to specifications for maximum weight capacity.
- Disconnect power before cleaning or maintenance.

## 2. PRODUCT OVERVIEW

The FEZIBO 63" Triple Motor L-Shaped Standing Desk is designed for a versatile workspace, offering height adjustability, integrated power, and ambient lighting. It features a robust triple motor system for smooth and stable transitions between sitting and standing positions.

Image 2.1: The FEZIBO 63" L-Shaped Standing Desk in a typical home office setup, showcasing its design and features.

### Key Features:

- **Powerful Triple Motor:** Ensures faster, smoother, and more durable height adjustments with a maximum load capacity of 330 lbs and a lifting speed of 35mm/s.
- **Integrated Power Outlets:** Includes a built-in power strip with 2 AC outlets, 1 USB port, and 1 Type-C port for convenient device charging.
- **Ergonomic Monitor Stand:** A full monitor stand is included to promote an ergonomic eye view and provide additional space.
- **Smart & Surrounded LED Strips:** 92-inch long LED strips offer 358 pre-setting modes, controllable with a remote, to enhance your workspace ambiance.
- **Programmable Height Presets:** Three preset buttons allow customization of desired heights from 27.56" to 47.24", featuring a collision-avoiding function.
- **Large Working Space:** Provides a spacious 63"(L) x 24"(W) work surface suitable for various activities.

## 3. ASSEMBLY INSTRUCTIONS

---

Assembly requires careful attention to detail. It is recommended that two people assemble the desk. The desk arrives in two separate boxes, which may arrive on different days.

# ARRIVE IN 2 BOXES

Please Note: May come 1 to 2 days apart

Image 3.1: The FEZiBO L-Shaped Standing Desk is shipped in two boxes. Ensure both boxes are received before beginning assembly.

## Assembly Video Guide:

Video 3.1: Official assembly video for the FEZiBO L-Shaped Standing Desk. This video provides a visual step-by-step guide for the entire assembly process.

## General Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the parts list in your included paper manual.
2. **Assemble Desk Legs:** Attach the foot supports to the desk legs using the provided screws. Ensure stability.
3. **Connect Frame Components:** Assemble the L-shaped frame, ensuring all connections are secure. Adjust the length of the frame to match the screw holes in the desktop.
4. **Attach Desktop Panels:** Securely fasten the desktop panels to the assembled frame. Pay attention to alignment for a seamless surface.

5. **Install Control Box and Keypad:** Mount the control box and keypad to the underside of the desk. Connect all motor and power cables as instructed.
6. **Install Monitor Stand:** Attach the monitor stand to the designated areas on the desktop.
7. **Install LED Strip:** Adhere the LED strip along the designated edges of the desk and connect it to the control box or power source.
8. **Install Accessories:** Attach desk hooks and install lockable casters if desired.

## 4. OPERATING INSTRUCTIONS

---

### Height Adjustment:

The desk features an intelligent keypad for height adjustment and memory presets.

## Multi-Function Intelligent Keypad

-  Up&Down Buttons for Momentary Control
-  3 Height's Memory Presets Buttons
-  Child-friendly Memory/Screen Lock Button
-  Automatic Anti-Collision Technology

Image 4.1: The desk's control panel with up/down buttons, memory presets, and a child-friendly lock button.

- **Up/Down Buttons:** Use the ▲ (Up) and ▼ (Down) buttons for momentary height control. Press and hold to move the desk, release to stop.
- **Memory Presets:** The keypad has 3 preset buttons (1, 2, 3) to store your preferred sitting and standing

heights. To save a height, adjust the desk to the desired level, then press the 'S' button followed by the desired preset number (1, 2, or 3).

- **Child-Friendly Lock:** The 'S' button can also function as a screen lock. Consult your paper manual for specific instructions on activating and deactivating this feature.
- **Anti-Collision Technology:** The desk is equipped with an automatic anti-collision feature. If the desk encounters an obstruction during movement, it will stop and reverse slightly to prevent damage.

### LED Strip Operation:

The integrated LED strip provides customizable ambient lighting.

- **Remote Control:** Use the provided wireless remote controller to select from 358 pre-setting lighting modes.
- **Speed & Brightness Adjustment:** The remote also allows adjustment of the lighting speed and brightness to suit your preference.

### Power Outlets:

The built-in power strip offers convenient access to power for your devices.

# Power outlets&Various Accessories

Desk Hooks

Replaceable Lockable Casters

Image 4.3: Close-up of the integrated power strip, featuring two AC outlets, one USB port, and one Type-C port.

- Simply plug your devices into the available AC outlets, USB, or Type-C ports.
- Ensure devices are compatible with the power output.

## 5. MAINTENANCE

- **Cleaning:** Wipe the desk surface with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Cable Management:** Regularly check and organize cables to prevent tangles and damage, especially during height adjustments.
- **Screw Tightness:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary to maintain stability.
- **Motor Inspection:** Ensure the motor mechanisms are free from obstructions. Do not attempt to lubricate or disassemble the motors.

## 6. TROUBLESHOOTING

---

- **Desk Not Moving:**

- Check if the power cord is securely plugged into both the desk and a working wall outlet.
- Ensure all motor cables are properly connected to the control box.
- If an error code appears on the keypad, refer to the specific troubleshooting section in your paper manual.

- **Uneven Height Adjustment:**

- Ensure the desk is not overloaded or unevenly weighted.
- Perform a reset procedure (refer to your paper manual for specific steps, usually involving holding down the down button).

- **LED Strip Not Working:**

- Check the connection of the LED strip to its power source.
- Ensure the remote control has working batteries and is pointed correctly at the receiver.

- **Power Outlets Not Functioning:**

- Verify the main power connection to the desk.
- Test the outlets with a different device to confirm functionality.
