URBN Type-C to Type-C 65W Super Fast Charging Adapter Cable Instruction Manual

Model: UPC255_BK

1. INTRODUCTION

This manual provides essential information for the safe and efficient use of your URBN Type-C to Type-C 65W Super Fast Charging Adapter Cable. This cable is designed for high-speed charging and data transfer between compatible USB-C devices. Please read these instructions thoroughly before use.

2. SETUP

To begin using your URBN Type-C to Type-C cable, follow these steps:

1. **Unpack the Cable:** Carefully remove the cable from its packaging. Ensure no damage occurred during transit.
2. **Identify Connectors:** Both ends of the cable feature USB Type-C connectors. These are reversible, meaning they can be inserted in either orientation.
3. **Connect to Power Adapter:** For charging, insert one end of the cable into a compatible USB-C power adapter (e.g., 65W, 45W, 30W, 18W, 15W Power Delivery (PD) or Quick Charge (QC) 3.0 compatible adapter).
4. **Connect to Device:** Insert the other end of the cable into the USB-C port of your device (smartphone, tablet, laptop, etc.).
5. **For Data Transfer:** Connect one end to your computer's USB-C port and the other end to the USB-C port of the device you wish to transfer data to/from.

UNIVERSAL COMPATIBILITY

Our cables were designed to be compatible with virtually any Type-C device, from laptops and phones, to earbuds and tablets

Image 2.1: Illustration of the cable's universal compatibility with various Type-C devices, including laptops and Android smartphones/tablets.

3. OPERATING INSTRUCTIONS

3.1. Charging

Once connected to a compatible power adapter and device, the cable will initiate charging. The cable supports Power Delivery (PD) 3.0 and Quick Charge (QC) 3.0, enabling fast charging for devices that support these protocols. The maximum charging power supported is 65W.

3.2. Data Transfer

When connected between two compatible devices (e.g., a computer and a smartphone), the cable facilitates data transfer. The data transfer speed is up to 480Mbps (USB 2.0 standard).

ULTRA FAST READY

Our 65W PD cable boasts an ultra fast transfer speed of 480mbps, these cables enable not only charging across a large range of devices, but also data transfer at lightning fast speeds.

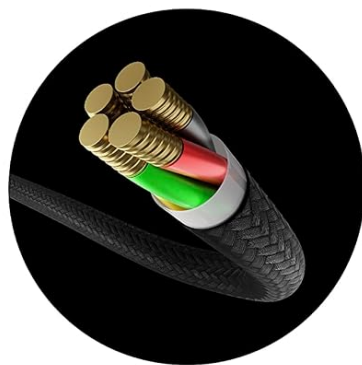

Image 3.1: Visual representation of the cable's ultra-fast capabilities, highlighting its 480Mbps data transfer speed.

4. MAINTENANCE

Proper care extends the life of your cable. Follow these guidelines:

- **Avoid Extreme Bending:** While the cable is designed with reinforced tips and a nylon braided exterior for durability, avoid sharp or excessive bends, especially near the connectors.
- **Gentle Handling:** Always pull from the connector housing, not the cable itself, when disconnecting.
- **Cleanliness:** Keep the connectors free from dust, lint, and debris. Use a dry, soft cloth to gently clean if necessary.
- **Storage:** Store the cable in a cool, dry place, ideally coiled loosely to prevent kinks.

5. TROUBLESHOOTING

If you encounter issues with your URBN Type-C cable, consider the following:

- **Device Not Charging:**

- Ensure both ends of the cable are securely connected.
- Verify that your power adapter is functioning correctly and is compatible with your device's charging requirements (e.g., PD compatible for fast charging).
- Test the cable with another device or power adapter to isolate the issue.
- Check the device's charging port for any obstructions or damage.

- **Slow Charging:**

- Confirm that both your power adapter and device support fast charging protocols (PD 3.0, QC 3.0).
 - Ensure the power adapter provides sufficient wattage (e.g., 65W for maximum speed).
 - Avoid using the device intensively while charging, as this can slow down the process.
- **Data Transfer Issues:**
- Ensure both connected devices are configured for data transfer (e.g., "File Transfer" mode on smartphones).
 - Check if the computer's USB-C port is functioning correctly.
 - Restart both devices and try again.

6. SPECIFICATIONS

Feature	Detail
Brand	URBN
Model Name	UPC255_BK
Connector Type	USB Type C (Male-to-Male)
Cable Type	USB
Power Delivery	Up to 65W (PD 3.0 & QC 3.0 compatible)
Data Transfer Rate	Up to 480 Mbps (USB 2.0)
Cable Length	5 Feet (1.5 meters)
Outer Material	Nylon Braided
Special Features	Braided, Data Transfer, Fast Charging, High Speed, Tangle Free
Compatible Devices	Charging Adapter, Docking Station, Headphone, Monitor, Smartphone, MacBook Air (2020/2019/2018), iPad Pro (various generations), iPad Air 4, Samsung Galaxy S series, Note series, Z Fold/Flip, Google Pixel, Motorola, Huawei, Xiaomi, LG, POCO, Mi, Vivo, OPPO, Realme, iQOO, Galaxy Tab Series.
Included Components	1N Cable, 1N Warranty Card
Country of Origin	India

STABILITY

Enjoy high speed through the use of HD cores, which alongside our premium grade connectors allow for fast and stable secure connections
