OPERATING INSTRUCTIONS

The Corsair TC100 Relaxed Gaming Chair offers multiple adjustment options to ensure optimal comfort and ergonomic support.

Adjustable Seat Height:

Utilize the Class 4 gas lift to effortlessly adjust the seat height. Locate the lever typically found on the right side beneath the seat. Pull the lever up to raise the seat (when no weight is applied) or lower it (when seated). The chair offers a 100mm height range.

Adjustable Armrests:

The armrests can be moved vertically to your preferred position. Look for a button or lever on the side of the armrest support. Press or lift it to unlock and adjust the height. Release to lock in place.

The seat back reclines from 90° to 150°. Locate the recline lever on the left side of the chair, near the seat. Pull the

lever up and lean back to your desired angle. Release the lever to lock the backrest in position. Always ensure the chair is stable before reclining fully.
