3. Setup Instructions

3.1 Connecting the Headset

The YOTMS H-8 headset connects via a 3.5mm audio jack for sound and microphone, and a USB connector for the LED lighting. Ensure all connections are secure.

1. **For PC (Desktop with separate audio/mic ports):**
   Plug the 3.5mm Y Splitter cable into the original audio cable of the headset. Connect the green plug of the Y Splitter to your PC's audio output (headphone) jack and the pink plug to your PC's microphone input jack. Plug the USB connector into an available USB port for LED lighting.
2. **For PS4/PS5:**
   Plug the 3.5mm audio jack directly into the controller's headphone port. The headset is plug-and-play for audio and microphone. Plug the USB connector into an available USB port on the console for LED lighting.

3. **For Xbox One (Older models may require adapter):**
   For Xbox One controllers with a 3.5mm jack, plug the headset's 3.5mm audio jack directly into the controller. For older Xbox One controllers without a 3.5mm jack, an additional Microsoft Stereo Headset Adapter (sold separately) is required. Plug the USB connector into an available USB port on the console for LED lighting.
4. **For Nintendo Switch:**
   Plug the 3.5mm audio jack directly into the Nintendo Switch console's headphone port. The headset is plug-and-play for audio and microphone. The USB connector for LED lighting is optional and can be plugged into a dock's USB port if available.
5. **For Laptops/Tablets/Phones (with combined 3.5mm audio/mic port):**
   Plug the 3.5mm audio jack directly into the device's combined audio/mic port. The USB connector is for LED lighting only and may not be usable with all mobile devices.

4. Operating Instructions

4.1 Volume Control

The headset features an in-line volume controller located on the cable. Rotate the scroll wheel up or down to adjust the audio volume to your desired level.

4.2 Microphone Usage

The omnidirectional microphone can be adjusted to your preferred angle. Ensure the microphone switch on the in-line controller is in the 'ON' position for voice communication. To mute the microphone, slide the switch to the 'OFF' position.

4.3 LED Light Function

The LED lights on the earcups are powered via the USB connector. Plug the USB connector into any available USB port (e.g., on your PC, console, or USB wall adapter) to activate the lights. The USB connection is solely for powering the LED lights and does not transmit audio or microphone signals.

5. Maintenance

5.1 Cleaning

- Gently wipe the headset's surfaces with a soft, dry cloth.

- For earcups, use a slightly damp cloth if necessary, but avoid excessive moisture.
- Do not use harsh chemicals, solvents, or abrasive cleaners.

5.2 Storage

- Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid tangling the cables to prevent damage.
- When not in use, consider storing the headset on a stand to maintain its shape and prevent pressure on the earcups.

6. Troubleshooting

6.1 Common Issues and Solutions

Problem	Possible Cause	Solution
No sound from headset.	Incorrect connection; Volume too low; Device audio settings.	Ensure 3.5mm jack is fully inserted. Check in-line volume control. Verify audio output settings on your device (PC, console, etc.).
Microphone not working.	Microphone muted; Incorrect connection; Device microphone settings.	Check that the mic switch on the in-line controller is 'ON'. Ensure the 3.5mm Y Splitter (if used) is correctly connected. Verify microphone input settings on your device.
LED lights not illuminating.	USB not connected; USB port issue.	Ensure the USB connector is plugged into a powered USB port. Try a different USB port. Remember, the USB is only for LED power.
Sound quality is poor or distorted.	Loose connection; Device audio settings; Source audio quality.	Check all cable connections. Adjust audio settings on your device. Test with a different audio source to rule out source issues.
Headset uncomfortable after prolonged use.	Improper fit.	Adjust the headband for a comfortable fit. Ensure earcups fully enclose your ears without excessive pressure.
