Mimoglad 5188MM

Mimoglad Ergonomic Office Chair Instruction Manual

Model: 5188MM | Brand: Mimoglad

Important Safety Information

Always follow the assembly instructions carefully to avoid injury. Do not exceed the maximum weight capacity of **300 pounds** to ensure safety and stability. Keep small parts away from children during assembly.

Product Overview

Image: Mimoglad Ergonomic Office Chair, Model 5188MM.

The Mimoglad Ergonomic Office Chair, Model 5188MM, is designed for comfort and support in various work environments. Key features include:

- **Ergonomic Design:** The backrest is shaped to support the natural curve of the human spine, complemented by adjustable lumbar support. A thick seat cushion helps relieve hip pressure during extended use.
- **Adjustable Features:** Includes a 4-inch height adjustment range, a 90-135° reclining function for relaxation, and convenient flip-up armrests.
- **High-Quality Materials:** Constructed with a soft, high-density foam seat covered in durable, breathable mesh fabric. Features a BIFMA and SGS certified gas lift, a heavy-duty base, and smooth-rolling nylon casters for stability and mobility.
- **Space-Saving:** The flip-up armrests allow the chair to be pushed under most desks, optimizing space when not in use.
- **Durability:** Engineered to support up to 300 lbs, featuring a 360-degree swivel and an explosion-proof base plate for enhanced safety and stability.

Package Contents

Please verify that all components are present and undamaged before beginning assembly:

- Chair Backrest
- Seat Cushion
- Pair of Armrests
- Chair Base (5-star)
- 5 Casters
- Gas Lift Cylinder
- Seat Plate Mechanism
- Assembly Hardware (Screws, washers, hex key)
- Instruction Manual (This document)

Assembly Instructions

Follow these general steps to assemble your Mimoglad Office Chair. Refer to the included pictorial guide for detailed, step-by-step instructions and component identification. It is recommended to assemble the chair on a soft, clean surface to prevent scratches.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Verify all parts are present against the package contents list.
2. **Attach Casters to Base:** Insert the five casters into the holes on the chair base until they click securely into place.
3. **Insert Gas Lift:** Place the gas lift cylinder into the center hole of the chair base.
4. **Assemble Seat Mechanism:** Attach the seat plate mechanism to the underside of the seat cushion using the provided screws. Ensure the front of the mechanism faces the front of the seat.
5. **Attach Armrests:** Secure the armrests to the seat cushion using the designated screws.
6. **Connect Backrest to Seat:** Attach the backrest to the seat assembly using the provided hardware.
7. **Mount Seat Assembly to Gas Lift:** Carefully place the assembled seat onto the gas lift cylinder, ensuring it is centered and stable.
8. **Final Checks:** Ensure all screws are tightened and the chair is stable before use. Test all adjustment functions.

Operating Instructions

Your Mimoglad Office Chair offers several adjustable features to customize your seating experience for optimal comfort and posture:

- **Height Adjustment:**
  To raise the chair, lift the lever located under the right side of the seat while standing. To lower the chair, sit on the chair and lift the same lever. Release the lever at the desired height. The chair has a 4-inch lifting range.

Image: Illustration of chair height adjustment mechanism.

- **Reclining Function:**
  The chair features a 90-135° reclining function. Pull out the lever on the left side of the seat to allow the backrest to recline. Push the lever back in to lock the backrest in an upright position.

Image: Visual guide for chair reclining function.

- **Lumbar Support Adjustment:**
  The padded lumbar support can be adjusted vertically by 2 inches to provide optimal comfort for your lower back. Locate the adjustment knob or mechanism on the backrest and slide it to your preferred position.

- **Flip-up Armrests:**
  The armrests can be flipped up by rotating them upwards, allowing the chair to be pushed closer to a desk or stored in compact spaces.

- **360-Degree Swivel:**
  The chair seat and backrest can rotate 360 degrees for ease of movement and access to different areas of your workspace.

Maintenance

To ensure the longevity and proper function of your Mimoglad Office Chair, follow these maintenance guidelines:

- **Cleaning:** For general cleaning, use a soft, damp cloth. For spills or stains on the fabric or mesh, spot clean immediately with a mild fabric cleaner. Avoid harsh chemicals, abrasive materials, or excessive moisture.
- **Caster Care:** Periodically check the casters for accumulated hair, dust, or debris. Clean them regularly to ensure smooth rolling and prevent damage to your flooring.

Image: Detail of a chair caster.

- **Hardware Check:** Every few months, inspect all screws and bolts to ensure they are tight. Re-tighten if necessary to maintain the chair's stability and structural integrity.
- **Gas Lift:** The gas lift is designed for durability. If you experience issues with height adjustment, refer to the troubleshooting section. Do not attempt to disassemble the gas lift cylinder.

Troubleshooting

If you encounter any issues with your Mimoglad Office Chair, consult the table below for common problems and their solutions:

Problem	Possible Cause	Solution
Chair does not adjust height.	Gas lift malfunction or lever not engaged correctly.	Ensure the height adjustment lever is fully engaged. If the problem persists, the gas lift may require replacement. Contact customer support.
Chair wobbles or feels unstable.	Loose screws or improper assembly.	Check all assembly screws and bolts and tighten them securely. Ensure the chair is placed on a flat, even surface.
Casters do not roll smoothly.	Debris (hair, dust, lint) caught in casters.	Turn the chair over and carefully remove any debris from the caster wheels.
Backrest does not recline or lock.	Recline mechanism jammed or lever not engaged.	Ensure the recline lever is fully pulled out to recline or pushed in to lock. Check for any obstructions in the mechanism.
