# Yaheetech 5ft King Metal Platform Bed Frame Instruction Manual

Model: B0BN8LJDWV

## 1. INTRODUCTION

This manual provides detailed instructions for the assembly, use, and maintenance of your Yaheetech 5ft King Metal Platform Bed Frame. Please read all instructions carefully before assembly and retain this manual for future reference.

The Yaheetech metal platform bed frame offers a sturdy foundation for your mattress without the need for a box spring. Its minimalist design and robust steel construction ensure durability and stability.

## 2. IMPORTANT SAFETY INFORMATION

Please observe the following safety guidelines during assembly and use:

- **Assembly Personnel:** We recommend that 2 or more people participate in the assembly process to ensure safety and ease.
- **Assembly Time:** The estimated assembly time is approximately 1 hour.
- **Child Safety:** This product is not intended for use by children. Keep small parts away from children during assembly.
- **Heat Sources:** Keep the bed frame away from fire or other heat sources.
- **Protective Gear:** We recommend wearing protective gloves during assembly to prevent injury.
- **Surface Protection:** Use a pad or soft surface during assembly to prevent damage to the product or your floor.

### 3. PACKAGE CONTENTS

Before beginning assembly, please verify that all components are present and undamaged. Refer to the parts list provided in your packaging. The kit typically includes all necessary bolts and an Allen key for assembly.

### 4. SETUP AND ASSEMBLY

Follow these steps for a smooth assembly process:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches.
2. **Identify Parts:** Match each component with the corresponding labels in the instruction manual.
3. **Assemble Frame:** Begin by connecting the main frame components. The design features integrated rails and legs for simplified assembly.
4. **Install Slats:** The bed frame uses easy-to-fix slats. Ensure each metal pipe is aimed at its designated notch and press firmly to secure.
5. **Tighten Fasteners:** Use the provided Allen key to securely tighten all bolts. Do not overtighten.

## 5. OPERATING AND USAGE

Your Yaheetech bed frame is designed for optimal comfort and functionality:

- **Mattress Compatibility:** This frame is designed to fit standard UK 5' King mattresses (200 cm L x 150 cm W), accommodating memory foam, latex, hybrid, or spring types.
- **Anti-slip Design:** The frame includes two anti-slip baffles on each side to prevent your mattress from sliding, ensuring a stable sleeping surface.
- **Headboard Compatibility:** Reserved holes are present on the legs, allowing you to attach your preferred headboard. Ensure these holes face the head of the bed during assembly. Please note that extra hardware for headboard attachment is not included.
- **Under-bed Storage:** With a ground clearance of 32.5 cm, the frame provides ample space for storing items such as quilts, pillows, or out-of-season clothing, helping to keep your bedroom tidy.

## 6. MAINTENANCE

Proper care will extend the life and appearance of your bed frame:

- **Cleaning:** Use a soft, clean cloth or sponge to gently wipe the outer surface of the product to remove dust and dirt.
- **Avoid Harsh Cleaners:** Do not use chemical cleaners or harsh solvents, as these can damage the finish and appearance of the product.
- **Regular Inspection:** Inspect all fittings (bolts, screws, nuts, etc.) every 3 months. Re-tighten them as necessary to maintain stability.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure, which can affect the material over time.
- **Structural Damage:** If the product shows any structural damage or poses a safety hazard, discontinue use immediately until it is repaired.

## 7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Creaking Noises:** Metal frames may occasionally creak. This can often be resolved by re-tightening all bolts and connections. Ensure the bed is on a level surface.
- **Mattress Sliding:** Ensure the anti-slip baffles are correctly positioned. If the mattress still slides, verify that the bed frame is level and all components are securely fastened.
- **Feeling Slats Through Mattress:** If you can feel the support bars or slats through your mattress, consider using a thicker mattress or adding a mattress topper for increased comfort.
- **Weight Capacity Concerns:** The maximum weight capacity for this bed frame is 360 kg (approximately 793 lbs). Do not exceed this limit. If the combined weight of users and mattress approaches this limit, ensure even weight distribution.
