3. SAFETY INFORMATION

Please read and understand all safety instructions before allowing a child to play with the doll. Failure to do so may result in injury.

- **Choking Hazard:** Small parts may be generated. Not for children under 3 years.
- **Water Use:** Only use clean tap water with the doll's bottle. Do not use other liquids, as they may damage the doll's internal mechanisms.

- **Supervision:** Adult supervision is recommended during play, especially when using water.
- **Cleaning:** Refer to the "Maintenance" section for proper cleaning instructions. Do not immerse the doll in water.
- **Disposal:** Dispose of used diapers responsibly.

4. SETUP

1. **Unboxing:** Carefully remove the doll and all accessories from the packaging. Retain packaging for future reference.
2. **Initial Inspection:** Check the doll and accessories for any signs of damage. If any items are damaged or missing, contact customer support.
3. **Dressing the Doll:** Place the doll's outfit and hat on her. The outfit is designed for easy removal and changing.

5. OPERATING INSTRUCTIONS

5.1. Feeding the Doll

Your BABY born doll can drink from her bottle. Fill the included bottle with clean tap water. Gently insert the bottle into the doll's mouth. As she drinks, her mouth will move realistically, and you may hear drinking sounds.

Mouth moves while drinking!

Image: The doll's mouth moves as she drinks from her bottle, simulating a real baby's feeding action.

5.2. Using the Pacifier

Insert the pacifier into the doll's mouth. Her mouth will move as if she is sucking on it, and she may make pacifier sounds.

5.3. Crying Real Tears

If the doll has been fed water, she can cry real tears. Gently squeeze her arm or chest to encourage her to cry. Tears will emerge from her eyes.

cries real tears

Image: The doll crying real tears, a feature that adds to her lifelike qualities.

5.4. Eyes Open and Close

When you lay the doll down, her eyes will slowly close as if she is falling asleep. When you sit her up, her eyes will open again.

Eyes open and close

Image: A comparison showing the doll's eyes both open and closed, demonstrating her ability to "sleep".

5.5. Baby Sounds and Touch Response

The doll makes various realistic baby sounds, including babbles, gurgles, and laughter. She also responds to touch. Gently touch her cheek or tummy to hear different sounds.

Makes baby sounds and responds to touch

5.6. Wetting the Diaper

After feeding the doll water, she can wet her diaper. Gently press her belly to make her "tinkle" into the diaper. Once the diaper is wet, it should be changed.

press baby's belly to tinkle and then change her diaper

Image: Instructions on how to make the doll wet her diaper by pressing her belly, followed by an image of changing the diaper.

6. MAINTENANCE

- **Cleaning the Doll:** Wipe the doll's surface with a damp cloth and mild soap. Do not immerse the doll in water, as this can damage the electronic components.
- **Drying:** Ensure the doll is completely dry after cleaning, especially around the mouth and diaper area, to prevent mold or mildew.
- **Outfit Care:** The doll's outfit can be hand-washed with mild detergent and air-dried.
- **Storage:** Store the doll in a clean, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Doll not making sounds.	Internal mechanism issue or low power.	Ensure the doll is dry. If the problem persists, contact customer support.
Doll not crying tears or wetting diaper.	Insufficient water intake or blockage.	Ensure the doll has consumed enough water. Check for any blockages in the mouth or internal tubes. Only use clean tap water.
Eyes not opening/closing.	Mechanism obstruction.	Check if anything is obstructing the eye mechanism. Ensure the doll is laid flat or sat upright correctly.

8. SPECIFICATIONS
