Nania ALPHA

Nania Alpha i-Size R129 Booster Seat Instruction Manual

Model: ALPHA (2076660335)

Introduction

Thank you for choosing the Nania Alpha i-Size R129 Booster Seat. This manual provides essential information for the correct installation, safe use, and maintenance of your booster seat. Please read these instructions carefully before use and keep them for future reference. This booster seat is designed for children with a height between 126 cm and 150 cm, typically aged 8 to 12 years.

Safety Information

- The Nania Alpha booster seat is approved according to the i-Size R129 standard.
- Always install the booster seat in the rear of the vehicle.
- Ensure the child is secured using the vehicle's 3-point seat belt. The seat belt must pass correctly over the child's shoulder and lap, without twisting.
- Never use the booster seat without securing the child with the vehicle's seat belt.
- Do not modify the booster seat in any way.
- In the event of an accident, even a minor one, the booster seat may have suffered unseen damage and should be replaced.
- Regularly check that the booster seat is securely positioned and that the vehicle's seat belt is correctly routed.

Setup and Installation

The Nania Alpha booster seat is designed for forward-facing installation using the vehicle's 3-point seat belt system.

1. **Positioning the Booster Seat:** Place the booster seat firmly on the vehicle's rear seat. Ensure it is stable and does not wobble.
2. **Seating the Child:** Have the child sit comfortably on the booster seat.
3. **Securing with Vehicle Seat Belt:**
    - Pull the vehicle's 3-point seat belt over the child and the booster seat.
    - Route the lap portion of the seat belt under the armrests and across the child's hips, ensuring it sits low on the pelvis.
    - Route the diagonal shoulder portion of the seat belt through the red belt guide (if present) or over the child's shoulder, ensuring it rests centrally on the shoulder and not on the neck or arm.
    - Buckle the seat belt securely.
    - Pull the shoulder strap to remove any slack, ensuring a snug fit without being too tight.
4. **Final Check:** Verify that the seat belt is not twisted and is correctly positioned across the child's body and the booster seat.

Image: A child correctly seated in the Nania Alpha booster seat, demonstrating the proper routing of the vehicle's 3-point seat belt across the shoulder and lap. The image also indicates 'Forward facing position' and a weight range of 15-36 kg, which is typically associated with the ECE R44/04 standard, while this product is i-Size R129 (height-based).

Operating and Usage

The Nania Alpha booster seat is designed to elevate your child to allow the vehicle's 3-point seat belt to fit correctly and safely across their body.

- Ensure the child is always seated upright and properly secured for the entire duration of the journey.
- The small armrests provide additional comfort and help guide the lap belt.
- This booster seat is suitable for children from 126 cm to 150 cm in height. For optimal comfort, it is recommended for children aged 8 years and older.

Image: A top-down view of the Nania Alpha booster seat, highlighting its 'Comfort armrests' and indicating its ECE R44/04 approval (note: this product is i-Size R129, this image might be generic or from an older standard). The image also shows 'Made in France'.

Maintenance

Proper maintenance ensures the longevity and hygiene of your booster seat.

- **Cleaning the Cover:** The seat cover is removable and washable. Please refer to the care label on the cover for specific washing instructions. Typically, it can be machine washed at 30°C.
- **Cleaning the Plastic Parts:** Wipe plastic parts with a damp cloth and mild soap. Do not use abrasive cleaners or solvents.
- **Drying:** Allow all parts to air dry completely before reassembling or using the booster seat. Do not tumble dry.

Troubleshooting

If you encounter any issues with your Nania Alpha booster seat, please review the following common problems and solutions:

- **Booster Seat Feels Loose:** Ensure the booster seat is placed firmly on the vehicle seat. Re-route and tighten the vehicle's 3-point seat belt, ensuring no slack.
- **Seat Belt Not Fitting Correctly:** Check that the lap belt is low across the child's hips and the shoulder belt is centrally on the shoulder, not on the neck or arm. Adjust the child's seating position if necessary.
- **Child Discomfort:** Ensure the child is seated correctly and the seat belt is not too tight or rubbing. For optimal comfort, this seat is recommended for children aged 8 years and older.
- **Difficulty Removing Cover:** Refer to the specific instructions provided with the product for cover removal. If no separate instructions are available, gently unhook or unclip the cover from the seat base.

Specifications

Brand	Nania
