## SETUP

## Package Contents

- 1 x Wireless Keyboard
- 1 x Wireless Mouse
- 1 x 2-in-1 USB Receiver (stored inside the mouse battery compartment)
- 1 x User Manual

## Installation

### 1. Install Batteries:

For the keyboard, open the battery compartment on the back and insert 1 x AAA battery (not included), ensuring correct polarity. For the mouse, open the battery compartment on the bottom and insert 1 x AA battery (not included), ensuring correct polarity.

### 2. Retrieve USB Receiver:

The 2-in-1 USB receiver is conveniently stored inside the mouse's battery compartment. Carefully remove it.

### 3. Connect USB Receiver:

Plug the USB receiver into an available USB port on your computer, laptop, or PC.

### 4. Power On:

Turn on the keyboard and mouse using their respective power switches (usually located on the bottom of each device). The devices should automatically connect to your computer.

## Compatibility Work with Windows7/Windows8/Windows10

## OPERATING INSTRUCTIONS

### Power On/Off and Automatic Sleep

To conserve battery life, both the keyboard and mouse feature an automatic sleep mode. If idle for 15 minutes, they will enter sleep mode. To wake them up, simply press any key on the keyboard or move/click the mouse. Ensure the power switches on the devices are in the 'ON' position for operation.

### Keyboard Features

- **Retro Round Keycaps:** The unique round keycaps are designed for comfortable typing and a distinctive aesthetic.
- **Quiet Tapping:** The crater-switch key design significantly reduces typing noise, making it ideal for quiet environments.
- **12 Multimedia Shortcut Keys:** Access common functions quickly using the Fn (Function) key in

combination with the F1-F12 keys. These include media control (play/pause, next/previous track, mute), volume adjustment, browser, search, email, favorite, save, and settings.

## Mouse Features

- **Quiet Click:** The mouse is designed for exceptionally silent clicking, reducing noise by up to 98%.
- **Adjustable DPI:** The mouse supports 1600 DPI for precise and smooth cursor control.

## MAINTENANCE

### Cleaning

- To clean the keyboard and mouse, use a soft, dry cloth.
- For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner.
- Avoid using harsh chemicals, solvents, or abrasive materials, as these can damage the surface.
- Ensure devices are powered off before cleaning.

### Battery Replacement

When the keyboard or mouse performance degrades (e.g., delayed response, frequent disconnections), it may be time to replace the batteries. Refer to the 'Installation' section for battery type and replacement instructions. The combo can work for 60 to 90 days without changing batteries under normal usage.

### Storage

When not in use for extended periods, turn off the keyboard and mouse to conserve battery life. Store them in a cool, dry place away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

Problem	Solution
Keyboard/Mouse not responding	<p>Ensure batteries are correctly installed and not depleted. Replace if necessary.</p> <p>Check if the power switches on both devices are in the 'ON' position.</p> <p>Verify the USB receiver is securely plugged into a working USB port. Try a different USB port.</p> <p>Move the keyboard/mouse closer to the USB receiver to ensure a strong 2.4GHz connection.</p> <p>Restart your computer.</p>
Lag or delayed response	<p>Ensure there are no strong electromagnetic interferences nearby (e.g., other wireless devices, large metal objects).</p> <p>Replace batteries if they are low.</p> <p>Try plugging the USB receiver into a different USB port, preferably a direct port on the computer rather than a hub.</p>
Multimedia keys not working on Mac	<p>The 12 multimedia shortcuts are not fully compatible with Mac systems. This is expected behavior.</p>
