Itari IT-D520BT

Itari D520BT Bluetooth Thermal Shipping Label Printer User Manual

Model: IT-D520BT

1. PRODUCT OVERVIEW

The Itari D520BT is a versatile Bluetooth thermal shipping label printer designed for small businesses and shipping packages. It supports both wireless (Bluetooth) and wired (USB) connections, making it compatible with a wide range of devices and operating systems. This printer features an upgraded built-in paper bin, accommodating both rolls and fan-fold labels without requiring an external holder, optimizing desk space.

It utilizes thermal printing technology, eliminating the need for ink cartridges or ribbons, which contributes to cost savings and efficient operation. The D520BT is capable of printing labels from 1 inch to 4.6 inches in width and is compatible with major shipping platforms and e-commerce sites.

2. PACKAGE CONTENTS

Upon opening the package, ensure all the following items are present:

- Itari D520BT Thermal Shipping Label Printer
- Power Adapter
- USB Cable
- Quick Start Guide
- Sample Thermal Labels (often included)

4 in 1 Bluetooth Thermal Printer
Compact and Powerful

3. SETUP GUIDE

3.1 Loading Labels

The Itari D520BT features an integrated paper bin that supports both roll and fan-fold thermal labels. The adjustable guide

rail ensures proper label alignment.

1. Open the printer cover.
2. Place the roll or fan-fold labels into the built-in paper bin.
3. Adjust the green guide rails to fit the label width snugly, ensuring the labels feed smoothly.
4. Pull the first label through the print head until it extends slightly past the output slot.
5. Close the printer cover.

3.2 Power Connection

1. Connect the power adapter to the printer's power port.
2. Plug the power adapter into a wall outlet.
3. Press the power button on the printer to turn it on. The indicator light will illuminate.

3.3 Driver Installation (for USB Connection)

For Windows, Mac, and Linux computers, connect the printer via USB and install the necessary drivers. Instruction videos are available on the official Itari website for detailed guidance.

- **Windows/Mac/Linux:** Connect the printer to your computer using the provided USB cable. Follow the on-screen prompts or download the latest drivers from the official Itari support website.

3.4 Bluetooth Pairing (for Mobile Devices)

For wireless printing from smartphones or iPads (iOS & Android), use the "labelife" application.

1. Download and install the "labelife" app from your device's app store.
2. Ensure Bluetooth is enabled on your smartphone or iPad.
3. Open the "labelife" app and follow the in-app instructions to search for and pair with your Itari D520BT printer.

3.5 Label Calibration

After loading labels, it is recommended to calibrate the printer to ensure accurate label detection and print alignment. Refer to the official Itari website or the "labelife" app for specific calibration instructions for your device.

4. OPERATING INSTRUCTIONS

4.1 Printing from a Computer

Once drivers are installed and the printer is connected via USB, you can print shipping labels from your computer.

1. Open the document or label file you wish to print.
2. Select "Print" from your application's menu.
3. Choose the "Itari D520BT" as your printer.
4. Ensure the paper size settings match your label dimensions (e.g., 4x6 inches).
5. Adjust any other print settings as needed (e.g., orientation, density).
6. Click "Print".

4.2 Printing from a Mobile Device

Using the "labelife" app, you can print labels wirelessly from your smartphone or iPad.

1. Ensure your printer is paired via Bluetooth with your mobile device.
2. Open the "labelife" app.
3. Import or create the label you wish to print within the app.
4. Select the print option within the app.
5. Confirm print settings and send the job to the printer.

4.3 Supported Label Sizes and Platforms

The Itari D520BT supports thermal labels with widths ranging from 1 inch to 4.6 inches. It is compatible with various shipping and e-commerce platforms, including:

- Etsy
- Shopify
- UPS
- USPS
- Amazon
- eBay
- ShipStation
- ShippingEasy
- Shippo
- PayPal
- And many more.

Bluetooth Connection Makes Printing Easier

5. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your Itari D520BT printer.

5.1 Cleaning the Print Head

A dirty print head can cause faded or unclear prints. Clean it regularly, especially if print quality degrades.

- Turn off the printer and unplug the power cord.
- Open the printer cover.
- Gently wipe the print head (the dark strip inside the printer) with an alcohol swab or a lint-free cloth lightly dampened with isopropyl alcohol.
- Allow the print head to dry completely before closing the cover and turning the printer back on.

5.2 General Cleaning

Keep the exterior of the printer clean to prevent dust and debris from entering the mechanism.

- Wipe the exterior with a soft, dry cloth.
- Avoid using harsh chemicals or abrasive cleaners.

6. TROUBLESHOOTING

If you encounter issues with your Itari D520BT printer, refer to the following common troubleshooting steps:

6.1 Printer Not Responding

- Ensure the printer is powered on and the power indicator light is illuminated.
- Check all cable connections (power and USB).
- For Bluetooth connections, verify the printer is paired and within range of your device.
- Restart the printer and your computer/mobile device.

6.2 Poor Print Quality / Faded Prints

- Clean the print head as described in the Maintenance section.
- Ensure you are using high-quality thermal labels.
- Adjust print density settings in your printer preferences or the "labelife" app.

6.3 Labels Not Feeding Correctly / Paper Jams

- Ensure labels are loaded correctly and the guide rails are adjusted snugly to the label width.
- Check for any obstructions or torn labels inside the paper bin or near the print head.
- Recalibrate the printer for label detection.

6.4 Bluetooth Connection Issues

- Confirm Bluetooth is enabled on both the printer and your mobile device.
- Ensure the "labelife" app is updated to the latest version.
- Try unpairing and re-pairing the printer in your device's Bluetooth settings and within the app.

7. SPECIFICATIONS

Brand	Itari
Model	IT-D520BT
Printing Technology	Thermal

Connectivity	Bluetooth, USB
Compatible Operating Systems	Windows, Mac, Linux, iOS, Android
Supported Label Width	1 inch - 4.6 inches
