## ASSEMBLY INSTRUCTIONS

The Marble Rush Double Drop Set is designed for easy assembly. Follow the included color-coded building instructions for detailed step-by-step guidance. The set offers multiple build levels, from beginner to intermediate, allowing for varied track designs.

1. **Unpack Components:** Carefully remove all pieces from the packaging and verify against the "What's in the Box" list.
2. **Lay Out Base Plates:** Begin by connecting the white base plates to form a stable foundation for your marble run.
3. **Build Vertical Structures:** Use the colored block pieces to construct towers and supports as

indicated in the instructions. Ensure secure connections.

4. **Attach Track Pieces:** Connect the various track segments, including ramps, curves, and special features like the double drop barrels and swirling vortex, to the vertical structures.
5. **Integrate Special Modules:** Install the fill and tilt modules and the marble launcher according to the design.
6. **Final Check:** Before playing, ensure all connections are secure and the track is stable.

## OPERATING INSTRUCTIONS

---

Once assembled, the Marble Rush Double Drop Set is ready for play. Follow these steps to operate your marble run:

- **Place Marbles:** Position the included marbles at the designated starting points or in the fill and tilt modules.
- **Initiate Drop:** For modules like the fill and tilt, wait for marbles to collect, then observe them drop. For the marble launcher, activate the mechanism to propel marbles onto the track.
- **Observe Flow:** Watch as the marbles navigate the various tracks, including the double drop barrels and the swirling vortex, before reaching the end of the run.
- **Experiment:** Reconfigure the track using the color-coded instructions or create your own designs to explore different marble paths and stunts.

## MAINTENANCE

---

To ensure the longevity of your VTech Marble Rush Double Drop Set, follow these simple maintenance guidelines:

- **Cleaning:** Wipe components with a soft, damp cloth. Do not immerse in water or use harsh cleaning agents.
- **Storage:** Store the set in a cool, dry place away from direct sunlight when not in use. Disassemble if necessary for compact storage.
- **Inspection:** Periodically check all pieces for damage or wear. Replace any broken components to maintain safe operation.

## TROUBLESHOOTING

---

If you encounter any issues with your Marble Rush Double Drop Set, refer to the following common solutions:

Problem	Solution
Marbles get stuck on the track.	Check all track connections to ensure they are flush and securely joined. Verify that no pieces are misaligned or obstructed. Ensure the track has sufficient incline.
Pieces do not connect securely.	Ensure you are using the correct pieces for the intended connection. Apply firm, even pressure. If a piece is damaged, it may need replacement.
Marbles do not activate special features (e.g., launcher).	Confirm that the special feature is correctly assembled and positioned. Ensure marbles are reaching the activation point with sufficient momentum.
