Gardena 13206-20

Gardena Micro-Drip-System T-Piece for Spray Nozzles

Model: 13206-20

1. INTRODUCTION

The Gardena Micro-Drip-System T-Piece for Spray Nozzles is an essential component for expanding and customizing your automatic watering system. Designed for connecting 13 mm pipes with a spray nozzle, this T-piece ensures efficient water distribution to your plants. Its innovative Quick & Easy connection technology allows for simple and secure installation, as well as easy disassembly for reuse.

Figure 1: Gardena Micro-Drip-System T-Piece for Spray Nozzles.

2. PRODUCT FEATURES

- **Patented Connection Technology:** Specifically designed for connecting 13 mm pipes with a spray nozzle, offering flexible extension for the Micro-Drip-System.
- **Practical Design:** The five connecting parts included are easy to install, featuring integrated symbols and audible clicks for secure engagement.
- **Reliable Seal:** Ensures a dependable seal when used in combination with Gardena Master Unit 1000

(art. no. 13333-20) or Master Unit 2000 (art. no. 13310-20).

- **Sustainable and Reusable:** Thanks to the Quick & Easy connection technology, components can be easily reused without damage, promoting sustainability.

3. PACKAGE CONTENTS

The package includes:

- 5x Gardena T-Pieces for Spray Nozzles 13 mm (1/2 inch)

4. SETUP AND INSTALLATION

Follow these steps to properly set up your Gardena T-Piece:

1. **Prepare Pipes:** Ensure your 13 mm supply pipes are cut cleanly and are free of debris.
2. **Connect Pipes:** Insert the ends of two 13 mm pipes into the side openings of the T-piece. Push firmly until you hear a distinct "click" sound, indicating a secure and sealed connection.

Figure 2: Connecting the T-piece to a 13 mm pipe.

3. **Install Spray Nozzle:** Insert the base of your spray nozzle into the central opening of the T-piece. Push down until it clicks into place.

Figure 3: Inserting a spray nozzle into the T-piece.

The self-explanatory symbols on the T-piece guide the correct orientation for pipe and nozzle connections.

5. OPERATING INSTRUCTIONS

Once installed, the T-piece facilitates the flow of water from your 13 mm supply pipes to the connected spray nozzle. When your Micro-Drip-System is activated (e.g., via a Master Unit), water will be directed through the T-piece to the spray nozzle, providing targeted irrigation to your plants.

Figure 4: Spray nozzle distributing water via the T-piece connection.

For optimal performance, ensure the T-piece is used in conjunction with a Gardena Master Unit (1000 or 2000) to maintain consistent water pressure and a reliable seal throughout your system.

6. MAINTENANCE

The Gardena T-Piece is designed for durability and reusability. To disconnect or adjust the system:

- **Disconnection:** To release a pipe or spray nozzle, gently press the release mechanism on the T-piece and pull the component away. The Quick & Easy connection technology allows for easy release without damaging the material.

Figure 5: Detaching the T-piece from a pipe for adjustment or reuse.

- **Cleaning:** Periodically inspect the T-piece for any debris or mineral buildup. Clean with clear water if necessary.
- **Storage:** During off-season or when not in use, store the T-pieces in a clean, dry place away from direct sunlight and extreme temperatures to prolong their lifespan.

7. TROUBLESHOOTING

If you encounter issues with your T-piece, consider the following:

- **Leakage at Connection:** Ensure pipes and nozzles are fully inserted and the "click" sound was heard. Check for any damage to the T-piece or the connected components. Verify that the system pressure is within the recommended limits.
- **No Water Flow:** Confirm that the main water supply is on and that the Master Unit is functioning correctly. Check for blockages in the pipes or the spray nozzle.

8. SPECIFICATIONS

Attribute	Value
-----------	-------

Brand	Gardena
Model Name	T-Joint for Spray Nozzles 13 mm
Item Model Number	13206-20
ASIN	B0BNLL8Q76
Material	Kunststoff (Plastic)
Item Weight	0.08 Kilograms (2.82 ounces)
Product Dimensions (L x W x H)	3.15 x 1.26 x 0.94 inches
Number of Pieces	5 (per package)
Maximum Pressure	10 Bars
Volume Capacity	13 mm
Fit Type	Flexible pipe connections
