Braun XT5300

Braun Series XT5 5300 Hybrid Electric Trimmer User Manual

1. INTRODUCTION

The Braun Series XT5 5300 is a versatile grooming tool designed for trimming, styling, and shaving both face and body hair. It features a 4D-Blade for efficient and comfortable use, a flexible head, and is 100% waterproof for convenient wet or dry use.

What's Included

- Trimmer device
- Face combs (1 mm, 2 mm, 3 mm, 5 mm)
- Sensitive body comb (3 mm)
- Protective cap
- Charging stand
- Zipper bag

What's included:

This image displays the complete set of items provided with the Braun Series XT5 5300. It includes the main electric trimmer unit, a premium zipper pouch for storage, a charging stand, various face combs for different lengths (1mm, 2mm, 3mm, 5mm), body combs for sensitive areas, and a protective cap for the blade.

2. SAFETY INFORMATION

This section outlines important safety precautions for using your Braun Series XT5 5300. Please read carefully before use.

- Always ensure the device is dry before connecting it to the power supply for charging.
- Do not use the device if the blade is damaged or broken, as this may cause injury.
- Keep the device out of reach of children.
- Do not disassemble the device beyond what is described in the maintenance section.
- Use only the provided charging stand and power supply.
- The device is 100% waterproof and can be used in wet conditions, but ensure the charging port is completely dry before charging.
- Avoid using the device on irritated or broken skin.
- If you experience any discomfort, discontinue use.

3. SETUP

Initial Setup and Charging

1. **Unpacking:** Carefully remove all components from the packaging.
2. **Initial Charge:** Before first use, fully charge the device. Connect the charging stand to the power supply and place the trimmer on the stand. The charging indicator light will illuminate. A full charge provides approximately 45 minutes of cordless runtime.
3. **Attaching Combs:** Select the desired comb (face or body) and gently slide it onto the trimmer head until it clicks into place. Ensure it is securely attached.

The main product image shows the Braun Series XT5 5300 trimmer, its charging stand, and the included zipper bag. The trimmer is black with a green power indicator light. The charging stand is a compact black disc.

Flexible head

adapts to every
contour for precision
in hard-to-reach
areas

This image highlights the Braun Series XT5 5300 trimmer placed on its charging stand. The power indicator light on the trimmer is visible, indicating that the device is charging. The charging stand is designed for convenient and stable placement of the trimmer.

4. OPERATING INSTRUCTIONS

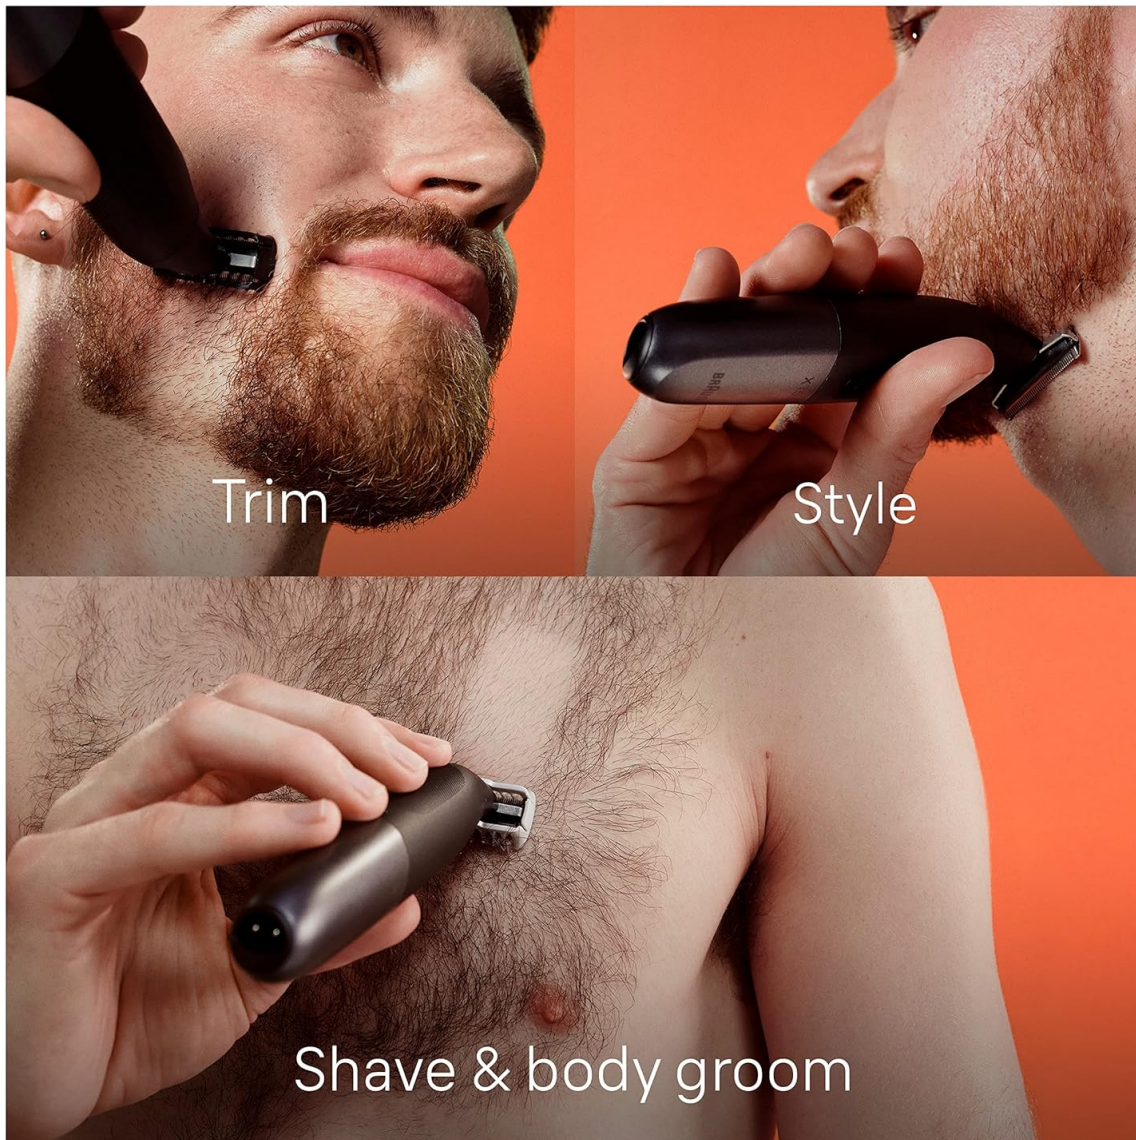

General Operation

The Braun Series XT5 5300 is designed for versatile grooming. It can be used wet or dry, in or out of the shower.

1. **Power On/Off:** Press the power button to turn the device on or off. The indicator light will show its status.
2. **Using Combs:** For trimming to a specific length, attach the appropriate face or body comb. Move the trimmer against the direction of hair growth for best results.
3. **Direct Shaving/Styling:** For a closer shave or precise styling, remove the comb attachment. The 4D-Blade is designed to be gentle on the skin.

Trimming and Styling

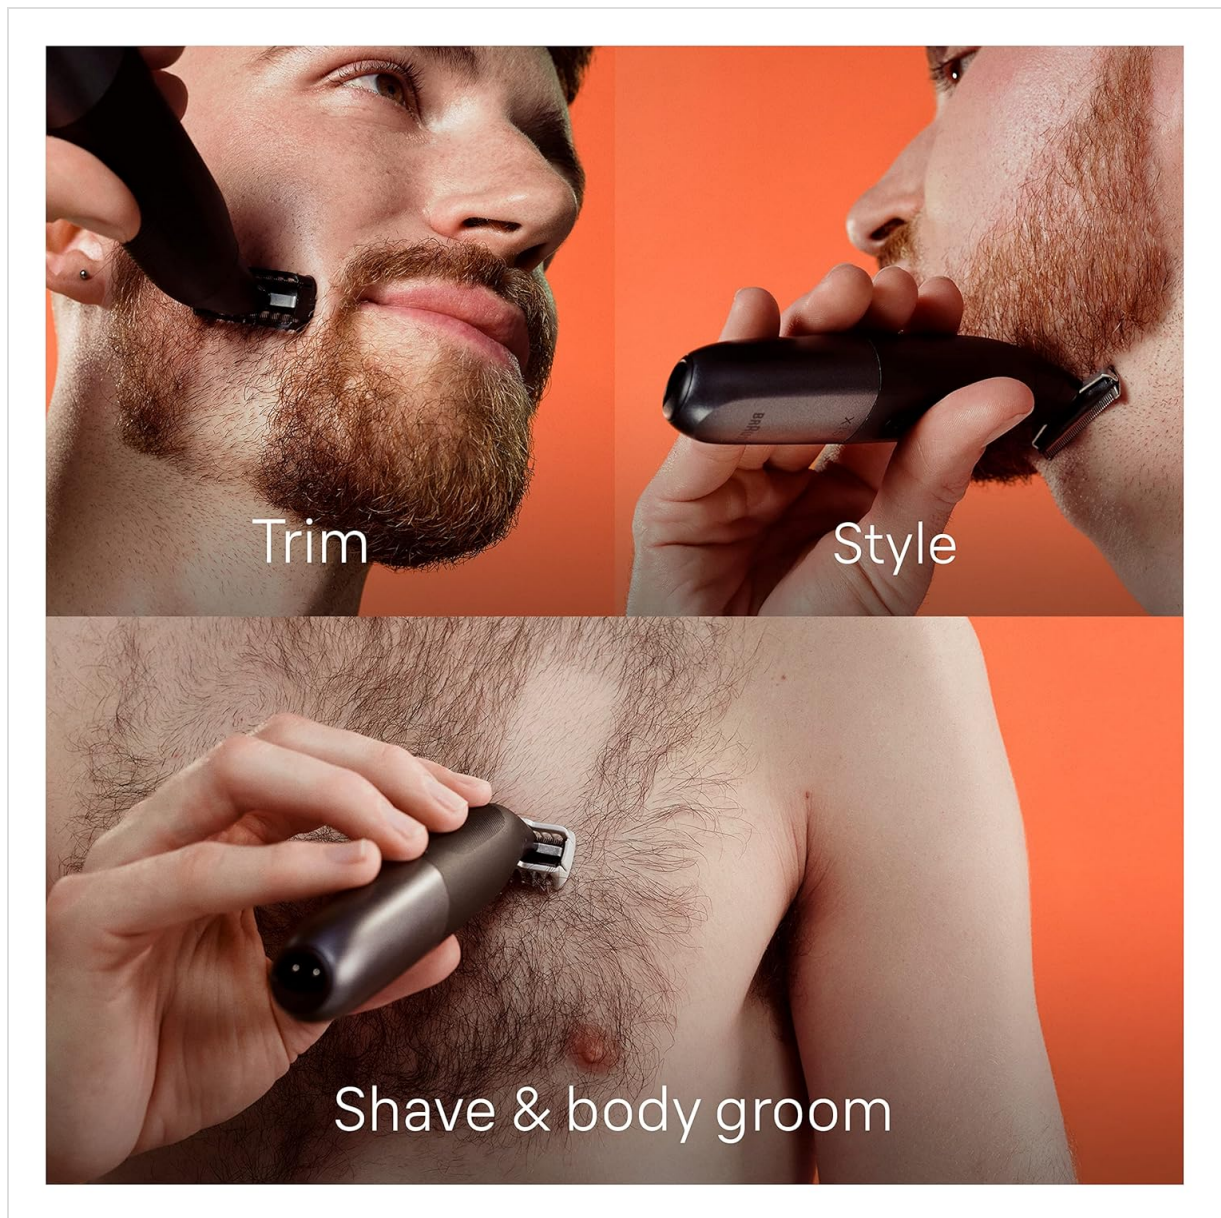

Use the various face combs (1mm, 2mm, 3mm, 5mm) to achieve your desired beard length. The two-way comb design allows trimming in any direction for efficient and precise results.

This image shows a man actively using the Braun Series XT5 5300 trimmer. One panel depicts him trimming his beard to a shorter length, while another shows him precisely styling the edges of his beard. This demonstrates the trimmer's capability for both general trimming and detailed styling.

Body Grooming

For body hair, use the sensitive body comb (3mm) to protect the skin. The SkinGuard comb and caged-blade design are specifically engineered for sensitive areas, providing a comfortable grooming experience.

This image also illustrates the body grooming function of the Braun Series XT5 5300, showing a man using the device to shave hair on his torso. This highlights the product's versatility for full-body use.

Flexible Head Technology

The pivoting Flex Head adapts to every contour of your face and body, ensuring precision even in hard-to-reach areas for a consistent trim or shave.

Metal blade

stays sharp for up to

5. MAINTENANCE

Cleaning and Care

Regular cleaning ensures optimal performance and hygiene of your trimmer.

1. **Rinsing:** The device is 100% waterproof. After each use, rinse the trimmer head and any attached combs thoroughly under running water.
2. **Drying:** Shake off excess water and allow the device to air dry completely before storing or recharging.
3. **Deep Cleaning:** For a more thorough clean, you can gently remove the blade head and rinse it separately. Ensure all hair clippings are removed.

Blade Replacement

The 4D-Blade is designed to stay sharp for up to 6 months with regular use (based on 2x full shaves per week). Replace the blade when you notice a decrease in cutting performance or if the blade appears damaged.

1. **Removing the Blade:** Gently push the blade head away from the trimmer body until it detaches.
2. **Attaching a New Blade:** Align the new blade head with the trimmer body and push it until it clicks securely into place.
