### Key Features:

- **Retro Typewriter Style:** Features unique round, electroplated punk keycaps for a vintage look and feel.
- **OUTEMU Red Switches:** Equipped with linear red switches, providing a quiet and smooth keystroke, suitable for both typing and gaming.
- **Full Keys Anti-Ghosting:** Ensures all key presses are registered accurately, even during rapid, simultaneous inputs, crucial for gaming.
- **Dynamic RGB Backlighting:** Offers 9 distinct lighting modes and supports custom lighting configurations to personalize your experience.
- **Multimedia Functions:** Integrated multimedia shortcuts for convenient control of audio and other functions.
- **Ergonomic Design:** Features a 7-degree ergonomic tilt for comfortable typing during extended use.

### 3. SETUP

---

The E-YOOSO K-600 keyboard is a plug-and-play device, requiring no special drivers for basic functionality.

#### **Connecting the Keyboard:**

1. Locate an available USB-A port on your computer (PC, Mac, Laptop, Chromebook, etc.).
2. Plug the USB cable from the E-YOOSO K-600 keyboard into the USB-A port.
3. The operating system will automatically detect and install the necessary drivers. The keyboard will be ready for use shortly.

#### **Compatibility:**

The K-600 keyboard is compatible with a wide range of operating systems and devices, including:

- Windows 11, 10, 8.1, 8, 7, XP, Vista
- Linux
- Chromebook
- Mac OS
- Surface
- Any device with USB ports (Computer, Desktop, MacBook, etc.)

## 4. OPERATION

### Basic Usage:

Once connected, the keyboard functions as a standard QWERTY layout keyboard. Simply begin typing or using the keys as you would with any other keyboard.

### Multimedia Functions (Fn Keys):

The E-YOOSO K-600 includes 12 multimedia functions accessible by pressing the **Fn** key in combination with the **F1** through **F12** keys. Refer to the keycap legends for specific functions.

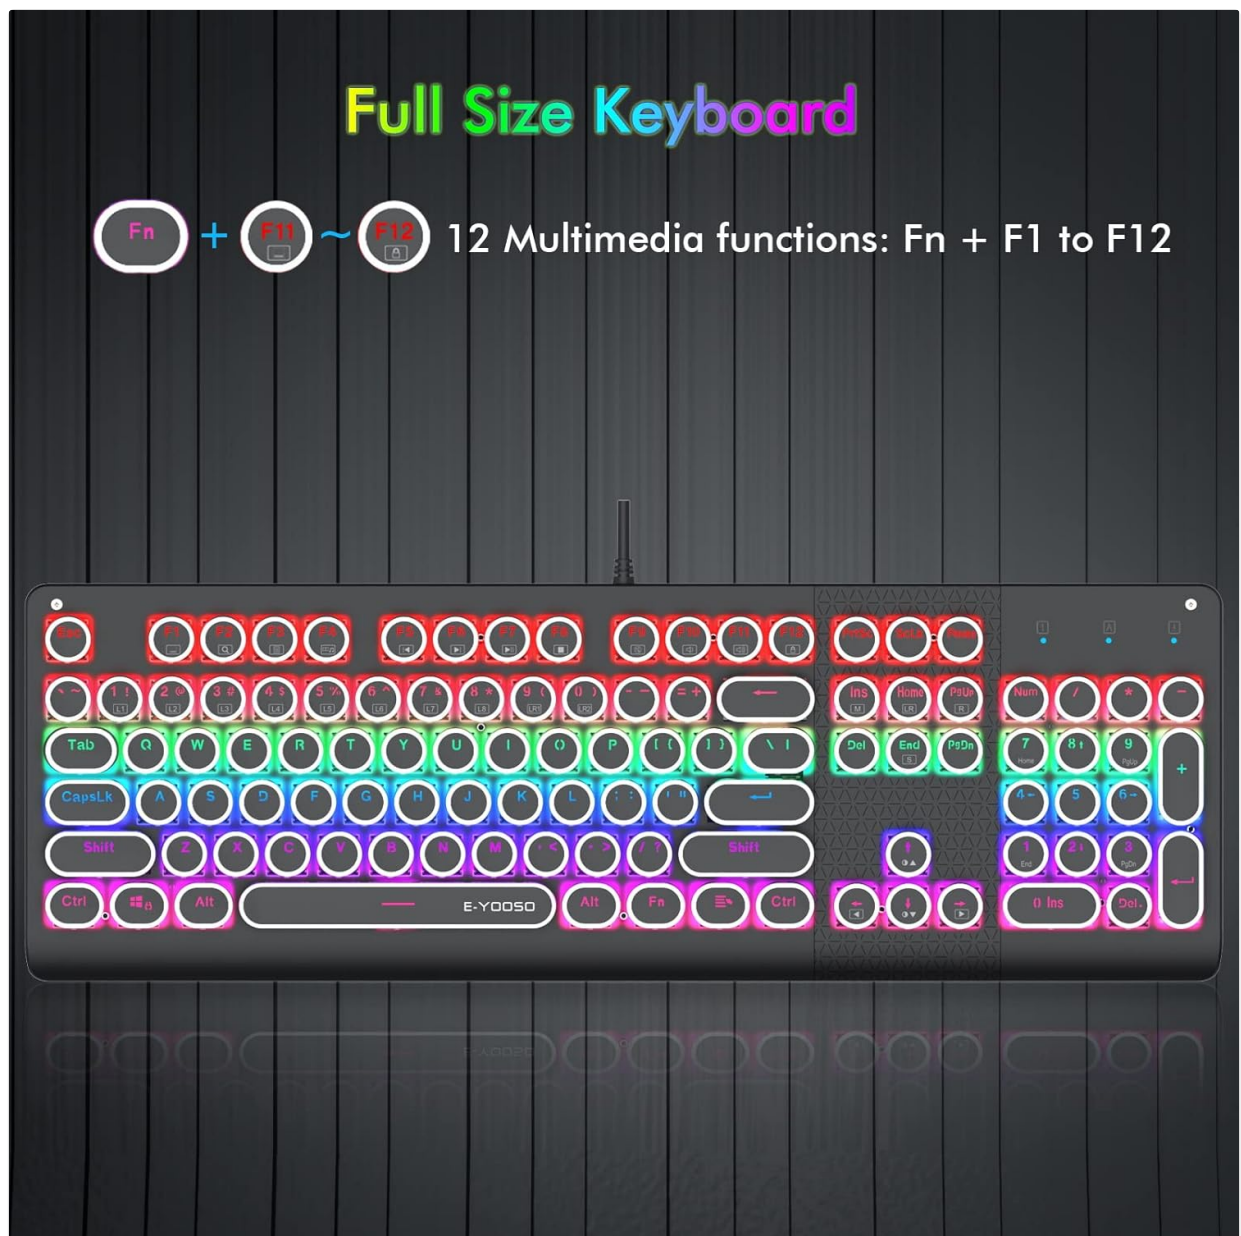

Figure 4.1: Multimedia Functions

### Backlighting Control:

The keyboard features dynamic RGB backlighting with multiple modes and adjustable brightness.

- **Change Lighting Mode:** Press **Fn + Insert** to cycle through the 9 available lighting modes.
- **Adjust Lighting Brightness:** Press **Fn + ↑ (Up Arrow)** to increase brightness, and **Fn + ↓ (Down Arrow)** to decrease brightness.
- **Adjust Lighting Speed:** Press **Fn + ← (Left Arrow)** to decrease speed, and **Fn + → (Right Arrow)** to increase speed.

Figure 4.2: Lighting Mode Customization

### Anti-Ghosting:

The K-600 features full N-key rollover (NKRO) anti-ghosting, meaning every key press is registered independently, preventing missed inputs even when multiple keys are pressed simultaneously. This is particularly beneficial for fast-paced gaming and typing.

Figure 4.3: Full Key Anti-Ghosting

### Windows Key Lock:

To prevent accidental interruptions during gaming or critical tasks, you can lock the Windows key. Press **Fn + Win Key** to toggle the Windows key lock on or off.

## 5. MAINTENANCE

---

Proper care and maintenance will extend the life of your E-YOOSO K-600 keyboard.

### Cleaning:

- Disconnect the keyboard from your computer before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the keycaps and keyboard surface.
- For dust and debris between keycaps, use compressed air or a small brush.
- Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the keyboard.

### General Care:

- Avoid spilling liquids on the keyboard.
- Do not expose the keyboard to extreme temperatures or direct sunlight.
- Do not attempt to disassemble the keyboard, as this may void the warranty.

## 6. TROUBLESHOOTING

---

If you encounter issues with your E-YOOSO K-600 keyboard, please refer to the following common solutions:

- **Keyboard not responding:**
  - Ensure the USB cable is securely connected to both the keyboard and the computer.
  - Try plugging the keyboard into a different USB port on your computer.
  - Restart your computer.
- **Backlighting not working or stuck:**
  - Ensure the keyboard is properly connected.
  - Try cycling through lighting modes using **Fn + Insert**.
  - Adjust brightness using **Fn + ↑ / ↓**.
- **Keys not registering or ghosting:**
  - This keyboard features anti-ghosting. If you experience issues, ensure the keyboard is clean and free of debris.
  - Test the keyboard on another computer to rule out a system-specific issue.
- **Windows key is disabled:**
  - Press **Fn + Win Key** to toggle the Windows key lock.

If the problem persists after trying these steps, please contact E-YOOSO customer support for further assistance.
