Aroepurt IMDZ-HUA172

Aroepurt Maxwest Nitro 55a Phone Case User Manual

Model: IMDZ-HUA172

INTRODUCTION

This user manual provides comprehensive instructions for the Aroepurt Maxwest Nitro 55a Phone Case, Model IMDZ-HUA172. It covers installation, features, usage, maintenance, and troubleshooting to ensure optimal protection and functionality for your Maxwest Nitro 55a smartphone.

PACKAGE CONTENTS

- 1 x Aroepurt Maxwest Nitro 55a Phone Case
- 1 x Tempered Glass Screen Protector
- 1 x Adhesive Metal Finger Ring Support (pre-attached or separate, depending on packaging)

Figure 1: Contents of the Aroepurt Maxwest Nitro 55a Phone Case package, including the phone case with floral design, a purple finger ring stand, and a clear tempered glass screen protector.

FEATURES

- **Dual-Layer Protection:** Combines a durable PC hard back panel with a soft silicone frame for comprehensive impact absorption.
- **Shock Airbags:** Reinforced four corners with integrated shock airbags provide enhanced drop protection.
- **Elevated Bezels:** The case design is higher than both the camera and screen, offering superior flat surface protection.
- **IMD Laser Style Back Panel:** Features a unique 4-layer construction (solid PC, ultra-high definition pattern, special process, clear/scratch-resistant surface) that reflects light differently from various angles, creating a colorful effect.
- **Integrated Finger Ring Support:** An adhesive metal finger ring provides a secure grip, acts as a kickstand, and supports 360-degree rotation.
- **Magnetic Car Mount Compatibility:** The metal ring allows for direct attachment to magnetic car mounts (car mount not included).
- **Tempered Glass Screen Protector:** Included for additional screen protection, featuring 9H hardness, shatterproof design, high transparency, and anti-fingerprint properties.

SHOCKPROOF

Soft silicone frame + hard PC backplane, thickened four corners, and a silicone buffer layer in the middle, which is higher than the screen and camera design.

Figure 2: Illustration of the shockproof design, highlighting the soft silicone frame, thickened four corners, and internal silicone buffer layer for enhanced protection against drops.

IMD laser style

Different angles will produce different color reflection effects

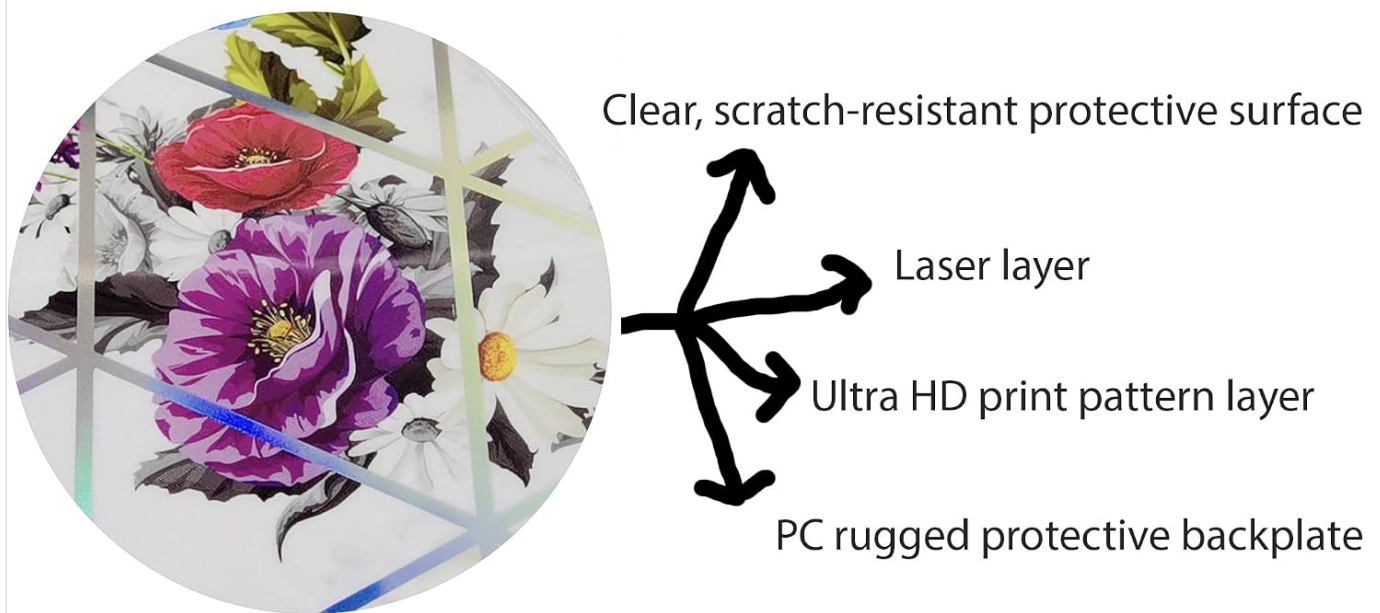

Figure 3: Diagram showing the four layers of the IMD laser style back panel: PC rugged protective backplate, Ultra HD print pattern layer, Laser layer, and Clear, scratch-resistant protective surface.

SETUP AND INSTALLATION

Installing the Phone Case

1. Ensure your Maxwest Nitro 55a phone is clean and free of dust or debris.
2. Align the phone with the silicone frame of the case.
3. Gently press the phone into the case, starting from one corner and working your way around, ensuring all edges are securely fitted.
4. Verify that all ports, buttons, and camera cutouts align correctly with your phone.

Installing the Tempered Glass Screen Protector

1. **Clean the Screen:** Use the provided alcohol wipe (if included) to thoroughly clean your phone's screen. Follow with a microfiber cloth to remove any smudges or dust.
2. **Remove Dust:** Use the dust-absorber sticker (if included) to dab the screen and remove any remaining dust particles.
3. **Peel the Backing:** Carefully peel off the protective film from the adhesive side of the tempered glass screen protector. Avoid touching the adhesive surface.

4. **Align and Apply:** Align the screen protector precisely with your phone's screen, paying attention to the speaker, camera, and home button cutouts. Once aligned, gently lower the protector onto the screen.
5. **Press and Smooth:** Lightly press the center of the screen protector. The adhesive will begin to spread. Use a clean cloth or your finger to gently push out any air bubbles towards the edges.
6. **Final Wipe:** Once applied, give the screen protector a final wipe with the microfiber cloth.

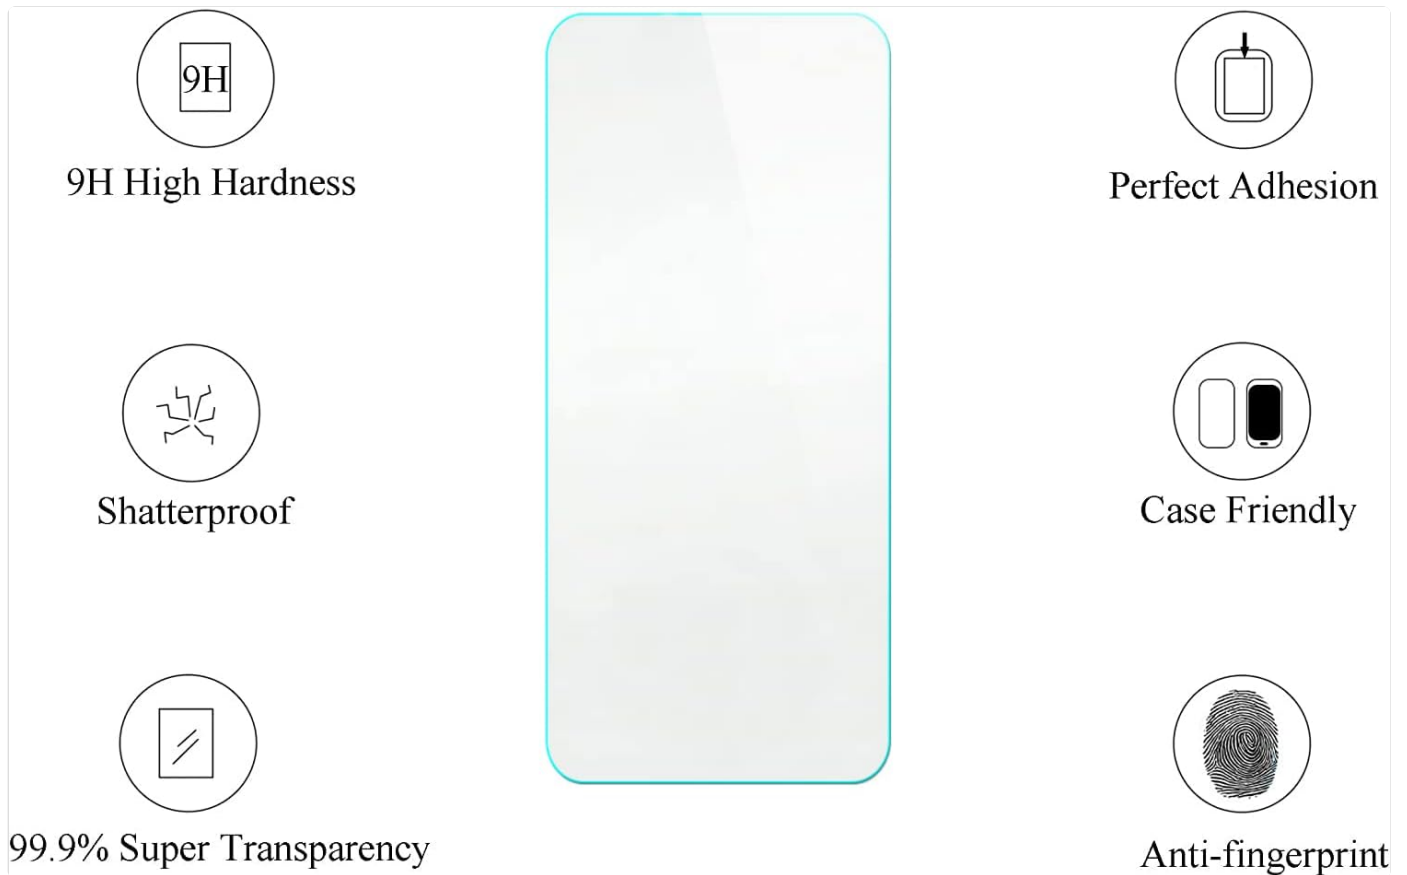

Figure 4: Key features of the tempered glass screen protector, including 9H High Hardness, Shatterproof, 99.9% Super Transparency, Perfect Adhesion, Case Friendly, and Anti-fingerprint properties.

Scratch Proof

Scratch proof screen effectively avoids sharp objects scratching or abrasion

Figure 5: Visual demonstration of the screen protector's scratch-proof capability, showing its resistance to sharp objects and abrasion.

OPERATING INSTRUCTIONS

Using the Finger Ring Support

- **Secure Grip:** Insert your finger through the ring to hold your phone more securely, reducing the risk of accidental drops.
- **Kickstand Function:** Rotate the ring to a desired angle (up to 180 degrees) and prop your phone up on a flat surface for hands-free viewing of videos or video calls.
- **One-Hand Operation:** The ring allows for easier reach across the entire screen with one hand.
- **360-Degree Rotation:** The ring can rotate a full 360 degrees for optimal viewing angles in both portrait and landscape orientations.

One-Hand Operation

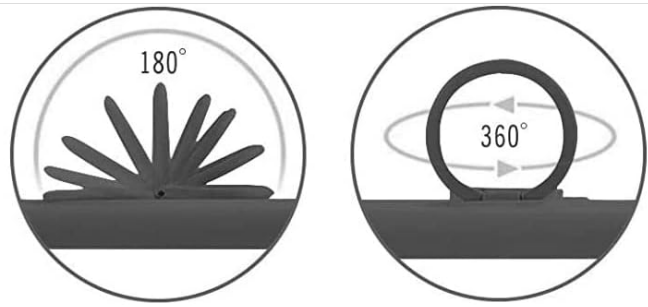

Touch more spots on the screen

Figure 6: Illustration demonstrating how the finger ring support enhances one-hand operation by allowing easier access to all areas of the phone screen.

Magnetic Car Mount Usage

- The integrated metal plate within the finger ring allows the phone case to attach directly to compatible magnetic car mounts.
- Simply place the back of your phone case onto the magnetic surface of your car mount. Ensure a firm connection before driving.
- *Note: This case does not support wireless charging due to the metal ring. Please remove the case for wireless charging or use a wired charger.*

SUPPORT MAGNETIC CAR MOUNT

Support multi-angle stand.
not support wireless charging.

Figure 7: Depiction of the phone case's compatibility with magnetic car mounts, showing the ring stand's ability to attach to a car vent mount. Also illustrates the 180-degree and 360-degree rotation capabilities of the ring.

MAINTENANCE

Cleaning the Phone Case

- Remove the phone from the case before cleaning.
- Wipe the case with a soft, damp cloth. For stubborn stains, a mild soap solution can be used.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these may damage the case material or finish.
- Allow the case to air dry completely before re-installing your phone.

Cleaning the Screen Protector

- Use a clean, dry microfiber cloth to gently wipe away fingerprints and smudges.
- For deeper cleaning, lightly dampen the microfiber cloth with water or a screen cleaner specifically designed for electronics.
- Do not spray cleaning solutions directly onto the screen protector.

TROUBLESHOOTING

- **Screen Protector Bubbles:** If small bubbles appear after installation, try gently pushing them towards the nearest edge with a soft cloth or a credit card wrapped in cloth. For persistent bubbles, lift the nearest corner of the protector slightly and re-apply, ensuring no dust is trapped.
- **Ring Stand Stiffness/Looseness:** The ring stand is designed for a balance of flexibility and stability. If it feels too stiff, gently work it back and forth a few times. If it becomes too loose over time, it may indicate wear and tear.
- **Case Not Fitting Properly:** Ensure you have the correct model of phone (Maxwest Nitro 55a). Remove any other accessories or films on your phone that might interfere with the case fit.
- **Wireless Charging Issues:** As noted, the metal ring in the case prevents wireless charging. This is normal. Please remove the case or use a wired charger.

SPECIFICATIONS

Brand	Aroepurt
Model Number	IMDZ-HUA172
Compatible Phone Model	Maxwest Nitro 55a
Material	PC hard back panel + soft silicone frame + metal support finger ring
Product Dimensions	0.39 x 0.39 x 0.39 inches
