

Lamshaw HM09 Smart Watch Charger

Lamshaw Magnetic USB Charging Cable for Moowhsh HM09 Smart Watch: User Manual

Model: HM09 Smart Watch Charger

1. INTRODUCTION AND OVERVIEW

This manual provides essential information for the proper use and maintenance of your Lamshaw Magnetic USB Charging Cable. This cable is designed specifically for charging the following smartwatch models:

- Moowhsh HM09 Smart Watch
- Moowhsh HM09 Military Smart Watch
- Skykinger HM09 Military Smart Watch

The charger features a magnetic interface for easy connection and a durable design for reliable performance. Please read these instructions carefully before using the product.

Image 1.1: The Lamshaw Magnetic USB Charging Cable connected to a compatible smartwatch. This image illustrates the product in use, showing the magnetic connection point and the USB end of the cable.

Image 1.2: A close-up view of the charging cable, highlighting its features such as pure copper probes for stable conduction and a flexible PVC cable for durability and easy storage. The cable length is approximately 3.3 feet (1 meter).

2. SETUP

To begin charging your smartwatch, follow these simple steps:

1. Uncoil the Lamshaw Magnetic USB Charging Cable.
2. Insert the USB-A end of the charging cable into a compatible power source. This can be:
 - A USB wall adapter (not included)
 - A computer or laptop USB port
 - A power bank
3. Ensure the power source is active.

Laptop

Image 2.1: This image demonstrates the versatility of the charging cable, showing it connected to a laptop, a desktop computer, a power bank, and a wall charger. This illustrates the various compatible power sources for charging your smartwatch.

3. OPERATING INSTRUCTIONS: CHARGING YOUR SMARTWATCH

Once the USB end is connected to a power source, you can connect your smartwatch to the magnetic charging head.

1. Align the magnetic charging head with the charging contacts on the back of your Moowhsh HM09 Smart Watch.
2. The magnets will automatically attract and secure the charger to the watch. Ensure a firm connection.
3. The smartwatch display should indicate that it is charging.
4. A full charge typically takes approximately **2.5 hours** when using a 1A output current.

ORIGINAL HIGH-SPEED CHARGING

Video 3.1: This video demonstrates the correct method for connecting and using magnetic smartwatch chargers, showing the alignment and attachment process. It provides a visual guide to ensure proper charging.

4. MAINTENANCE

To ensure the longevity and optimal performance of your charging cable, please observe the following maintenance guidelines:

- **Keep Clean:** Regularly wipe the magnetic charging contacts on both the cable and your smartwatch with a soft, dry cloth to remove dust or debris.
- **Avoid Liquid Exposure:** Do not expose the cable to water or other liquids. If it gets wet, disconnect it immediately.

from power and allow it to dry completely before reuse.

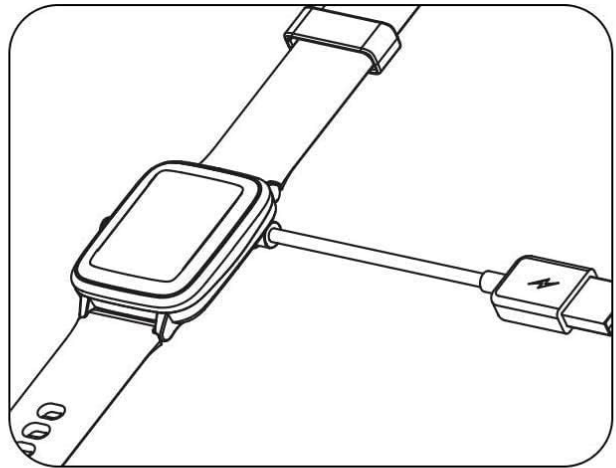

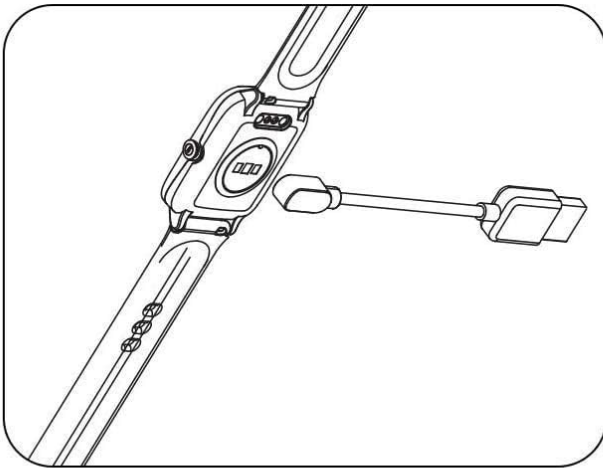

- **Proper Storage:** When not in use, store the cable in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly coiling or bending the cable sharply to prevent internal damage.
- **Handle with Care:** Do not pull the cable by the cord to disconnect it from the power source or the smartwatch. Always grasp the plug or magnetic head.

5. TROUBLESHOOTING

If you encounter issues while charging your smartwatch, refer to the following troubleshooting tips:

Problem	Possible Cause	Solution
Smartwatch not charging	• Loose connection • Incompatible power source • Dirty charging contacts • Incorrect magnetic polarity	• Ensure the USB end is fully inserted into the power source. • Verify the magnetic head is firmly attached to the smartwatch. • Try a different USB port or wall adapter. • Clean the charging contacts on both the cable and the smartwatch. • Ensure the magnetic connection is attracting, not repelling. See Image 5.1.
Magnetic connection is weak or repelling	• Incorrect orientation of the magnetic head • Debris on magnetic surface	• Rotate the magnetic charging head 180 degrees and try again. The magnets should attract strongly. • Clean the magnetic surfaces on both the cable and the watch.
Slow charging	• Low power output from source • Background apps on smartwatch	• Use a power source with at least 1A output. • Close unnecessary applications on your smartwatch during charging.

Magnetic Charging Interface

If the charging magnets repel, the device will not charge.

You can charge correctly if the magnets attract whilst charging,

While charging

Image 5.1: This diagram illustrates the magnetic charging interface. It shows that if the charging magnets repel, the device will not charge (indicated by an 'X'). It also shows the correct orientation where magnets attract, allowing the device to charge properly (indicated by a checkmark and a charging icon).

6. SPECIFICATIONS

- **Product Type:** Magnetic USB Charging Cable
- **Compatibility:** Moowhsh HM09 Smart Watch, Moowhsh HM09 Military Smart Watch, Skykinger HM09 Military Smart Watch
- **Interface:** Micro USB (on the cable's magnetic head side, connecting to the watch) and USB-A (for power source)
- **Cable Material:** Flexible PVC
- **Probe Material:** Pure Copper
- **Cable Length:** Approximately 3.3 feet (1 meter)
- **Charging Time:** Approximately 2.5 hours for a full charge with 1A output current

Note: Smartwatch and USB wall adapter are not included.

7. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the product packaging or contact Lamshaw customer service directly. Keep your purchase receipt for warranty claims.
