Dreo DR-HEC001-A

Dreo Evaporative Air Cooler Instruction Manual

Model: DR-HEC001-A

Brand: Dreo

1. Product Overview

The Dreo Evaporative Air Cooler is designed to provide efficient cooling and humidification for your indoor spaces. It utilizes a multi-layer cooling and moisturizing system to transform hot, dry air into gentle, cooler winds with comfortable humidity levels. Its sleek tower design and quiet operation make it ideal for bedrooms, living rooms, and offices.

2. Setup Instructions

Follow these steps to set up your Dreo Evaporative Air Cooler:

1. **Base Assembly:** Interlock the two halves of the fan base until they click into place. Ensure the short pegs on the fan align with the lock signs on the base. Rotate the base counter-clockwise to secure it, running the power cord through all keepers.
2. **Water Tank Preparation:** Locate the removable water tank at the back of the unit. Pull out the drawer.
3. **Fill Water Tank:** Fill the water tank with cold water. For enhanced cooling, you can add the provided ice packs to the tank. Do not overfill.
4. **Insert Water Tank:** Slide the water tank back into its compartment until it clicks securely. Ensure the power cord is not pinched.

Video 1: Installation Instruction Video

This video demonstrates the step-by-step assembly of the fan base and the proper method for routing the power cord. It also shows how to access and prepare the water tank for operation.

3. Operating Instructions

The Dreo Evaporative Air Cooler offers various settings for personalized comfort. All functions can be controlled via the top panel or the included remote control.

- **Power On/Off:** Press the power button to turn the unit on or off.
- **Fan Speed:** Cycle through 4 fan speeds (1-4) to adjust airflow intensity. Speed 1 is ultra-quiet, ideal for sleep.
- **Modes:** Switch between Normal and Sleep modes. Sleep mode provides even quieter operation for undisturbed rest.
- **Oscillation:** Activate 80° widespread oscillation to distribute cool air across a larger area. Press the oscillation button to turn it on or off.
- **Humidifying Function:** Press the humidify button to activate the humidifying feature, which draws water from the tank to add moisture to the air. This enhances the cooling effect, especially in dry climates.
- **Timer:** Set a timer for up to 7 hours for automatic shut-off.

Video 2: Dreo DR-HEC001 - Stay Cool, Stay Moisturized

This video highlights the core features of the Dreo Evaporative Air Cooler, including its cooling and humidifying capabilities, quiet operation, and oscillation function, demonstrating how it helps maintain comfort.

4. Maintenance

Regular maintenance ensures optimal performance and longevity of your evaporative air cooler. The removable water

tank, cooling pad, and rear grille make cleaning easy.

- **Water Tank:** Clean the water tank twice a month to prevent mineral buildup and maintain air quality.
- **Cooling Pad & Rear Grille:** Wipe off with a soft cloth as needed. Ensure these components are dry before reassembling.

For detailed cleaning instructions, refer to the full user manual available in PDF format.

5. Troubleshooting

If you encounter any issues with your Dreo Evaporative Air Cooler, try the following common troubleshooting steps:

- **Unit Not Cooling Effectively:** Ensure the water tank is filled with cold water and the humidifying function is activated. In very humid climates, evaporative coolers may be less effective.
- **Unpleasant Odor:** This can occur if the water tank or cooling pad is dirty. Clean the water tank and cooling pad thoroughly. Replace water regularly.
- **Water Leaking:** Check that the water tank is properly seated and not overfilled. Ensure all components are correctly assembled.
- **Unusual Noises:** Verify that the unit is placed on a flat, stable surface. Check for any obstructions in the air intake or outlet.

If the problem persists, please refer to the comprehensive troubleshooting section in the full user manual or contact customer support.

6. Specifications

Feature	Detail
Brand	Dreo
Model Name	IceWind
Mounting Type	Floor Mount
Color	White
Air Flow Capacity	235 Cubic Feet Per Minute
Controls Type	Remote
Reservoir Capacity	1.08 Gallons
Noise Level	30 dB
Number of Speeds	4

Product Dimensions	11.42"D x 11.42"W x 39.69"H
Voltage	120 Volts
Item Weight	13.2 pounds

7. Warranty and Support

Your Dreo Evaporative Air Cooler comes with a 12-month default warranty. This warranty can be extended up to 30 months by registering your product.
