- **Inspection:** Periodically inspect all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain stability and safety.
- **Moving:** When moving the desk, lift it rather than dragging to prevent damage to the legs or floor. For the chair, utilize its smooth-rolling wheels.

TROUBLESHOOTING

- **Missing Parts:** If any parts are missing upon delivery, please contact Goplus customer support immediately. Refer to the parts list in your assembly manual.

- **Instability:** Ensure all screws are fully tightened. For the desk, adjust the round leveling feet to compensate for uneven floors. For the chair, ensure the base is correctly assembled and the gas lift is properly seated.
- **Chair Not Adjusting:** Check that the adjustment levers are not obstructed and are functioning correctly. Ensure the gas lift is properly installed.
- **Massage Function Not Working:** Verify that the USB cable is securely connected to a functioning power source (e.g., a charged power bank).
