LMVVC MAS-501

LMVVC Pet Grooming Kit MAS-501 Instruction Manual

Model: MAS-501 | Brand: LMVVC

1. INTRODUCTION

Thank you for choosing the LMVVC Pet Grooming Kit MAS-501. This all-in-one grooming solution is designed to provide a convenient and mess-free experience for pet owners. Featuring a powerful 2.3L vacuum suction system and low-noise operation, it effectively captures 99% of pet hair during grooming. The kit includes a variety of tools to cater to different grooming needs for both dogs and cats, ensuring a comfortable and efficient process.

2. IMPORTANT SAFETY INSTRUCTIONS

- Always unplug the device when not in use, before cleaning, or when changing accessories.
- Keep the device away from water and do not immerse it in liquids.
- Exercise caution to prevent skin irritation or injury to your pet during grooming.
- Ensure all attachments are securely fastened before operation.
- Do not operate the device if it has been dropped, damaged, or is not working properly.
- Keep out of reach of children and pets when not in use.
- Follow all cleaning and maintenance instructions to ensure proper function and longevity of the product.

3. PACKAGE CONTENTS

Your LMVVC Pet Grooming Kit MAS-501 includes the following items:

- Main Vacuum Unit (2.3L capacity)
- Flexible Hose
- Grooming Brush
- Deshedding Tool
- Electric Clipper with 4 Guard Combs (3mm, 9mm, 16mm, 24mm)
- Pet Paw Trimmer
- Pet Nail Grinder
- Cleaning Brush/Nozzle
- User Manual

4. SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Connect Hose:** Attach the flexible hose to the suction port on the main vacuum unit. Ensure it clicks securely into place.
3. **Select Tool:** Choose the desired grooming tool for your task.
4. **Attach Tool:** Connect the selected tool to the other end of the flexible hose. Ensure a firm connection to prevent air leakage and maintain suction.
5. **Power On:** Plug the power cord into a suitable electrical outlet. Press the power button on the main unit to turn it on.

5. OPERATING INSTRUCTIONS

The LMVVC Pet Grooming Kit features three adjustable suction power settings. Start with the lowest setting and gradually increase if needed, observing your pet's comfort level.

5.1. Grooming Brush

Use the grooming brush for daily brushing to remove loose hair and keep your pet's coat smooth. The vacuum suction will collect the hair directly into the dust cup.

Suitable for different needs

Multiple attachments, easy to clean

Video: A demonstration of the grooming brush in action, showing how it effectively brushes and vacuums pet hair simultaneously.

5.2. Deshedding Tool

The deshedding tool is ideal for removing loose undercoat hair, especially during shedding seasons. Brush gently in the direction of hair growth. The vacuum will immediately suck up the removed hair.

Video: A short demonstration of the deshedding tool being used on a pet, highlighting its ability to remove loose fur with vacuum assistance.

5.3. Electric Clipper

Attach the electric clipper for trimming your pet's coat. Select one of the four guard combs (3mm, 9mm, 16mm, 24mm) to achieve the desired hair length. The vacuum will collect the trimmed hair, minimizing mess.

You will fall in love with the efficiency of this groomer/vacuum.

Suitable for all types of pets

The image features a woman in a yellow sweater grooming a white dog with a white and blue vacuum groomer. Four circular callouts are arranged in a diagonal line from the top left to the bottom right, each containing a different dog breed and a clipper guard. The callouts are connected by dotted lines. The background is a light blue gradient with paw prints. The text 'Suitable for all types of pets' is written in white on a blue background at the bottom left. The text 'You will fall in love with the efficiency of this groomer/vacuum.' is written in black at the top right, with a dashed arrow pointing to the groomer.

Video: A comprehensive overview of the grooming kit, including a demonstration of the electric clipper in use, showing its effectiveness in trimming pet hair.

5.4. Pet Paw Trimmer

For delicate areas like paws, around the eyes, or other detailed trimming, use the specialized pet paw trimmer. Its smaller size allows for precise control.

5.5. Pet Nail Grinder

Attach the nail grinder to safely and smoothly trim your pet's nails. The integrated vacuum will capture nail dust, keeping the area clean.

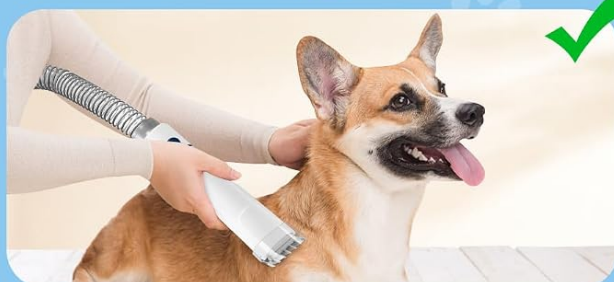

5.6. Cleaning Brush/Nozzle

After grooming, use the cleaning brush or nozzle attachment to remove any stray hairs from furniture, carpets, or hard-to-reach areas. The powerful vacuum ensures thorough cleanup.

Why choose us ?

Make hair smoother

Will not harm pets

Clothes are cleaner

Cleaning furniture gaps

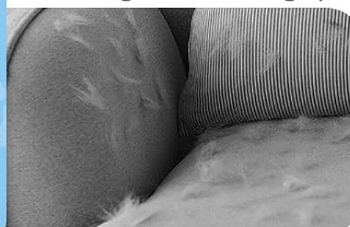

Image: The cleaning nozzle attachment effectively removing pet hair from narrow furniture gaps, demonstrating its utility for household cleanup.

6. MAINTENANCE

6.1. Emptying the Dust Cup

1. Ensure the main unit is turned off and unplugged.
2. Detach the dust cup from the main unit.
3. Open the dust cup and empty the collected pet hair into a waste bin.
4. Close the dust cup and reattach it to the main unit.

6.2. Cleaning Filters

Regularly check and clean the filters inside the dust cup to maintain optimal suction performance. Rinse filters with water if necessary and ensure they are completely dry before reinserting.

6.3. Cleaning Tools

After each use, remove any hair or debris from the grooming tools. Use the provided cleaning brush for the clipper blades and other attachments. Store all tools in a clean, dry place.

7. TROUBLESHOOTING

- **Reduced Suction:** Check if the dust cup is full, filters are clogged, or the hose/attachments are blocked. Empty the dust cup and clean the filters. Clear any obstructions in the hose or tools.
- **Device Not Turning On:** Ensure the power cord is securely plugged into a working outlet. Check for any tripped circuit breakers.
- **Tools Not Attaching Securely:** Verify that the tools are aligned correctly with the hose connection point and pushed firmly until they click into place.
- **Excessive Noise:** While designed for low noise, unusual loud noises may indicate a blockage or a loose component. Turn off and unplug the device, then inspect for any issues.

8. SPECIFICATIONS
