

VIANIS V8111

VIANIS Dusk to Dawn Outdoor Porch Light (Model V8111) - Instruction Manual

Modern Black Exterior Lighting Fixture with Tempered Seeded Glass

1. IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before beginning installation. Failure to do so may result in electric shock, fire, or other injuries that could be fatal or cause property damage.

- **WARNING:** Risk of electric shock. Disconnect power at the circuit breaker or fuse box before installation or servicing.
- All electrical connections must be in accordance with local codes, ordinances, or the National Electric Code (NEC). Contact a qualified electrician if you are unfamiliar with proper electrical wiring installations.
- This fixture is designed for outdoor use and is waterproof. Ensure all connections are sealed properly to prevent water intrusion.
- Do not install this fixture on surfaces that are not structurally sound.
- Use only E26 base bulbs, maximum 100W.
- Keep flammable materials away from the light fixture when in operation.

2. PACKAGE CONTENTS

Verify that all components are present before proceeding with installation.

4. INSTALLATION INSTRUCTIONS

This fixture is designed for quick and hassle-free installation. It comes pre-assembled.

1. Prepare for Installation:

- Turn off power at the circuit breaker or fuse box.
- Ensure the mounting surface is clean and dry.

2. Mounting the Fixture:

- Attach the mounting bracket to the junction box using the provided screws.
- Connect the electrical wires (black to black, white to white, ground to ground) using wire nuts.
- Carefully tuck the wires into the junction box.
- Align the fixture with the mounting bracket and secure it with the provided screws.

3. Install Bulb:

- Insert an E26 base bulb (max 100W, not included) into the socket. The open bottom design allows for easy bulb replacement without tools.

4. Restore Power:

- Turn power back on at the circuit breaker or fuse box.

5. OPERATING INSTRUCTIONS

This fixture features an advanced dusk to dawn sensor for automatic operation.

- **Automatic Operation:** The built-in high-sensitivity photocell sensor will automatically turn the light on at dusk and turn it off at dawn by detecting ambient brightness.
- Ensure the sensor is not obstructed by objects or direct artificial light sources (e.g., other bright lights, streetlights) as this may interfere with its operation.

6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your light fixture.

- **Cleaning:** Clean the fixture with a soft, damp cloth. Do not use abrasive cleaners or solvents as they may damage the finish or glass.
- **Bulb Replacement:** Ensure power is off before replacing the bulb. The open bottom design allows for easy bulb access. Use only E26 base bulbs, maximum 100W.
- **Inspection:** Periodically inspect the wiring and connections for any signs of wear or damage.
