7. TROUBLESHOOTING

If you encounter any issues with your JBL Bar 300 soundbar, please consider the following general troubleshooting steps:

- **No Power:** Ensure the power cable is securely connected to both the soundbar and a working power outlet.
- **No Sound:** Check that the correct input source is selected on the soundbar and your TV. Verify that the volume is not muted on either device. Ensure all audio cables are properly connected.
- **Bluetooth Connection Issues:** Make sure the soundbar is in Bluetooth pairing mode and your device's Bluetooth is enabled. Try unpairing and re-pairing the device.
- **Distorted Sound:** Reduce the volume on both the soundbar and your connected device. Check for any physical obstructions or interference.

For more detailed troubleshooting, refer to the full user manual available on the JBL support website or contact customer support.

8. MAINTENANCE

To ensure the longevity and optimal performance of your JBL Bar 300 soundbar, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the soundbar with a soft, dry, lint-free cloth. Avoid using abrasive cleaners, waxes, or solvents as they may damage the finish.
- **Ventilation:** Ensure adequate airflow around the soundbar. Do not block any ventilation openings.
- **Storage:** If storing the soundbar for an extended period, disconnect it from power and store it in a cool, dry place away from direct sunlight and extreme temperatures.

9. WARRANTY AND SUPPORT

Your JBL Bar 300 soundbar comes with a **2-year manufacturer's warranty**. This warranty covers defects in materials and workmanship under normal use.

For warranty claims, technical support, or additional product information, please visit the official JBL support website or contact their customer service department. Keep your proof of purchase for warranty validation.
