## Sandberg Powerbank USB-C PD 130W 50000

# Sandberg Powerbank USB-C PD 130W 50000 User Manual

Model: Powerbank USB-C PD 130W 50000

## INTRODUCTION

Thank you for choosing the Sandberg Powerbank USB-C PD 130W 50000. This high-capacity mobile charger is designed to provide reliable power for your phone, tablet, and laptop, keeping you connected for weeks. It features a powerful 50,000 mAh capacity, multiple charging ports, and an integrated flashlight. This manual will guide you through the setup, operation, and maintenance of your power bank.

## PRODUCT OVERVIEW

The Sandberg Powerbank USB-C PD 130W 50000 is a versatile charging solution. Below are key visual components and their descriptions.

**Front View:** This image shows the Sandberg Powerbank from a slightly elevated front angle, highlighting its digital display showing "100%" charge, and the various USB-C and USB-A output ports. A braided strap is visible on the right side.

**Top View of Ports:** This image provides a clear view of the power bank's top surface, detailing the layout of the USB-C (OUT 1, IN 2, IN/OUT 3) and USB-A (OUT 4, OUT 5, OUT 6) ports with their respective power ratings (30W, 18W, 100W). Also visible are the power button and flashlight button.

A woman with a backpack is shown in profile, looking at a smartphone. In the foreground, a Sandberg power bank is displayed, showing its top surface with multiple ports and a digital display. The Sandberg logo is visible in the top left corner of the image.

**Sandberg®**

**Eliminate the limits of mobile tech!**  
Unlock the power to do more.

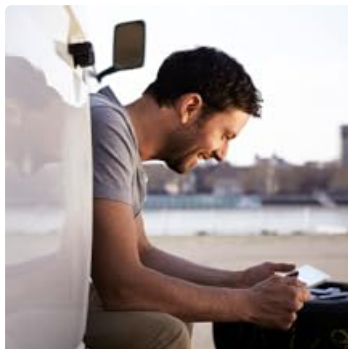

**Outdoor Usage Scenario:** This image depicts the power bank in an outdoor setting, emphasizing its portability and utility for users on the go. A person with a backpack is shown in the background, suggesting adventure and freedom from power outlets.

PD 100W

**2 USB-C**

PD 30W

**Multi-Device Charging Icon:** An illustrative icon showing the power bank connected to a laptop, tablet, and smartphone, signifying its capability to charge multiple device types simultaneously.

**Flashlight Feature Icon:** A simple icon depicting a flashlight beam, indicating the power bank's built-in powerful flashlight function.

**Always-On Mode Icon:** An icon featuring a power button encircled by arrows, symbolizing the "Always-On" mode for continuous power supply to low-power devices.

**USB-C Power Delivery Icon:** This icon highlights the power bank's two USB-C ports with Power Delivery (PD) capabilities, specifying 100W and 30W outputs for fast charging of compatible devices, including laptops.

## SETUP

---

### Initial Charging

Before first use, fully charge your Sandberg Powerbank. Use a compatible USB-C power adapter (not included) and the provided USB-C to USB-C cable (max 100W) or USB-A to USB-C cable (2A) to connect the power bank to a power source. The digital display will show the charging progress.

- Connect the USB-C cable to either the "IN 2" or "IN/OUT 3" port on the power bank.
- Connect the other end of the cable to a suitable USB wall charger or computer USB port.
- The display will show the charging percentage. Charge until it reaches 100%.

### Package Contents

- 1 x Sandberg Powerbank USB-C PD 130W 50000
- 1 x Quick Guide
- 1 x USB-C to USB-C cable (max 100W, 50 cm length)
- 1 x USB-A to USB-C cable (2A, 50 cm length)

## OPERATING INSTRUCTIONS

---

### Charging Devices

The power bank can charge up to 5 devices simultaneously using its various ports.

1. **Connect your device:** Use a compatible charging cable to connect your device to one of the power bank's output ports:

- **USB-C PD Ports (OUT 1, IN/OUT 3):** Ideal for fast charging laptops, tablets, and smartphones that support USB Power Delivery. OUT 1 provides up to 30W, and IN/OUT 3 provides up to 100W.
- **USB-A Ports (OUT 4, OUT 5, OUT 6):** Suitable for charging smartphones, headphones, and other USB-powered devices. These ports provide up to 18W.

2. **Initiate Charging:** The power bank should automatically begin charging your device. If not, press the power button once to activate the output.
3. **Monitor Charge:** The digital display on the power bank shows the remaining battery percentage.

Using the Flashlight

The power bank features a powerful integrated flashlight.

- **Turn On/Off:** Press the flashlight button (sun icon) once to turn the flashlight on. Press it again to turn it off.

Always-On Mode

For low-power devices that might stop charging due to low current draw, the power bank supports an "Always-On" mode.

- **Activate Always-On:** Double-press the power button to activate Always-On mode. The display may indicate this mode.
- **Deactivate Always-On:** Double-press the power button again to exit Always-On mode, or it will automatically deactivate after a period of inactivity or when the power bank is fully discharged.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your power bank.

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cleaning:** Use a soft, dry cloth to clean the exterior of the power bank. Do not use liquid cleaners or abrasive materials.
- **Battery Health:** For optimal battery life, avoid fully discharging the power bank regularly. Recharge it when the charge level is low. If storing for extended periods, charge it to about 50-70% every few months.
- **Avoid Drops:** While robust, avoid dropping the power bank, as this can damage internal components.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging	Cable not connected properly; Faulty cable/adaptor; Power source issue.	Ensure cables are securely connected. Try a different cable or power adapter. Test the power source with another device.
Device not charging from power bank	Power bank is off; Low power bank battery; Incompatible cable; Device not drawing enough current (for low-power devices).	Press the power button to turn on. Recharge the power bank. Use the correct cable for your device. Activate "Always-On" mode for low-power devices.
Flashlight not working	Flashlight button not pressed correctly; Power bank battery too low.	Ensure a firm press on the flashlight button. Recharge the power bank.

Problem	Possible Cause	Solution
Power bank shuts off unexpectedly	Overload protection; Low battery; Automatic shutdown (if not in Always-On mode for low-power devices).	Reduce the number of connected devices. Recharge the power bank. Activate "Always-On" mode if charging a low-power device.

## SPECIFICATIONS

Feature	Detail
Model Name	Powerbank USB-C PD 130W 50000
Brand	Sandberg
Capacity	50,000 mAh / 185 Wh
Battery Type	Lithium-Ion
Input Ports	2 x USB-C
Output Ports	2 x USB-C, 3 x USB-A
USB-C PD Output (OUT 1)	Up to 30W
USB-C PD Output (IN/OUT 3)	Up to 100W
USB-A Output (OUT 4, 5, 6)	Up to 18W (shared)
Flashlight Power	2 (modes/intensity)
Display	Charge status display
Special Features	Supports Always-On mode, Integrated flashlight
Dimensions	15 x 5 x 7 cm
Weight	1052 g
