Braun 9465cc

Braun Series 9 Pro Electric Razor User Manual

Model: 9465cc

Brand: Braun

Introduction

Welcome to the user manual for your Braun Series 9 Pro 9465cc Electric Razor. This manual provides essential information on the setup, operation, maintenance, and troubleshooting of your new electric shaver. Designed for efficiency and comfort, the Series 9 Pro offers a close and gentle shave for various beard lengths.

Clean & Renew Refill Cartridges

The package also includes a 6-count pack of Clean & Renew Refill Cartridges for optimal hygiene and performance of your SmartCare Center.

Image: A 6-pack of Braun Clean & Renew Refill Cartridges.

These cartridges offer:

- Removal of hair and skin particles.
- Refreshing lemon scent.
- Lubrication of blades.
- 100% compatibility with all Braun Clean&Charge units.

Key Features

- **ProLift Trimmer:** Captures and cuts flat-lying hair, making it effective on 1, 3, or 7-day beards.
- **Sonic Technology:** Helps to shave up to 10% faster and navigate tricky areas like the upper lip and neck.
- **Wet & Dry Use:** The shaver is 100% waterproof, allowing for use with foam, gel, or even in the shower.
- **AutoSense Technology:** Adapts the shaver's power to your beard density for a close shave.
- **5-in-1 SmartCare Center:** Intelligently selects a cleaning program, hygienically cleans, lubricates, dries, and charges your razor.
- **Long-lasting Performance:** Designed for durability, with the shaver lasting up to 7 years.
- **Battery Life:** Up to 60 minutes of runtime on a full charge.

Setup

Initial Charging

1. Unpack all components from the box.
2. Connect the charging cord to the SmartCare Center or directly to the shaver.
3. Plug the charging cord into a power outlet.
4. Allow the shaver to fully charge before first use. A full charge provides up to 60 minutes of shaving time.

Setting up the SmartCare Center

1. Open the SmartCare Center by pressing the release button.
2. Insert a fresh Clean & Renew Refill Cartridge into the base until it clicks into place.
3. Close the SmartCare Center.
4. Place the shaver head-down into the SmartCare Center. Ensure it is properly seated for charging and cleaning.

For a shaver like new.

At the touch of a button, the 5-in-1 SmartCare Center intelligently selects the necessary cleaning program, automatically charges and hygienically cleans, lubricates and dries your shaver.

Operating Instructions

General Shaving Tips

- For best results, shave before washing your face or showering.
- Hold the shaver at a right angle (90°) to your skin.
- Stretch your skin with your free hand to ensure hairs stand upright.
- Shave against the direction of hair growth.
- Apply gentle pressure; the shaver's AutoSense technology adjusts power automatically.

Shaving Tricky Areas (Neck and Jawline)

For areas like the neck and jawline where hair growth can be varied, try shaving both up-and-down and side-to-side to capture all hairs effectively. The ProLift trimmer is specifically designed to lift and cut flat-lying hairs in these challenging spots.

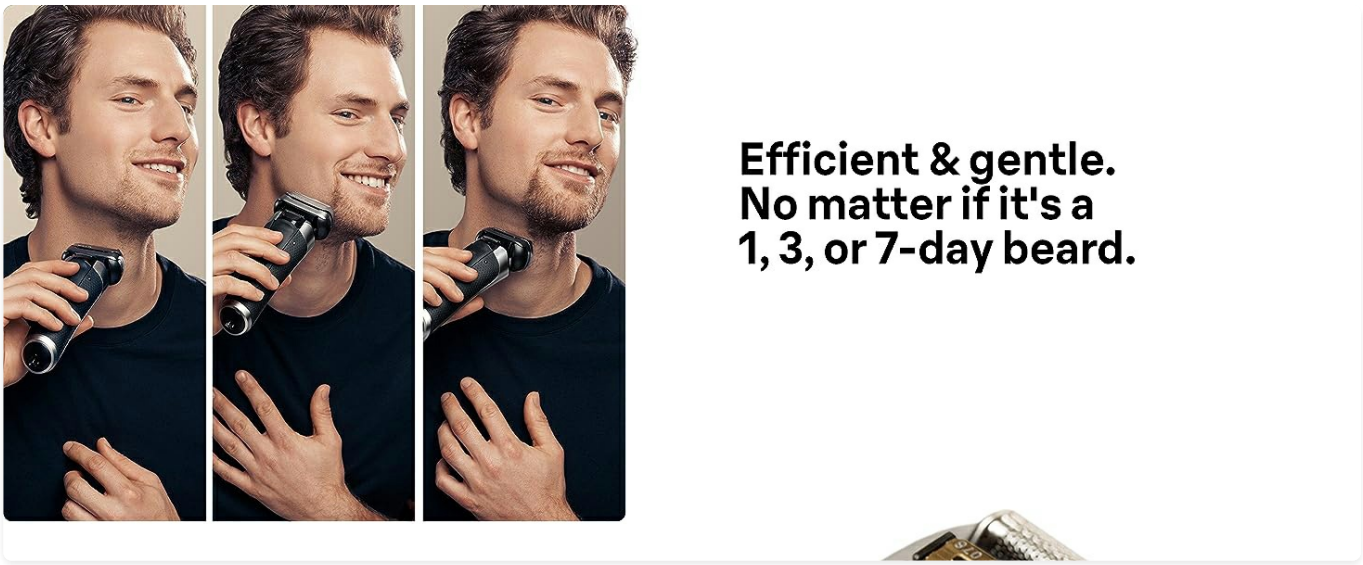

Image: Visual guide for shaving different beard lengths with the shaver.

Wet Shaving

The Braun Series 9 Pro is 100% waterproof. You can use it with shaving foam or gel for a refreshing shave, or even use it in the shower. Ensure the shaver is fully charged before wet use.

Video Demonstration (Not Available)

An official product video demonstrating shaving techniques is not available from the manufacturer at this time. The provided video is from an influencer and does not meet the criteria for inclusion in this manual.

Maintenance and Cleaning

Using the SmartCare Center

The 5-in-1 SmartCare Center provides intelligent cleaning, lubrication, drying, and charging. After each shave, place the shaver head-down into the SmartCare Center. It will automatically detect the shaver and initiate the appropriate cleaning program.

- Ensure the SmartCare Center has a sufficient amount of cleaning solution in the cartridge.
- The alcohol-based cleaning solution ensures optimal hygiene and a refreshing scent.
- High energy lubricants within the solution maintain the shaver's best performance.

Manual Cleaning

For quick cleaning or when the SmartCare Center is not available:

1. Turn off the shaver and unplug it if connected to a charger.
2. Remove the shaver head.
3. Tap out any loose hair clippings.
4. Use the provided cleaning brush to gently remove remaining hair from the shaver head and body.
5. Rinse the shaver head and body under warm running water.
6. Allow the shaver to air dry completely before reattaching the head or storing.

Note: While the SmartCare Center is highly effective, some users may find manual cleaning necessary for intricate parts not fully reached by the cleaning station.

Safety Information

Please read and adhere to the following safety guidelines to ensure safe operation and prevent injury:

- Always unplug the shaver before cleaning or charging.
- Do not submerge the shaver in water for extended periods, especially if not designed for wet use (this model is, but general caution applies).
- Keep the shaver away from heat sources.
- Always use the provided cleaning solution and lubricant for optimal hygiene and performance.
- Always hold the shaver firmly while shaving to avoid accidental cuts.
- If you experience skin irritation, discontinue use and consult a doctor.
- This appliance can be used by children aged 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

Troubleshooting

Problem	Possible Cause	Solution
Shaver not turning on	Battery is low or depleted.	Charge the shaver using the charging cord or SmartCare Center.
Poor shaving performance / pulling hairs	Shaver head is dirty or worn out.	Clean the shaver head thoroughly. Consider replacing the shaver head if it's old (recommended every 18 months).
SmartCare Center not cleaning	Cleaning cartridge is empty or improperly inserted.	Replace the cleaning cartridge or ensure it is correctly seated.
Skin irritation after shaving	Incorrect shaving technique or sensitive skin.	Ensure you are shaving against the grain with light pressure. If irritation persists, consult a dermatologist.
