

AYAFATO P002

AYAFATO Air Purifier P002 User Manual

Model: P002

1. INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation, maintenance, and troubleshooting of your AYAFATO Air Purifier P002. Please read this manual thoroughly before using the product and retain it for future reference.

2. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, please observe the following safety precautions:

- Always unplug the air purifier before moving, cleaning, or performing any maintenance.
- Do not operate the unit with a damaged cord or plug. If the cord or plug is damaged, contact customer support.
- Keep the power cord away from heated surfaces.
- Do not use the air purifier in wet or damp environments, such as bathrooms.
- Do not insert fingers or foreign objects into any openings.
- Ensure the air inlet and outlet are not blocked.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

3. PRODUCT OVERVIEW

The AYAFATO Air Purifier P002 is designed to improve indoor air quality through a multi-stage filtration system and includes an aromatherapy function. Its compact design makes it suitable for various rooms.

3.1 Components

Front view of the AYAFATO Air Purifier P002, showing the power button and indicators for Sleep, Low, and High fan speeds.

Create your own Healthy Space

Benefits: air purification, sleep better, breathe freely

An exploded view diagram showing the three filtration layers: Pre-filter for dust and pet hair, Activated Carbon filter for odors and fumes, and H13 HEPA filter for fine particles.

3.2 Filtration System

The P002 utilizes a 3-layer defense system for high efficiency:

- **Pre-filter:** Captures large particles such as dust, lint, fibers, and pet hair.
- **Activated Carbon Filter:** Absorbs odors, fumes, and volatile organic compounds (VOCs).
- **H13 HEPA Filter:** Traps 99.97% of fine dust, smoke, pollen, pet dander, and mites as small as 0.3 microns.

3.3 Aromatherapy Function

The air purifier includes a dedicated aromatherapy feature. You can add a few drops of essential oils to the aromatic pad to diffuse pleasant scents throughout your room, effectively masking pet odors or musty smells.

Sleep Mode: Ultra Quiet & White Noise

4. SETUP

4.1 Unpacking

1. Carefully remove the air purifier from its packaging.
2. Remove all plastic bags and protective materials.
3. Place the unit on a firm, level surface. Ensure there is at least 15 cm (6 inches) of space around the unit for proper airflow.

4.2 Filter Installation

The filters are typically pre-installed but may be wrapped in plastic for shipping. Ensure all plastic packaging is removed from the filters before first use.

1. Turn the air purifier upside down and twist the base cover counter-clockwise to unlock and remove it.
2. Remove the filter assembly. If wrapped in plastic, remove the plastic packaging.
3. Place the filter back into the unit, ensuring it is seated correctly.
4. Replace the base cover and twist clockwise to lock it securely.

5. OPERATING INSTRUCTIONS

The AYAFATO Air Purifier P002 features touch controls for easy operation.

The AYAFATO Air Purifier P002 showcasing its three operational modes: Sleep for ultra-quiet operation, Low for daily purification, and High for heavy pollution.

5.1 Power On/Off

- Plug the power adapter into a suitable electrical outlet.
- Touch the power button on the top of the unit to turn the air purifier ON. The default mode is usually 'Low' or 'Sleep'.

- Touch the power button again to cycle through fan speeds or to turn the unit OFF.

5.2 Fan Speed Settings

The air purifier offers three fan speed settings:

- **Sleep Mode:** Provides ultra-quiet operation (less than 24dB), ideal for bedrooms and undisturbed rest.
- **Low Speed:** Suitable for daily purification and maintaining good air quality.
- **High Speed:** Recommended for rapid purification in cases of heavy pollution or strong odors.

The AYAFATO Air Purifier P002 operating in a bedroom, highlighting its ultra-quiet sleep mode for undisturbed rest.

5.3 Aromatherapy Function

1. Locate the aromatherapy pad compartment, usually at the bottom or side of the unit.
2. Add 3-5 drops of your preferred essential oil onto the aromatherapy pad.
3. Close the compartment. The scent will be diffused with the purified air.

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your air purifier.

6.1 Filter Replacement

The multi-layer filter needs to be replaced periodically, typically every 3-6 months, depending on usage and air quality. A filter indicator light may illuminate when replacement is due.

1. Unplug the air purifier from the power outlet.
2. Turn the unit upside down and remove the base cover.
3. Remove the old filter assembly.
4. Insert a new AYAFATO P002 replacement filter, ensuring it is correctly oriented.
5. Replace and lock the base cover.
6. Plug in the unit. If there is a filter reset button, press and hold it for 3-5 seconds to reset the filter life indicator.

6.2 Cleaning the Unit

- Wipe the exterior of the air purifier with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.
- Gently vacuum the air inlet and outlet grilles to remove dust accumulation.

7. TROUBLESHOOTING

If you encounter issues with your air purifier, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not turn on	No power supply; Power cord not properly connected; Filter not installed correctly.	Check power outlet; Ensure power cord is securely plugged in; Reinstall filter and ensure base cover is locked.
Reduced airflow or purification efficiency	Filter is dirty or clogged; Air inlets/outlets are blocked.	Replace the filter; Clear any obstructions from air inlets/outlets.
Unusual noise	Foreign object inside; Unit not on a stable surface; Filter not installed correctly.	Unplug and check for foreign objects; Place on a stable, flat surface; Reinstall filter.
Odor persists or is not removed	Activated carbon filter is saturated; Source of odor is too strong.	Replace the filter; Ensure proper ventilation in the room.

If the problem persists after trying these solutions, please contact customer support.
