AVERA CEV60N

AVERA CEV60N 60 cm Wall-Mounted Kitchen Hood User Manual

Model: CEV60N | Brand: AVERA

1. INTRODUCTION

Thank you for choosing the AVERA CEV60N 60 cm Wall-Mounted Kitchen Hood. This appliance is designed to effectively remove smoke, steam, and odors from your kitchen, ensuring a fresh and clean cooking environment. Featuring a sleek design with tempered glass and stainless steel, LED lighting, and a powerful 3-speed motor, this hood combines functionality with modern aesthetics. Please read this manual carefully before installation and operation to ensure proper use and maintenance.

2. SAFETY INFORMATION

Always adhere to basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury. Keep this manual for future reference.

- Ensure the power supply matches the voltage specified on the appliance (127 V).
- Installation must be performed by a qualified technician in accordance with local regulations.
- Do not operate the hood if the power cord or plug is damaged.
- Maintain a safe distance between the hood and the cooking surface (recommended 65-75 cm).
- Clean grease filters regularly to prevent fire hazards.
- Do not flambé under the range hood.
- Ensure adequate ventilation in the room when the range hood is used simultaneously with gas or other fuel-burning appliances.

3. PRODUCT OVERVIEW

Key Features

- **Dual Functionality:** Operates as an extractor (ducted) or purifier (recirculation with carbon filters).
- **Powerful Extraction:** 124 W motor with 3 adjustable speeds for efficient air purification.
- **Quiet Operation:** Low noise levels, starting from 48 dB at the lowest speed.
- **Efficient Lighting:** Integrated 4 W LED light for clear visibility of your cooking area.
- **Easy Maintenance:** Includes a removable and washable metallic mesh filter and two activated carbon filters.
- **Durable Construction:** Made from high-quality stainless steel and tempered glass.

4. INSTALLATION

The AVERA CEV60N is a wall-mounted kitchen hood. Proper installation is crucial for optimal performance and safety. A basic installation kit, including screws, is provided.

Installation Requirements:

- **Mounting Type:** Wall-mounted.
- **Distance from Cooktop:** Maintain a distance of 65 to 75 cm between the bottom of the hood and the cooking surface.
- **Ventilation Options:** The hood supports both ducted (exterior ventilation) and recirculation (interior ventilation with activated carbon filters) modes.

Ventilation Modes:

Choose the appropriate ventilation mode for your kitchen setup:

- **Duct Mode:** Air is extracted outside through a duct system. This requires an external exhaust vent.
- **Recirculation Mode:** Air is filtered through activated carbon filters and then returned to the kitchen. This mode is suitable when external ducting is not possible. Ensure activated carbon filters are installed for this mode.

Two activated carbon filters are shown at the bottom, which are used for recirculation mode.

5. OPERATING INSTRUCTIONS

The AVERA CEV60N kitchen hood features intuitive controls for easy operation.

Control Panel:

The control panel is located on the front of the hood and includes:

- **On/Off Button:** To power the hood on or off.
- **Speed Buttons:** Three buttons to select extraction speeds (Low, Medium, High).
- **LED Light Button:** To turn the 4W LED light on or off.

Speed Settings and Noise Levels:

Adjust the extraction speed based on your cooking needs. The hood operates at low noise levels:

- **Low Speed:** 48 dB
- **Medium Speed:** 53 dB
- **High Speed:** 56 dB

6. MAINTENANCE AND CLEANING

Regular maintenance ensures the longevity and efficiency of your kitchen hood.

Cleaning the Metallic Mesh Filter:

The metallic mesh filter is designed to trap grease and is washable. Clean it regularly (e.g., monthly, depending on usage) to

maintain optimal performance.

- 1. Turn off and unplug the hood before cleaning.
- 2. Carefully remove the metallic mesh filter.
- 3. Wash the filter by hand with warm soapy water or in a dishwasher.
- 4. Allow the filter to dry completely before reinserting.

Replacing Activated Carbon Filters:

If using the hood in recirculation mode, the activated carbon filters absorb odors. These filters are not washable and must be replaced periodically (typically every 3-6 months, depending on usage).

- 1. Turn off and unplug the hood.
- 2. Remove the metallic mesh filter to access the carbon filters.
- 3. Remove the old carbon filters and dispose of them.
- 4. Install new carbon filters, ensuring they are securely in place.
- 5. Reinstall the metallic mesh filter.

Image: A person demonstrating the removal of a filter from a kitchen hood, illustrating the process for cleaning or replacing filters.

Exterior Cleaning:

Clean the exterior surfaces with a soft cloth and a mild, non-abrasive cleaner. Avoid using harsh chemicals or abrasive pads that could damage the stainless steel or tempered glass finish.

7. TROUBLESHOOTING

Before contacting customer support, please refer to the following common issues and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Hood does not turn on	No power supply; Power cord unplugged; Circuit breaker tripped	Check power connection; Plug in the power cord; Reset circuit breaker
Low extraction power	Grease filters clogged; Activated carbon filters saturated; Ducting obstructed; Incorrect installation height	Clean metallic mesh filters; Replace activated carbon filters; Check ducting for obstructions; Verify installation height (65-75 cm)
Excessive noise	Loose components; Improper installation; Obstruction in fan	Check for loose screws or parts; Ensure correct installation; Inspect fan for foreign objects
LED light not working	Light bulb faulty; Electrical connection issue	Replace LED bulb (if replaceable); Contact customer support for electrical issues

8. SPECIFICATIONS

Feature	Specification
