

INFLATION hynj-22

INFLATION Garden Tools Set with Extended Handle

MODEL: HYNJ-22

Introduction

This instruction manual provides essential information for the safe and effective use of your INFLATION 5-piece garden tool set. This set is designed for various gardening tasks, featuring durable construction and extendable handles for improved reach and reduced strain. Please read this manual thoroughly before using the tools.

Product Components

Your INFLATION garden tool set includes the following items:

- **Large Trowel:** For digging, scooping, and transplanting.
- **Small Trowel (Transplanter):** For precise digging and transplanting smaller plants.
- **Cultivator (Hand Rake):** For loosening soil, aerating, and removing weeds.
- **Weeder:** For removing stubborn weeds from the soil.
- **Pruning Shears:** For trimming small branches and stems.
- **4 x Extended Rods:** For attaching to the trowels, cultivator, and weeder to extend their reach.

Setup and Assembly

The INFLATION garden tools are designed for easy assembly, allowing you to quickly attach the extension rods for longer reach.

- 1. Identify Tools for Extension:** The large trowel, small trowel, cultivator, and weeder are compatible with the extension rods. The pruning shears are used as a hand tool.
- 2. Attach Extension Rod:** Each extension rod features a threaded connection. Align the threaded end of an extension rod with the base of the desired tool's handle.
- 3. Secure Connection:** Twist the extension rod clockwise until it is firmly tightened. Ensure the connection is secure to prevent wobbling during use. The non-slip cover on the end of the rod helps prevent soil entry.
- 4. Adjust Length:** You can attach multiple extension rods to a single tool if a longer reach is required, up to 30 inches.

Operating Instructions

Each tool in the set is designed for specific gardening tasks. Always ensure a firm grip and stable footing when using any tool.

- **Trowels (Large & Small):** Use for digging holes for planting, scooping soil, and transplanting seedlings. The pointed tip of the large trowel is effective for breaking into compacted soil.
- **Cultivator (Hand Rake):** Ideal for breaking up clods of soil, aerating the ground around plants, and gently raking away loose debris or small weeds.
- **Weeder:** Insert the V-shaped tip into the soil near the base of the weed. Leverage the handle to pull the weed and its roots out of the ground.
- **Pruning Shears:** Use for cutting small branches, deadheading flowers, and shaping plants. Ensure the blade is clean before and after use. Always cut at a slight angle to promote plant health.

Maintenance and Care

Proper maintenance will extend the lifespan of your INFLATION garden tools.

- **Cleaning:** After each use, remove all soil and debris from the tools. A stiff brush and water can be used. For pruning shears, wipe blades with a damp cloth.
- **Drying:** Ensure all tools are thoroughly dried before storage to prevent rust, even though they feature rust-proof painted metal and stainless steel poles.
- **Storage:** Store tools in a dry, protected area away from direct sunlight and extreme temperatures. Hanging tools can help prevent damage and keep them organized.
- **Pruning Shears Sharpening:** Periodically sharpen the blades of the pruning shears to maintain cutting efficiency.

Built to Last

Stainless steel pole

No Falling Apart

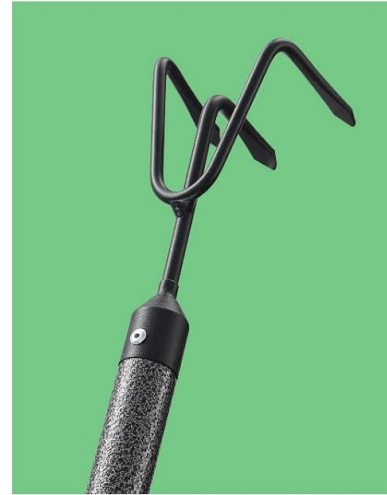

Sturdy metal

No Bending

Rustproof surface

No Rusted

Troubleshooting

While the INFLATION garden tools are built for durability, occasional issues may arise. Here are some common concerns and solutions:

- **Loose Extension Rod:** If an extension rod feels loose during use, immediately stop and re-tighten the threaded connection by twisting clockwise until secure.
- **Reduced Cutting Performance (Pruning Shears):** If the pruning shears are not cutting cleanly, they may need sharpening. Refer to the Maintenance section for guidance.
- **Tool Head Detachment:** In rare cases, a tool head might detach from its handle. This indicates a manufacturing defect or excessive force. Discontinue use immediately and contact customer support for assistance.

Specifications

Feature	Detail
---------	--------

Feature	Detail
Brand	INFLATION
Model Number	hynj-22
Material	Metal (Rust-proof painted metal, Stainless steel pole)
Handle Material	Metal
Color	Black
Product Dimensions (L x W x H)	18 x 8 x 4 inches (packaged)
Item Weight	3.43 pounds (1.56 Kilograms)
Special Feature	Adjustable length (with extension rods), Anti-rust
