Overview Features What's in the Box Setup Operation Maintenance Troubleshooting Specifications Warranty & Support

1. Product Overview

The Oraimo Nugget Ice Maker (Model OIM-211A) is a countertop appliance designed to produce chewable nugget ice, also known as pebble ice or Sonic ice. This machine offers convenience with its self-cleaning function and dual water refill options, providing a continuous supply of ice for various uses.

2. Key Features

- **Nugget Ice Production:** Produces soft, chewable, and tooth-friendly nugget ice, ideal for chilling drinks without melting too quickly.
- **High Ice Output:** Capable of producing over 1 pound of ice per hour, with an ice basket capacity of up to 3.3 lbs and a 2.8 L water reservoir for continuous supply.
- **Easy Operation:** Simple one-press operation for ice making.
- **Dual Water Refill Options:** Supports both manual water addition and direct water hookup for convenience.
- **Automatic Self-Cleaning:** Features a self-cleaning function activated by a 3-second press of the "CLEAN" button, ensuring fresh-tasting ice.

3. What's in the Box

Upon unboxing your Oraimo Nugget Ice Maker, please ensure all the following components are present:

- 1 x Nugget Ice Maker
- 1 x Ice Basket
- 1 x Ice Scoop
- 1 x Water Inlet Pipe

4. Setup Guide

4.1 Initial Cleaning

Before first use, it is recommended to clean the ice maker. Refer to the "Automatic Self-Cleaning" section for instructions on how to run the self-cleaning cycle.

4.2 Placement

Place the ice maker on a flat, stable surface away from direct sunlight and heat sources. Ensure adequate ventilation around the unit.

4.3 Water Refill

The Oraimo Ice Maker offers two methods for water refill:

- **Manual Refill:** Open the top lid and pour water directly into the water reservoir up to the MAX fill line.
- **Automatic Water Hookup:** Connect the provided water inlet pipe to a water source. This method requires a water filtration system for optimal performance and longevity of the machine.

It is recommended to use pure water or filtered water to prolong the service life of the ice machine and ensure ice quality.

Figure 6: Manual and automatic water refill options.

5. Operating Instructions

Follow these steps to operate your Oraimo Nugget Ice Maker:

1. **Fill Water:** Ensure the water reservoir is filled with water using either the manual or automatic refill method.

2. **Power On:** Plug the ice maker into a grounded electrical outlet. Press the **ON/OFF** button on the control panel to start the ice making process. The indicator light will illuminate.
3. **Ice Production:** The machine will begin producing nugget ice. The first batch of ice may take slightly longer.
4. **Collect Ice:** Once ice is produced, use the provided ice scoop to retrieve the ice from the ice basket.
5. **Automatic Shut-off:** The machine will automatically stop ice production when the ice basket is full or when the water level is low. Refill water if necessary to resume production.

Figure 7: Simple steps for operating the ice maker.

6. Maintenance and Cleaning

6.1 Automatic Self-Cleaning

To maintain the freshness and quality of your nugget ice, regular self-cleaning is recommended. Perform this function at

least once a week.

1. Ensure the ice maker is empty of ice and water.
2. Fill the water reservoir with clean water.
3. Press and hold the **"CLEAN"** button for 3 seconds to activate the self-cleaning function.
4. The machine will run a cleaning cycle. Once complete, drain any remaining water from the reservoir.

Figure 9: Self-cleaning icon.

6.2 External Cleaning

Wipe the exterior of the ice maker with a soft, damp cloth. Do not use abrasive cleaners or solvents.

7. Troubleshooting

If you encounter issues with your Oraimo Nugget Ice Maker, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Ice maker not producing ice.	No water in reservoir; Power not connected; Ambient temperature too high.	Fill water reservoir; Ensure unit is plugged in and powered on; Place in a cooler environment.
Ice is not nugget-shaped or is too soft/hard.	Water quality; Machine needs cleaning.	Use pure or filtered water; Run self-cleaning cycle.
Machine is noisy.	Normal operation sounds; Unit not level.	Some operational noise is normal; Ensure unit is on a flat, stable surface.
"Add Water" indicator is on.	Water reservoir is empty.	Refill the water reservoir.
"Ice Full" indicator is on.	Ice basket is full.	Remove ice from the basket.

8. Product Specifications
