5.3. Using the Oclean Care APP

Download the Oclean Care APP from your smartphone's app store. Follow the in-app instructions to pair your toothbrush via Bluetooth. The app provides personalized brushing plans, real-time feedback, and detailed reports to optimize your oral hygiene routine.

6. MAINTENANCE

6.1. Cleaning the Toothbrush

After each use, rinse the brush head and bristles thoroughly under running water. Wipe the toothbrush handle with a soft, damp cloth. Do not immerse the entire handle in water for extended periods, although it is IPX7 waterproof for showering.

6.2. Brush Head Replacement

It is recommended to replace your brush head every 3 months or sooner if the bristles become frayed. Gently pull the old brush head off the handle and snap a new one into place.

7. TROUBLESHOOTING

7.1. Toothbrush Not Charging

Ensure the USB cable is securely connected to both the magnetic charger base and the power source. Verify that the toothbrush is correctly placed on the magnetic charger base. If the issue persists, try a different USB port or power adapter.

7.2. Short Battery Life

If you experience significantly shorter battery life than expected (30 days), ensure the toothbrush is fully charged before each use. Over time, battery performance may degrade. If the issue is severe, contact customer support.

7.3. App Connectivity Issues

Ensure Bluetooth is enabled on your smartphone and the toothbrush is within range. Try restarting both the app and the toothbrush. If problems continue, try reinstalling the Oclean Care APP.
