2. **Attach Accessory:** Select the appropriate magnetic attachment (styling concentrator, smoothing nozzle, or diffuser) and simply snap it onto the front of the hair dryer.

3. **Drying:** Hold the hair dryer at a safe distance from your hair. Switch it on using the slider switch. Move the hair dryer slowly and evenly over your hair to dry and style it.

5. **Finish:** Once styling is complete, switch off the hair dryer by sliding the switch to the '0' position and unplug it from the power outlet.

Negative Ion Technology:

This hair dryer utilizes negative ion and bio-ceramic technology to release a high concentration of negative ions onto the hair surface. This helps to reduce frizz, deeply moisturize hair roots, and leave hair smooth and shiny. It provides salon-level hair care, nourishing hair and repairing hair scales for long-term softness and shine.

USING ATTACHMENTS

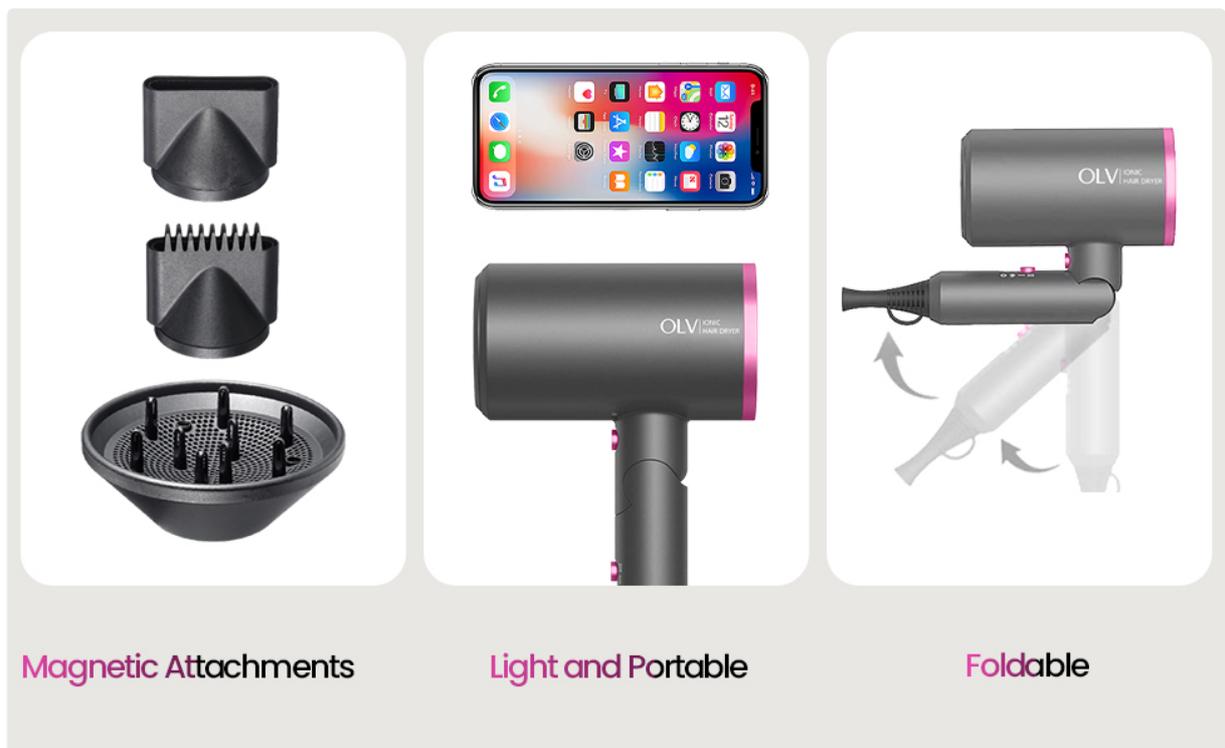

Figure 5: Magnetic Styling Attachments. This image displays the styling concentrator, smoothing nozzle, and diffuser, designed to meet various styling needs.

Your OLV hair dryer includes three magnetic attachments for versatile styling:

- **Styling Concentrator:** Directs airflow to specific sections of hair for precise styling and smoothing. Ideal for straight or wavy hair.
- **Smoothing Nozzle:** Provides a gentle, wider airflow for a smooth finish. Suitable for all hair types to reduce frizz.
- **Diffuser:** Distributes air evenly to enhance natural curls and waves, adding volume and minimizing frizz. Best for curly or permed hair.

To attach, simply align the desired accessory with the magnetic ring on the front of the hair dryer until it snaps into place. To remove, gently pull the accessory away from the hair dryer.

MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your hair dryer.

- **Cleaning the Air Filter:** The hair dryer features a double safety non-removable filter. Periodically check the rear air inlet for any accumulated dust or hair. Gently wipe it clean with a soft, dry cloth. Do not attempt to remove the filter.
- **Cleaning the Exterior:** Wipe the exterior of the hair dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, ensure the hair dryer is cool and unplugged. The foldable design allows for compact storage. Use the convenient hanger loop on the cord for easy hanging.
