NORTH STAR Northstar Women's Black Full Deerskin Dress Glove User Manual

Model: 411B-parent

INTRODUCTION

Thank you for choosing NORTH STAR Northstar Women's Black Full Deerskin Dress Gloves. These gloves are crafted from high-quality materials to provide comfort, warmth, and durability. This manual provides essential information on the features, proper usage, care, and specifications of your new gloves to ensure their longevity and your satisfaction.

Image 1: A pair of NORTH STAR Northstar Women's Black Full Deerskin Dress Gloves. The gloves are black, made of smooth deerskin leather, and feature a fleece lining visible at the cuff. They are shown resting on a white background.

PRODUCT FEATURES

The NORTH STAR Northstar Women's Black Full Deerskin Dress Gloves are designed with the following key features:

- **Full Grade A Black Deerskin:** Provides a soft, supple, and durable exterior.
- **Keystone Thumb:** Offers superior flexibility and comfort, allowing for a natural range of motion.
- **TR2 Fleece Lining:** Ensures warmth and comfort in cooler conditions.
- **3 Inch Long Cuff:** Extends coverage for added warmth and a secure fit.
- **Rolled Leather Hem:** Provides a clean, finished look and enhances durability.

USAGE INSTRUCTIONS

These gloves are intended for general wear in cool to cold weather conditions, providing warmth and protection. They are suitable for daily use, driving, or as a stylish accessory.

Wearing the Gloves

1. Ensure your hands are clean and dry before putting on the gloves.
2. Gently slide each hand into the corresponding glove, ensuring fingers are fully seated in their respective compartments.
3. Adjust the cuff to sit comfortably around your wrist or over your sleeve, depending on your preference and outerwear.

Optimal Fit

Gloves should fit snugly but not restrict circulation or movement. Over time, deerskin leather may slightly conform to the shape of your hands, improving comfort.

CARE AND MAINTENANCE

Proper care will extend the life and maintain the appearance of your deerskin gloves.

Cleaning

- **Spot Cleaning:** For minor dirt or stains, gently wipe the affected area with a soft, damp cloth. Use a mild leather cleaner specifically designed for deerskin if necessary, following the product's instructions.
- **Drying:** If gloves become wet, allow them to air dry naturally at room temperature, away from direct heat sources (like radiators or direct sunlight). Do not tumble dry.
- **Avoid Washing:** Do not machine wash or submerge the gloves in water, as this can damage the leather and fleece lining.

Storage

- Store gloves in a cool, dry place away from direct sunlight and humidity.
- Avoid folding or creasing the leather excessively to prevent permanent marks.
- Consider using a breathable storage bag to protect them from dust.

Leather Conditioning

Periodically apply a high-quality leather conditioner suitable for deerskin to keep the leather supple and prevent drying or cracking. Follow the conditioner manufacturer's instructions.

TROUBLESHOOTING

While these gloves are designed for durability, here are some common concerns and solutions:

- **Stiffness:** New deerskin gloves may feel slightly stiff. They will soften and conform to your hands with regular wear. Applying a leather conditioner can also help.
- **Water Stains:** If gloves get wet and develop water spots, allow them to dry naturally. Once dry, gently rub the affected area with a clean, soft cloth to blend the leather. A leather conditioner can help restore uniformity.
- **Odor:** If an odor develops, air out the gloves in a well-ventilated area. Do not use harsh chemicals or strong deodorizers directly on the leather.

SPECIFICATIONS

Attribute	Detail
