SAFETY INFORMATION

This product contains small parts and is recommended for ages 12 years and up. Keep out of reach of younger children to prevent choking hazards. Adult supervision is recommended during assembly.

SETUP AND ASSEMBLY

Follow the included step-by-step visual instructions carefully. Nanoblocks are very small, so it is advisable to work on a clean, well-lit surface to prevent loss of pieces.

1. Unpack all block bags and the instruction sheet.
2. Sort blocks by color and shape to facilitate easier assembly.
3. Begin assembly by following the numbered steps in the instruction manual. Pay close attention to the orientation and placement of each block.
4. Use the provided images in the manual as a guide for each stage of construction.

OPERATING INSTRUCTIONS

Once assembled, your Nanoblock Cell figure is a static display model. While some minor adjustments to pose may be possible due to the nature of the blocks, excessive force can cause pieces to detach.

The figure is designed for display on flat surfaces. Avoid placing it in areas where it might be easily knocked over or exposed to direct sunlight, which could affect the plastic over time.

MAINTENANCE AND CARE

To keep your Nanoblock figure clean, gently dust it with a soft brush or a can of compressed air. Avoid using liquid cleaners or abrasive materials, as these may damage the blocks or fade their colors.

If pieces become loose, carefully reattach them by aligning the studs and pressing firmly. Store any spare or detached pieces in a small, secure container to prevent loss.

TROUBLESHOOTING

Missing Pieces: While rare, if you find a piece missing, double-check your work area and the packaging. If a piece is genuinely missing, contact KAWADA customer support for assistance.

Difficulty Assembling: Nanoblocks require precision. If you encounter difficulty, re-examine the instruction manual's images and ensure each block is correctly oriented and fully pressed into place. Sometimes, taking a short break and returning to the assembly can help.
