PRODUCT FEATURES

Blade Design

- **Precise & Sharp Blades:** Self-sharpening stainless-steel blades ensure a smooth cutting and trimming experience without snagging or pulling.
- **Skin-Friendly:** R-angle processing on the blades helps protect the skin during use.
- **Zero Cutting Blades:** Designed for close and precise trimming.

Controls and Display

- **On/Off Button & Turbo Mode:** Features a single button for power control and activating the turbo function for increased speed.
- **Digital LED Display:** Clearly shows battery power percentage, turbo indicator, and charging status.

Power and Charging

- **Long Operation Time:** The powerful 500 mAh Lithium-ion battery provides up to 100 minutes of cordless operation on a full charge.
- **Quick Charging:** Fully charges in approximately 2 hours.
- **Cordless/Corded Use:** Can be used wirelessly or while connected to the power cord for continuous operation.
- **USB Type-C Charging:** Convenient charging via power banks, adapters (5V=1A), or computers.

Versatility and Length Settings

- **Multiple Cutting Lengths:** Equipped with 3 attachment combs (1mm, 2mm, 3mm) for various hair lengths.
- **Trimming Range:** Offers a trimming range from 0mm (without comb) to 3mm (with combs).
- **Multipurpose Use:** Suitable for styling hair, beard, and body hair.

SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove all components from the packaging. Retain the packaging for future storage or transport.
2. **Initial Charge:** Before first use, fully charge the trimmer for approximately 2 hours using the provided Type-C USB charging cable. The LED display will indicate the charging status and battery percentage.
3. **Attach Guide Comb (Optional):** Select the desired guide comb (1mm, 2mm, or 3mm) and securely attach it to the trimmer head. Ensure it clicks into place. For a 0mm trim, do not attach any comb.

OPERATING INSTRUCTIONS

1. **Power On/Off:** Press the On/Off button once to turn on the trimmer. Press it again to turn it off.
2. **Activate Turbo Mode:** While the trimmer is on, press the On/Off button a second time to activate the Turbo Mode for increased cutting speed. The LED display will show the turbo indicator. Press again to return to normal speed.
3. **Trimming:** Hold the trimmer against the skin at the desired angle. Move the trimmer slowly and steadily against the direction of hair growth for an even trim.
4. **Changing Lengths:** To change the cutting length, turn off the trimmer, remove the current guide comb, and attach a different size.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your trimmer.

- Cleaning the Blades:** After each use, turn off the trimmer and remove any attached guide comb. Use the provided cleaning brush to remove loose hairs from the blades and the trimmer head.
- Oiling the Blades:** Apply a small drop of the lubricating oil (provided) to the blades after every few uses or when you notice reduced cutting performance. Turn the trimmer on for a few seconds to distribute the oil evenly. Wipe off any excess oil.
- Storage:** Store the trimmer in a dry place, away from direct sunlight and moisture. Use the blade protection cap to prevent damage to the blades when not in use.

SPECIFICATIONS

Feature	Detail
Model Number	V-956
Brand	VGR
Power Source	Corded Electric & Battery Powered
