BUYDEEM K2763 Lite

BUYDEEM Health Pot K2763 Lite Electric Kettle User Manual

Model: K2763 Lite

INTRODUCTION

Thank you for purchasing the BUYDEEM Health Pot K2763 Lite. This appliance is a versatile electric kettle designed for boiling water, preparing various beverages, and stewing food. It features precise temperature control and a removable stew pot for diverse culinary applications. Please read this manual thoroughly before use to ensure safe and optimal operation.

IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before using the appliance.
- Do not immerse the power base, cord, or plug in water or other liquids.
- Ensure the voltage indicated on the appliance matches your local power supply before connecting.
- Always place the kettle on a stable, flat, heat-resistant surface, away from the edge of the countertop.
- Do not operate the appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Keep the appliance and its cord out of reach of children.
- Avoid contact with hot surfaces. Use handles or knobs.
- Do not overfill the kettle beyond the maximum fill line to prevent boiling water from overflowing.
- Unplug from the outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- This appliance is for household use only. Do not use outdoors.

PRODUCT COMPONENTS

The BUYDEEM Health Pot K2763 Lite package includes the following items:

- BUYDEEM K2763 Lite Electric Kettle
- Glass Stew Pot (480ml capacity)
- Stew Pot Storage Rack
- Tea Infuser
- User Guide

SETUP

1. **Unpacking:** Carefully remove all packaging materials and inspect the appliance for any damage.
2. **Initial Cleaning:** Before first use, clean the kettle and stew pot. Fill the kettle with water to the maximum level, boil it, then discard the water. Repeat this process 2-3 times to remove any

manufacturing residues. Wipe the exterior of the kettle and the power base with a damp cloth.

3. **Placement:** Place the power base on a dry, flat, stable, and heat-resistant surface. Ensure there is sufficient space around the kettle for steam to escape.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet.

OPERATING INSTRUCTIONS

Basic Operation (Boiling Water)

1. Fill the kettle with the desired amount of water. Do not exceed the 'MAX' fill line.
2. Place the kettle securely on the power base.
3. Press the 'Menu/Time' button to select the 'Boil' function.
4. Press the 'Start/Pause/Off' button to begin boiling. The kettle will automatically shut off once the water reaches boiling point.

Preset Temperature Functions

The K2763 Lite offers 6 built-in preset water temperatures for various beverages:

- **100°C (212°F):** For black tea, herbal infusions, and general boiling.
- **85°C (185°F):** For coffee.
- **70°C (158°F):** For rice cereal.
- **60°C (140°F):** For honey water.
- **50°C (122°F):** For wolfberry tea.
- **40°C (104°F):** For milk powder.

1. Fill the kettle with water.
2. Place the kettle on the power base.
3. Press the 'Menu/Time' button repeatedly to cycle through the preset temperature options until your desired temperature is displayed.
4. Press the 'Start/Pause/Off' button to begin heating. The kettle will heat the water to the selected temperature and then maintain it if the 'Reheat/Keep Warm' function is activated.

6 Water Temperature Options

Using the Stew Pot

The included glass stew pot allows for preparing yogurt, porridge, rice, soup, and egg custard.

1. Place the desired ingredients into the glass stew pot.
2. Fill the main kettle with water to the appropriate level for stewing (refer to recipes or ensure the stew pot is partially submerged).
3. Carefully place the filled stew pot into the kettle.
4. Place the kettle lid on top.
5. Select the appropriate function (e.g., 'Soup', 'Congee', 'Yogurt') using the 'Menu/Time' button.
6. Press the 'Start/Pause/Off' button to begin the stewing process.

Preset and Timer Functions

The appliance supports presetting a start time for up to 18 hours and a keep warm function for 2 hours.

1. After selecting a function (e.g., 'Boil', 'Tea', 'Soup'), press the 'Preset' button.
2. Use the 'Menu/Time' button to adjust the desired preset time.
3. Press 'Start/Pause/Off' to confirm. The appliance will start at the set time.
4. To activate the 'Keep Warm' function, press the 'Reheat/Keep Warm' button after a program has finished or during operation. The appliance will maintain the temperature for up to 2 hours.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the lifespan of your appliance.

- Unplug and Cool:** Always unplug the kettle from the power outlet and allow it to cool completely before cleaning.
- Exterior Cleaning:** Wipe the exterior of the kettle and the power base with a soft, damp cloth. Do not use abrasive cleaners or scouring pads.
- Interior Cleaning (Kettle):** For general cleaning, rinse the interior with water. For stubborn stains or mineral deposits (limescale), fill the kettle with a mixture of water and white vinegar (1:1 ratio) or a descaling solution. Boil the mixture, let it sit for 30 minutes, then discard and rinse thoroughly.
- Stew Pot and Tea Infuser:** The glass stew pot and tea infuser can be washed by hand with warm soapy water. Rinse thoroughly and dry.
- Storage:** Ensure all parts are dry before storing. Store the stew pot on its storage rack.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Kettle does not turn on.	No power supply. Kettle not properly placed on base.	Check if the power cord is securely plugged in. Ensure the kettle is correctly seated on the power base.
Water does not boil or heat.	Incorrect function selected. Insufficient water.	Select the 'Boil' or desired temperature function. Ensure water level is above the minimum mark.
Kettle leaks.	Overfilled kettle. Lid not properly closed.	Do not fill above the 'MAX' line. Ensure the lid is securely closed.
Unusual odor during first use.	Normal for new appliances.	Perform initial cleaning by boiling and discarding water 2-3 times. The odor should dissipate.
Mineral deposits (limescale) inside kettle.	Hard water usage.	Descale the kettle using a water and vinegar solution or a commercial descaling product.
