Setup and Installation

Follow these steps carefully for proper installation. It is recommended to have a second person assist during installation.

1. Pre-Installation Checklist

- Ensure power is disconnected at the circuit breaker.
- Gather all necessary tools: screwdriver, wire strippers, ladder.

2. Mounting Bracket Installation

Secure the mounting bracket to the ceiling junction box. Ensure the bracket is firmly attached and can support the fan's weight.

Operation

Your WINGBO ceiling fan is operated using the included handheld remote control.

Remote Control Functions

- **Fan Speed:** Adjust between 6 forward speeds for optimal airflow.
- **Light Control:** Turn the LED light on/off and cycle through the 3 color temperature options (3000K, 4500K, 6000K).
- **Reversible Motor:** Switch between summer mode (downward airflow) and winter mode (upward airflow) to optimize air circulation.
- **Timer:** Set a timer for 1, 2, 4, or 8 hours to automatically turn off the fan.

Maintenance

Regular maintenance will help prolong the life and performance of your ceiling fan.

- **Cleaning:** To avoid scratching the finish, clean the fan with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Blade Balancing:** If the fan wobbles, check that all blade screws are tightened. Minor wobbling can often be corrected by balancing the blades using a balancing kit (not included).
- **Motor:** The DC motor is designed for quiet operation and requires no lubrication.

Troubleshooting

If you experience issues with your fan, consult the following common problems and solutions:

- **Fan does not start:** Check circuit breakers and wall switches. Ensure all wire connections are secure. Verify remote control batteries are working.
- **Fan is noisy:** Ensure all screws on the motor housing and blade attachments are tight. Check if the blades are properly balanced.
- **Light does not work:** Check wire connections to the light kit. Ensure the light function on the remote is activated.
- **Excessive wobbling:** Verify the mounting bracket is securely fastened. Check that all blade screws are tight and blades are balanced.
