1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your LOVMOR Wall-Mounted Cabinet. Please read this manual thoroughly before beginning assembly or use to ensure proper installation and safe operation. Keep this manual for future reference.

The LOVMOR Wall-Mounted Cabinet is designed for versatile storage in various rooms such as living rooms, bedrooms, kitchens, and laundry rooms. It features soft-close doors and is constructed from durable HDF (High Density Fiberboard) for enhanced moisture resistance and longevity.

2. SAFETY INFORMATION

- **Read all instructions:** Before assembly and use, read and understand all instructions and safety warnings in this manual.
- **Adult assembly required:** This product requires adult assembly. Keep small parts away from children during assembly.
- **Secure mounting:** Ensure the cabinet is securely mounted to a wall stud or appropriate anchor points to prevent tipping. Use suitable hardware for your wall type.
- **Weight limits:** Do not exceed the recommended weight capacity for shelves or the cabinet itself. Overloading can cause damage or injury.
- **Avoid climbing:** Do not allow children to climb on the cabinet.
- **Proper tools:** Use the correct tools for assembly as specified in the instructions.
- **Glass not included:** This cabinet does not include glass. Exercise caution if adding glass panels to ensure they are properly secured and meet safety standards.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, contact LOVMOR customer support.

Component	Quantity
Cabinet Panels (Top, Bottom, Sides, Back)	Varies by model
Cabinet Door(s)	Varies by model
Adjustable Shelves	Varies by model
L-brackets	Included
Hinges (Soft-Close)	Included
Screws (Flat-head, Phillips)	Included
Rubber Door Bumpers	Included
Shelf Brackets/Pins	Included
Installation Instructions	1

Tools Required (Not Included): Box cutter, rubber mallet, screwdriver (or power drill with appropriate bits).

4. ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. It is recommended to assemble the cabinet on a clean, flat, and soft surface to prevent scratches.

4.1. Unboxing and Preparation

Carefully open the packaging using a box cutter. Remove all components and lay them out on a protected surface. Verify all parts are present against the package contents list.

Glass Not Included

4.2. Assembling the Cabinet Box

1. **Attach L-brackets to Face Frame:** Secure L-brackets to the right and left sides of the face frame using screws. Pre-drilled holes indicate the correct locations.
2. **Attach L-brackets to Side Panels:** Attach L-brackets to the top and bottom edges of the side panels.
3. **Insert Side Panel to Face Frame:** Align and insert one side panel into the face frame, securing it using the clips.
4. **Repeat for Second Side Panel:** Follow the previous steps to attach the second side panel to the other side of the face frame.
5. **Insert Back Panel:** Align and insert the back panel into the grooves of the assembled sides and face frame.
6. **Secure Back Panel:** Attach clips to the top and bottom of the back panel where pre-drilled holes are located. Secure the back panel to the cabinet floor and top by screwing two flat-head screws into the pre-drilled holes.

Wall-mounted design allows you to cleverly save space while keeping it neat and tidy

4.3. Door Installation

1. **Insert Hinge Cups:** Insert the hinge cups into the existing holes on the backside of the cabinet door.
2. **Secure Hinges to Door:** Secure the hinges to the door using the flat-headed Phillips screws.
3. **Attach Rubber Door Bumpers:** Attach rubber door bumpers to the top and bottom corners of the door to protect the cabinet frame and reduce noise.
4. **Align Door to Face Frame:** Carefully align the door with the cabinet's face frame.
5. **Attach Door to Face Frame:** Secure the door to the face frame using the rounded Phillips screws provided.

4.4. Shelf Installation

1. **Insert Shelf Brackets:** Insert the shelf brackets into the desired pre-drilled holes inside the cabinet.
2. **Place Shelves:** Carefully place the adjustable shelves onto the installed brackets.

5. OPERATION

5.1. Soft-Close Doors

Your LOVMOR cabinet is equipped with soft-close hinges. This feature allows the doors to close gently and quietly, preventing slamming and extending the lifespan of the cabinet. Simply push the door gently to close, and the mechanism will engage.

5.2. Adjustable Shelves

The cabinet includes adjustable shelves to customize your storage space. To adjust a shelf:

1. Empty the shelf of all contents.
2. Remove the shelf by lifting it off its support brackets.
3. Relocate the shelf support brackets to the desired pre-drilled holes. Ensure all four brackets are at the same height for a level shelf.
4. Place the shelf back onto the support brackets.

6. MAINTENANCE

6.1. Cleaning

The cabinet's painted surface is designed for easy cleaning. To clean, simply wipe with a damp cloth. Avoid using abrasive cleaners, harsh chemicals, or excessive moisture, as these can damage the finish.

Image: Visual representation of the cabinet's HDF material properties, including durability, waterproof nature, and ease of cleaning.

6.2. Hinge Adjustment

If the doors are not aligning correctly or closing smoothly, the hinges may need adjustment. Most soft-close hinges allow for three-way adjustment (side-to-side, in-and-out, and up-and-down) using a Phillips head screwdriver. Refer to the specific hinge manufacturer's instructions for detailed adjustment procedures if needed.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cabinet is wobbly after assembly.	Screws not fully tightened; panels not properly aligned.	Ensure all screws are tightened. Check panel alignment and reassemble if necessary. Confirm proper wall mounting.
Doors do not close properly or are misaligned.	Hinges are not adjusted correctly or are loose.	Adjust the soft-close hinges using a Phillips head screwdriver. Tighten any loose hinge screws.

Problem	Possible Cause	Solution
Shelves are not level.	Shelf brackets are not inserted at the same height.	Remove shelves and brackets, then reinsert brackets into corresponding holes at the same level on both sides.
Scratches or damage during assembly.	Assembly on an unprotected surface or improper handling.	Always assemble on a soft, clean surface. Handle components carefully. Minor scratches may be touched up with appropriate paint.

8. SPECIFICATIONS

Feature	Detail
Brand	LOVMOR
Model Name	S-W3612GD-SG-US-DF
Product Dimensions	12"D x 36"W x 12"H
Color	Shaker Grey
Material	HDF (High Density Fiberboard), Engineered Wood
Finish Type	Painted
Door Style	Shaker
Mounting Type	Wall Mount
Special Feature	Durable, Soft-Close Doors
