Luminzone 7H3PL-3W BK

Outdoor Lamp Post Light Instruction Manual

LUMINZONE

Product Overview

The Luminzone Outdoor Lamp Post Light (Model: 7H3PL-3W BK) is a robust and aesthetically pleasing lighting solution for outdoor environments. Featuring a classic design with three heads and clear water ripple glass, it enhances the ambiance and visibility of your backyard, patio, garden, lawn, pathway, or driveway. Constructed from durable aluminum, this fixture is designed to be waterproof and weather-resistant, ensuring longevity and reliable performance in various conditions. It operates on AC power and is compatible with E26 base bulbs up to 100 watts (bulb not included).

Included Components

- Lamp Post Fixture (3-Head)
- Water Ripple Glass Shades
- Mounting Screws
- User Manual (this document)

Note: Light bulbs are not included and must be purchased separately. The fixture supports E26 base bulbs up to 100W MAX.

Setup and Installation

Before You Begin

Ensure the power supply to the installation area is turned off at the circuit breaker before beginning any electrical work. It is recommended to have a qualified electrician perform the installation if you are not familiar

with electrical wiring. Gather necessary tools such as a screwdriver, wire strippers, and electrical tape.

Assembly Steps

1. **Unpack Components:** Carefully remove all parts from the packaging and inspect for any damage.
2. **Prepare Wiring:** The fixture includes ground (copper), hot (black), and neutral (white) wires. Prepare these wires for connection to your existing post wiring.
3. **Mount Fixture to Post:** The base of the lamp post fixture is designed to fit onto a standard outdoor post. Secure the fixture to the post using the provided mounting screws. Ensure a stable and level installation.
4. **Connect Wiring:** Connect the fixture's wires to the corresponding wires from your power supply (ground to ground, hot to hot, neutral to neutral). Use appropriate wire connectors and ensure all connections are secure and insulated.
5. **Install Light Bulbs:** Insert E26 base light bulbs (up to 100W MAX) into each of the three sockets.
6. **Attach Top Cover:** Place the decorative top cover onto the fixture and secure it with the provided screws.

Figure 2: Detailed view of the lamp post fixture, highlighting the real glass construction and the E26 bulb socket. The base is designed for easy mounting onto a standard post.

Figure 3: An example of the lamp post light installed in a driveway setting, demonstrating its functional and aesthetic contribution to outdoor spaces.

Video Content Summary: An instructional video demonstrates the assembly of a single-head version of this lamp post light. It highlights the real glass construction and the simple wiring process involving ground, hot, and neutral connections. The video shows how the fixture mounts onto a post using three screws and how the top cover is secured. It also showcases the light's brightness when illuminated, emphasizing its suitability for front entrances and outdoor areas. The video confirms that light bulbs are not included and that the fixture is outdoor-rated and waterproof to protect internal electronics.

Operation

Once properly installed and wired, the Luminzone Outdoor Lamp Post Light operates like any standard outdoor light fixture. It requires an external power source (AC) and is controlled by the existing switch connected to its circuit. Ensure the correct E26 bulb type and wattage (up to 100W MAX) are used for optimal performance and safety.

Maintenance

To ensure the longevity and optimal performance of your Luminzone Outdoor Lamp Post Light, regular

maintenance is recommended:

- **Cleaning:** Periodically clean the glass shades and metal frame with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish or glass.
- **Inspection:** Annually inspect the wiring and connections for any signs of wear, corrosion, or damage. Ensure all screws and mounting points remain secure.
- **Bulb Replacement:** Turn off the power at the circuit breaker before replacing any bulbs. Allow bulbs to cool completely before handling.
- **Weather Resistance:** The fixture is designed to be waterproof and weather-resistant. However, extreme weather conditions may still impact its appearance over time. Regular cleaning can help maintain its aesthetic appeal.

Troubleshooting

- **Light Not Turning On:**
 - Check the circuit breaker to ensure power is supplied to the fixture.
 - Verify that the light bulb is correctly installed and not burnt out. Try replacing the bulb.
 - Inspect wiring connections for looseness or corrosion. Ensure all connections are secure.
- **Light is Dim or Flickering:**
 - Ensure the correct wattage bulb is used (up to 100W MAX).
 - Check for loose wiring connections at the fixture or the power source.
 - If using an LED bulb, ensure it is compatible with the fixture's electrical system.
- **Water Inside Fixture:**
 - Although waterproof, inspect the seals around the glass and where the fixture mounts to the post. Re-seal if necessary.
 - Ensure the top cover is securely fastened.

Technical Specifications

Feature	Specification
Brand	Luminzone
Model Name	7H3PL-3W BK
Color	3 Head - Water Ripple Glass
Material	Aluminum, Water Ripple Glass
Style	Modern
Light Fixture Form	Path
Room Type	Entryway, Garage, Hallway, Lobby, Yard
Product Dimensions	22"L x 22"W x 90.5"H
Specific Uses For Product	Garage, Driveway, Patio, Walkway

Indoor/Outdoor Usage	Outdoor
Power Source	AC
Special Feature	Waterproof
Control Method	Touch
Light Source Type	Halogen Lamp (compatible with LED, CFL, Incandescent)
Finish Type	Black Finish
Shade Material	Water Ripple Glass
Number of Light Sources	3
Voltage	120 Volts
Wattage	100 watts (MAX)
Bulb Base	E26
Mounting Type	Pole Mount
Item Weight	27.8 pounds
Certification	UL Listed

Warranty and Support

Luminzone is confident in the quality of its products. This Outdoor Lamp Post Light comes with **a1-year product warranty**. For any issues or support needs, please refer to the official user guide or contact Luminzone customer service.
